W. Africa Med. Officers
Employment in East

Services would be acceptable but their presence would not enable other members of Staff to be released for service in Zanzibar. Enquiries how many and be available.

Mr. B. B. B. B. B.
Mr. A. A. A. A. A.

Separate minute in Dr. Paterson's file below when he is finally listed up receipt of message. I sent to Gen. East. We can add that it is not possible to say whether any other officers of the same rank with other than services for W. Africa, but that, if any so, his service in same rank services will be borne in mind.

This dashes our hopes of filling the vacant M.O. appointments in Zibar & Swaziland from East. (See Co. 56490 1/2 and Res. 2131 Zibar, which Mr. Read asked me to keep till this time came in.) I cannot help thinking that

they might be able to send
Dr. Pugh to Newland, and
another man to Juba especially
if they get a few more doctors
to assist them. It is desired to
put suggested the selection of
Dr. Price as W.M. Jambor, apparently
ignoring what is said in his
telegram.

I suffer the help Jambor & Pugh
in different mental compartments. Of course
if they get three or four W.M.S. doctors
it will enable them to release me; it
is almost axiomatic.

Dr. Pugh has now been dealt with, and
we have asked him to send Dr. Pugh
to Newland.
The Jambor vacancy is now

and the idea of sending a doctor to
Juba seems no immediate prospect of
being done.
But as the doctor will not
be able to get a few more
doctors to assist him, and the answer
for the temporary loan of a doctor
to Juba. It is possible that a
white man will agree to a temporary
loan of Jambor, but as the staff here
is so small it might cause some
heartburning if a temporary loan
with a high rate of salary and a duty
allowance were introduced among them,
he might quite easily be drawing more
salary than the P.M.S. & this objection
is not likely to last unless there are
now a considerable number of doctors
with very small salaries, depending
of pay.

He had to be here the position

Dr. Price as M.D. Zanzibar, apparently
ignoring what is said in his

we have asked G.P. to send Dr. Pugh

The Zanzibar vacancy still remains

and the issue of Zanzibar in Part 215
has shown no immediate prospect of
filling it. 659

Perhaps we had better wait until we
see what we can get a few more weeks
more to go to S. Africa, and then arrange
for the temporary loan of an E.A.D. No.
to Zanzibar. It is possible that a
British man will agree to go temporarily
to Zanzibar, but as the staff here
is so small it might cause some
heartburning if a temporary No.
with a high rate of salary and a duty
allowance were introduced among them;
it might quite easily be drawing more
salary than the P. and A. His objection
is not applicable to E.A.D. where there are
now a considerable number of doctors
military service, requiring medical services
of staff.

We had better bear the position in
mind in case another loaned No. is
secured for S. Africa and if anything
has happened in the meantime,?
DR should bring P.P. up in a report
