Trans. 2 authenticated & 12 printed copies of the 1933
Appropriation Ordinance No 44 of 1932.

? signy rda.

H.S. Parris
20/2/33

Yes. The Revised Estimates which we are
expecting next month will probably offer some
of the totals in the schedule, but there is no
chance for delivery up to date.

21/2/33

area, should be with further,
that the Treasury are aware of
these commitments.

to G.S.

28/2/33

alone

The Director has suggested that it would
be desirable now to scrutinise in detail
the estimates for those services which
do not come within the terms of reference
of the Local Expenditure Advisory Committee,
and which are not likely to be allotted.

The services so excluded are

- (1) Loan Service
- (2) Pensions
- (3) The Northern District K.A.R.
- (4) The local native services detailed
in Appendix I Schedule 9 page 85 of
the Moyse Report.

(1) requires no comment and as the
services in (4) comprise only a portion of
the Departmental expenditure that cannot
now be usefully examined.

(1) Loan Service has already been
adequately reported of the approval reduction
to the legal minimum of £1% of the
sinking fund contribution of the 1921 loan:
it is not yet possible to say what
modification if any will be necessary
to provide for interest on the £260,000
required for the Land Bank.

This leaves for consideration Heads

vide Revenue
Head XI item 11.

Heads XVI and XVII a. Provision for
the Defence Force shows a reduction of £3
£2,600. Uganda have agreed to contribute
£50 of the £150 provided for the newly
constituted Naval Volunteer Reserve
the formation of which was recently approved
by O.C.

There remain the K.A.R. items. In these
estimates full provision for the N. Districts
is made and the Uganda share is
recovered under Revenue Head XI item 10.
The only noteworthy increase in this under
item 129 for the upkeep of the mechanical transport.
The provision in the estimates for 1931 was
£12,500. I pass through the scroll for
any comment on the K.A.R. items.

H.S. P. 11/33
7/3/33

Major G.H.

Unless you wish to draw
attention to any point, I have no
comment. The Uganda contribution
is in the correct proportion (33.7%).

(I see that Kenya still retains
its K.A.R. band, a luxury which
Tanganyika has had to forgo.)

S. J. Seal
8/3

I have no comment, in fact.
The estimates as in accordance
with the Legislative Council's approval, except that the
subsidies of the S.T. have been reduced from 6

to it.

(I agree that if any act has to be made, the Board must be satisfied before any of the following reasons).

S.J. Cole
8-3-33

? Shewn prob by pending receipts of the Revised Estimate

Note Sir C. B. Cottonley

H.S. Parris

10/3/33

P. Parris

As General Bygone 222 (head) the 4th 8th 11th 33
States that action on the day journal for the examination of the Estimates on the light of the Report. Accordingly the report will be taken on 10th April. A general details of the working of the year 1932.

As compared with the Lord Moyne's estimate on page 122 of his report the revenue is less by about £35,000 and the expenditure allowing for economies less by about £70,000. The deficit on the year's working is ∴ £109,509 as compared with Moyne's estimate of £144,662 - a difference of only £35,000 odd.

Seeing that Lord Moyne's estimate was made prior to the 8th May 1932 (the date on which he left Kenya) it has proved to be very close to the actual figures and it may be considered desirable to

inform him of this.

? Send a copy of 4 to Secretary 4
so for info with reference to 3.
Mentioning, with a reference with Sir C. Cottonley's minutes of 28/2, that on the year's working the position is about £85,000 better than Lord Moyne had anticipated and that there may also be ^{some} improvement as regards commitments seeing that the latest statement of assets and liabilities (that for Nov 1932) shows about ~~£7,000~~ less outstanding than the statement on page 122 of Moyne's report.

H.S. Parris

19/4/33

x Roughly :- local loans £5,000
agri. advances £6,000
unallocated & loans - £18,000
1933.

I should like, naturally to send Major Forbes-Adams - copy of para 3, for communication to Lord Moyne.

P. Parris
19

Sir C. Cottonley

You should see this: it is better than one expected but of course it's not nearly good enough. It would be as well to send Lord Moyne a copy of the whole despatch as he will no doubt be interested in the position. As Mr. Panton says his estimate was surprisingly near the mark.

Wood

and a copy to Mr. Brine on request - and we will also send a copy with the last paragraph. 22/4/33

So proved. As a result
an objection is complete.

14. O.A.S. Tel. 126. _____ 24 July 33

DESTROYED UNDER STATUTE

... instructions regarding the Estimates may be
given by ...

Mr. Flood.

1. The original 1933 estimates were approved in the expectation that revised estimates for the year would be available by the end of April amending the original revenue estimates by adding the proceeds of income tax and the original estimates of expenditure in accordance with the recommendations of the Expenditure Advisory Committee.

If these two modifications had been effected we should then have had a stable basis for the year's budget on which to found our criticisms, and on which to invite the Treasury to comment.

