Assistant Master, Nairobi

The codewords in the original telegram
(18833) are somewhat corrupt, but I do not
think there is room for doubt that the salary is intended
to be £200 - £300. If so, the app'ts would appear to be
entirely new, as the salaries are sensibly in excess of
those of the present Headmasters. At present there are the
1st & 2nd Headmasters at £180 - 100 - 200 and 5 Assistant
Masters (1 principal) at £135. This seems to be a case,
therefore, in which before asking the Bd of Education for
re-estimates we should either await the estimate or ask the
Governor for a replacement.
