I do not think that ^{(release} this is in
consequence of our letter asking that
Sir H. Belfield should be spared as often
as he was required for the work of the
Pet. Bd., as Sir Henry told me this
morning that he was finishing up his
work at the Petroleum Executive on Monday.

Perhaps we should communicate the
substance of the last para to him, so
that he will know that it is on record
at the Co.