2. This anticipated ^{stability} had not been achieved when the Revised Estimates passed Legislative Council in May. The decision regarding income tax was not communicated to the Kenya Government until June 7th; many of the Expenditure Advisory Committee's proposals awaited a decision; and there were other factors still indefinite.

3. Since the Revised Estimates reached the Colonial Office, important decisions have been taken calling for a modification in the figures presented. These are enumerated in para. 5 below. But even so, there are still so many elements of uncertainty that any forecast of the probable out-turn of the year is still a matter for wide speculation.

4. The relative totals are:-

Revenue

	1932 (Actual) £	1933 (Original Ests.) £	1933 (Revised Ests.) £
Revenue	3,046,115	3,053,580	3,046,115
Expenditure	3,119,723	3,267,747	3,222,210
Deficit	73,608	214,167	176,095

But as explained in the preface (pp. 4 and 5 of the Revised Estimate) the expenditure figure shown above should be increased by the sum of £16,484 if Lord Wagne's proposal for a Native Betterment Fund is carried out. On the assumption that this will be done, the real figures in the last column of the above table should be

Revenue	£3,046,115
Expenditure	£3,240,694
Deficit	£194,579

5. But to appreciate the actual position, account must be taken of the following accessory factors which must necessarily modify the final picture:-

A. Revenue.

(i) Proceeds of Alternative Proposals.

As the legislation is not yet passed, it is impossible to form a close estimate of the yield in 1933. Allowing for the halving of the Company's tax (already agreed to) and the postponement of effective imposition of that tax, the Backdoor and Landing taxes and the increased Stamp Duties, it would not be surprising if the nett access to 1933 revenue under these heads worked out at £80,000.

(ii) The alterations in Customs duties effected at the end of June were estimated to produce an additional £35,000 ^{to Kenya + Uganda} in a full year, say in 1933 £17,500. *Of this, Kenya will receive about 70% - say £12,000.*

(iii)

(iii) Trade and Agriculture.

On the one hand there have been no locusts this year and prices generally have been on the up grade. The railway figures show a distinct improvement in the movement of goods though much of this must of course be credited to Uganda.

On the other hand, the disastrous drought (only partially foreseen when these estimates were prepared - see p.2 of the Select Committee's Report, No.11 on this file) will inevitably affect the proceeds of coffee sales both this year and next, and may notably reduce the yield of native hut and poll tax.

It is impossible to equate these two factors: the most that can be hoped is that they may approximately cancel out.

B. Expenditure.

(i) Many of the major recommendations of the E.A.C. are still under consideration. Some (e.g. abolition of house allowances) seem unlikely to be accepted; others (reduction of pension constant, alteration of salary scales, provincial re-organization) if adopted cannot effect ~~any~~ savings ⁱⁿ the current year.

(ii) If the loan for £300,000 is floated this week, the Colony will have to find about £8,500 this year in additional loan charges. Part of this will, of course, be recovered from borrowers from the Land Bank, but not in time to affect this year's figures.

6. On the above admittedly indefinite data it seems possible that the real deficit for 1933 may be reduced from £194,579 by (£80,000 plus £12,000 minus £8,500 =) £83,500, i.e. brought down to the neighbourhood of £111,000. £111,000

In that event the nominal excess of assets over liabilities on the 31st December, 1933, will be about £147,000 instead of the £76,000 forecast on p.10 of these Estimates.

7. The foregoing appreciation is obviously guess-work to a large extent, and even now we are not in a position to present a definite picture to the Treasury for their approval. Moreover, seven months of the financial year have already elapsed and in the unlikely event of the Treasury's wishing to suggest any changes they could not be put into effect in time to make such difference. It seems, therefore, a mere waste of time to consult the Treasury formally before approving.

? Telegraph as in draft herewith, and recirculate for an explanatory letter to the Treasury and for further investigation (on the appropriate papers) of the position as regards the Native Betterment Fund.

W. B. B. 2/17
Note: Since drafting the above, I have had a full discussion with Treasury, who agree to the action proposed.
W. B. B. 2/17

Sir C. Bottomley

Mr. Treasurer's proposal is the only one which we can adopt, in the circumstances. As he says discussion would be largely academic because we

simply cannot forecast either

- a) The yield of new loans
- b) The possible improvement of trade - these are some signs of this.

The Belmont Fund is a complication. I incline to the view that we should not try to start it in respect of 1933 in which case the £18,484 would be available for general revenue, after all Kenya is so hard up that it may have to economize on the Belmont services and possible savings should go to general revenue in the present year.

Review for National Belmont Fund.

J. G. Flood
31.7.33

I think the draft will do very well. The hint at an 'unpredictable commitment' in para 7 is meant to cover the Lyons Carter Commission. It had been on the cards that Kenya would be faced with a huge liability if the Commission had swallowed all the claims put up to it, but Sir Lyons Carter assured us that the liability would not be great - of the order of £25,000 or £30,000 with something to set off against it.

