Mr. Botherly's Read
 The only thing of interest
 in this is the statement that
 the Belgians may organize a
 second battery (of 7.5 millimetre
 guns!)

H. V. Reed Esq of Colms Comg
Colms Office

Dear Reed:

I am much obliged by your interest with
result of enquiries for mules for the Congo
military authorities. - Our War Office is
seeing if anything can be done by the Remount
dept in Egypt. Supply from India would be
too deferred to meet the case. In the meantime the
Ec. & A. Co. has accepted a suggestion from
me to buy good local donkeys for the Mombasa
batteries & these are being collected. It may interest
you to know that they are considering the matter of
organising a 2nd battery for this zone, R. S. King
