Tropical Disease  
Bulletin

Col King's Pamphlet on Vaccination

1919

30 Oct

Last previous Paper

~~10829~~  
10829

Does not consider suitable for publication  
in Tropical Disease Bulletin gives reasons  
Considers not less than £50 should be paid  
to him by G.O.

Major Parkinson

I think we should take advantage  
of the proposal to have this pamphlet printed  
as a supplementary publication by the T.D.B.,  
assuming that sum of about £40<sup>+50</sup> can be  
provided. As the publication is intended  
for all tropical dependencies, they will all  
desire benefit from it, but it does not seem  
feasible to divide the cost of £40<sup>+50</sup> among  
so large a number; and - the circumstances are  
of might ask the Treasury to allow the Imperial  
Exchequer to shoulder the burden.

The remuneration of £50 does  
not seem much for a man of Col King's standing

~~Report~~

For spoke to me, and before drafting  
I submit the following remarks.

(1) How many copies shall we ask the  
T.O.P. to send to this office? 54

I am inclined to think that the basis  
should be something like this: 1 for each P.M.O.,  
D.P.M.O., S.S.O., S.M.O., <sup>50</sup> M.O.H., Bacteriologist  
in each dependency.

yes  
all  
(2) I draft to Colking saying Col has  
been willing to pay him \$50 as remuneration  
for the pamphlet.

yes  
all  
(3) I inform CA explaining the  
allocation as in (2) of remuneration, and send  
them copy covers with T.O.P. saying they may pay  
the cost, ~~but~~ <sup>publication</sup> to be divided among  
the T.A.C. Posts in equal amounts.

yes  
all  
(4) I send copy covers with T.O.P. and  
copy of (3) to all the Troop Aps. (Col. Posts)  
for information - that draft

by  
14. 11. 49

W. H. Stanley  
Lt. Col. 1st  
Lt. 1st

? as proposed in (2) (3) (4) -  
as to (1), I enclose a copy of what is being

no. 0. - otherwise they will simply  
be stuck away in prison holes  
in Offices of Prof. etc.

This will mean some Col  
get more more than others -  
but I doubt whether it will be  
worth while trying to divide  
up the cost proportionately.

I arrange for T & B to  
send next to F. A. Col. a  
list, sufficient for each  
no. - & of course include  
copy of our letter to T & B  
in (h) above

all

17.11.19

17.11.19

There are several points to consider.

- 1) who is to pay for publication & how is it to be  
done? Apparently the various colonies are as in  
the case of the £50 & I raise no objection although  
I think it is rather odd to make to ask them all  
to pay equally. Still the sum is small.
- 2) I do not think a copy should go to every M.O. - rather  
send Col. Wilford & Prof. Simpson - Santa has had  
20 copies & I some 50, I least 100 & require 200.  
this will give a reserve & let Prof. distribute as it  
likes.
- 3) What about the Eastern W. Indian & Pacific Colonies?

17.11.19

not obtained

55

A  
You will see that W. I. Dept  
don't think every no. should  
have a copy. I still think  
that in 2A they should -  
otherwise the inf. will not  
work down to the men who are  
doing the practical work.

In your decision, please.

=

- 2) of all tropical Col: including  
Eastern, W. I. & Pacific all  
to have copies, we must refer  
to those Dept. as to numbers  
required - but in that case it  
does not seem reasonable  
for Sap. African Col: only  
to foot the bill - & every Col.  
wh. receives copies shd  
pay its share to Col. King's  
honourarium & the cost of  
public: the amounts being  
all equal.

all

17.11.19

Dr. King

A. I think it for better to let no. have  
the chance of copying in their (at least  
a small number for the papers) than  
to get a large number of paper without  
any copies & then see a letter

(Nigeria's 200 million will be bought  
for £5).

B. I presume it would be necessary  
to consult the non-African Governments  
as a contribution, & I should prefer to  
let <sup>Tribunal</sup> Africa buy for contribution,  
other places buying others, & so  
keeping the T.D.B. as small  
as possible. There is of course no reason  
why they should get their fair  
at the cost of treatment of Africa.

Yes.  
H. J. H.

Oct. 17. 1919

I certainly think it would be necessary to  
consult the non-African Governments, and I view the step  
with considerable scepticism. The Eastern Colonies  
would probably reply that they knew as much about vacci-  
nation as any retired Colonel of the I.K.S., could teach  
them. The West Indian Governments where they could pay  
would not, and where they would pay, could not, but of course  
we could ask them if you like whether it is worth while  
to make this enquiry, when the whole cost is £200 is a  
matter which perhaps the heads of the Departments concerned  
could deal with better than I can.

11/20/19

30th October, 1919.

REC<sup>d</sup>  
31 OCT 19

Sir,

I have the honour to acknowledge the receipt of your letter of October 21 (40829/1919) and of the draft of a pamphlet by Col. W. G. King on the subject of vaccination.

2. I do not think that the pamphlet is suited for publication as a Sanitation Number of the Tropical Diseases Bulletin because such numbers deal with a variety of subjects of current interest to tropical sanitarians and this has rather the character of a monograph; but it might be issued by the Bureau as a supplementary publication. In that case, if the edition corresponded to that of the Tropical Diseases Bulletin viz. 1400 copies, we should have an addition to our printer's bill of 240 (on a rough estimate). In the present state of the Bureau's finances I do not think it is justified in shouldering this extra burden and suggest that the cost might be met from funds at the disposal of the Colonial Office. The Bureau would undertake the distribution of free copies and the pamphlet might be placed on sale as a set off against the cost of production.

3. On the matter of Col. King's remuneration it is difficult to advise. Col. King receives for the 'Sanitation' numbers of the Tropical Diseases Bulletin £75 per annum. At present three such numbers are published yearly so that he is paid at the rate of

£25 for each. Seeing that much of the Sanitation Numbers consists of extracts from the writings of other sanitarians, whereas in this pamphlet the Colonial Office has the benefit of Col. King's unrivalled experience and long continued research in India on vaccination problems I am inclined to think that the sum paid to him should be not less than £50.

4. I am retaining the pamphlet till I receive your reply.

I have the honour to be, Sir,

Your obedient Servant,

*Arthur G. Bagshaw*

Director.

Sir,

With ref to the letter from this Dept  
 of the 29th of Aug, I am to inform you  
 that arrangements have been made  
 for the publication of your pamphlet  
 on the subject of vaccination by the  
 Tropical Disease Bureau, and for copies  
 to be distributed among the Tropical  
 African Colonies and Protectorates, and  
 placed on sale for purchase by any  
 other tropical dependencies.

The C.A. for the C. have been  
 authorised to pay you the sum of fifty  
 pounds (£50) as remuneration for  
 your work in drawing up the  
 pamphlet.

 17/6/20*

Dear Parkinson,

The paged proofs of King's "Vaccination in the Tropics". Sheppard asked the printers how this came to be sent to the Printing Department of the Colonial Office. They replied that it was in consequence of a telephone conversation with Mr. Thomas Wilson. Probably there was some misunderstanding. The pamphlet has been very slow in going through partly owing to it being not on all fours with the Bulletin and partly to delays with the illustrations. There is now delay in obtaining the cardboard covers in which it is to appear, but the printers assure us it will soon be issued. We will retain the proof you have sent.

Yours sincerely,

*Arthur J. Sheppard*
