Jamaica. What has happened is that the H. & H. and I have taken the opportunity to be in connection with shipments of tanning bark from the A. I., to regularize the position as regards the Union and Jamaica. There has been various work with Jamaica I think about tanning materials from the U.S. (C. I.) have his and also a list of the tanning materials exported from Jamaica?

[I thought that Jamaica was mainly interested in Div-div.]

I was 1 ton before a bit. to give Jamaica for your custom.

ADJ ref/ups

Mr. Taylor.

The forest & logwood H. are circulating separately. They do not contain any info. to tanning materials as such. The S. R. cannot find correct about tanning materials as such.

For the figures as to div-div & bark please see sheet - enclosed.

January to Jamaica before which I referred 18806/15/11 was very full & case full noted in S. Report of 188 collection of 2.15 on bark subjects.

The 'articles mentioned' in the 2d.
lt. are 'cattle bank & mortgage
bank' - In view of the figures which
you have published, I don't see how
Jamaica comes in.

I think little Gov. but he is not
in a position to give licenses without
tanning materials & the U.S. unless
he is advised by the Secy. that the
American ministers have given
the promised guarantees. Both
Gov. Haly Hammond & Lt. St. John
have given the promised guarantees
in respect of Mortgage Bank & Cattle Bank
and the following firms in respect of
Div. Div.:

- Let^r L. Littlejohn & Co
- Let^r James W. Hyde & Co
- Let^r Andrew Smith & Co
- Let^r Smith & Schiller
- Let^r J. W. Necker & Co

} all of New
York

[There are also 2 San Francisco firms
but I omit these. The 5 firms mentioned
have signed the State settlements
guarantee which qualifies them
to receive from any kind of the
Empire tanning materials which

do not require further manufacture to be
can be used by tanners. W. Lowell & Co. 533
titles and that his condition is fulfilled by
Div. Div. but it will be as well, before the
Secy. is communicated with, if W. Blank got
his confirmed by the Imperial authorities
