GENERAL NOTES

The headings of the respective classes in this Schedule are used only for convenience of classification, and shall not in any way affect the interpretation of the Tariff.

"n.e.c." means "not elsewhere enumerated."

The term "in bulk" when it appears in the Tariff, means

(a) goods loose without packing, or loose in barrels, casks or any other single outside package, but not including goods imported by parcel post;

(b) when in infernal packages, that the net contents of any immediate container of goods weigh not less than 16 pounds or measure not less than one imperial gallon.

Goods chargeable with duty by weight are, except where otherwise provided for, charged with duty on the net weight, which may be arrived at either by weighing net, or deducting from the gross weight the actual tare or an average tare agreed to by the importer.

"Piece goods" shall not include material which is defined by selvedge or by pattern for cutting up into separate articles.

Tins, jars, bottles and other receptacles of reputed weight or content to be deemed not less than such weight or content.

Twenty-four reputed half-pints, twelve pints, six reputed quarts, or four reputed imperial quarts to be deemed to be not less than one gallon.

A complete article imported in an unassembled condition, except where specially provided for, is liable to the rate of duty which would be applicable to that article if imported in a fully set up condition, notwithstanding that the constituent parts are packed separately and are separately provided for elsewhere in the Tariff.

Integral parts of an article which is liable to an ad valorem duty, or is free of duty, imported for replacement purposes, or as spare parts, shall be liable to the same rate of duty as the article itself, or free of duty, as the case may be, unless they are specifically excluded, or provided for elsewhere, in the Tariff.