KENYA

RECEIVED
25 SEP 1935
G. O. DEGY

50th August, 1935.

Amended (21)

Sir,

I have the honour to transmit herewith two authenticated and twelve printed copies of "An Ordinance to Apply a Sum of Money for the Service of the Year Ending the 31st Day of December, 1935", No. XXXVI of 1935, together with two copies of the Legal Report by the Attorney General.

2. This Ordinance passed its third reading in the Legislative Council on the 10th August, 1935, and I assented to it in the name of His Majesty on the 25th August, 1935.

3. The necessity for this Ordinance arises from the fact that Revised Estimates for the year 1935 were passed by the Legislative Council on the 10th May, 1935.

I have the honour to be,

Sir,

Your most obedient, humble servant,

Arthur Wode

ACTING GOVERNOR.

THE RIGHT HONOURABLE
MAJOR SIR PHILIP CUNLIFFE-LISTER, P.C., G.B.E., M.C., M.P.,
SECRETARY OF STATE FOR THE COLONIES,
DOWNING STREET,
LONDON, S. W. 1.

LEGAL REPORT.

THE 1933 APPROPRIATION BILL, 1933.

In my opinion, His Excellency the Governor
may properly assent to this Bill in the name and on
behalf of His Majesty.

Nairobi.

11th August, 1933.

ATTORNEY GENERAL.

No. XXXVI

//
1933

Colony and Protectorate of Kenya.

IN THE TWENTY FOURTH YEAR OF THE REIGN OF
HIS MAJESTY KING GEORGE V.
HENRY MONCK MASON MOORE, C.M.G.,
Acting Governor.

Assented to in His Majesty's
name this 25 day of August,
1933.

H. M.-M. MOORE.

Acting Governor.

AN ORDINANCE TO APPLY A SUM OF MONEY
FOR THE SERVICE OF THE YEAR ENDING
THE 31st DAY OF DECEMBER, 1933

ORDINANCE No. XXXVI of 1933

An Ordinance to Apply a Sum of Money for the Service of the Year ending the 31st day of December, 1933.

ENACTED by the Governor of the Colony of Kenya, with the advice and consent of the Legislative Council thereof, as follows:—

1. This Ordinance may be cited as "the 1933 Appropriation Ordinance, 1933." Short title.

2. The Public Revenue for the year 1933, and other funds of the Colony and Protectorate of Kenya are hereby charged towards the service of the year ending the 31st day of December, one thousand nine hundred and thirty-three, with the sum of three million, two hundred and twenty-two thousand, two hundred and ten pounds. Public revenue charged.

3. The money granted by this Ordinance shall be applied for the purposes and services expressed in the Schedule annexed hereto. Application of money granted.

4. The Treasurer of the Colony and Protectorate of Kenya is hereby authorized and required from time to time upon the warrant or order of the Governor to pay out of the Revenue and other funds of the Colony and Protectorate of Kenya, for the several services specified in the Schedule, the said sum of three million, two hundred and twenty-two thousand, two hundred and ten pounds, which will come in course of payment during the year ending on the 31st day of December, one thousand nine hundred and thirty-three. Treasurer's authority for payment.

5. The 1933 Appropriation Ordinance, 1932, is hereby repealed. Repealed.
No. 47 of 1932.

TREASURY CHAMBERS.

S. 37849/01/33

23 August, 1933

23 AUG 1933
F. G. B. G. Y.

Sir,

No 16

I have laid before the Lords Commissioners of His Majesty's Treasury Mr. Flood's letter of the 15th instant (3070/33) on the subject of the Kenya Estimates for 1933 and I am now to request you to convey to the Secretary of State the following reply.

2. My Lords note that the Estimates, which were framed before decisions had been taken on the form of new taxation and on many of the recommendations of the local Expenditure Advisory Committee, show the following net totals (excluding re-imbursments and cross-entries):-

Revenue	£1,965,040
Expenditure	<u>£2,141,155</u>
Deficit	<u>£ 176,095</u>

3. The additional revenue to be obtained from taxation imposed as an alternative to income tax is estimated at £111,000 in a full year but a smaller amount will be collectable in 1933. In addition certain tariff

The Under Secretary of State,
Colonial Office.

adjustments

adjustments are expected to increase the yield of the Kenya-Uganda customs revenue by about £35,000 in a full year, Kenya's share in 1933 being estimated at about £12,000.

4. The extra revenue will reduce substantially the deficit shown in the printed Estimates and My Lords note, further, that local economic conditions show a slight improvement and that the Secretary of State is accordingly not without hope that the final outturn of the year may prove to be more favourable than is anticipated in the revised Estimates. At the same time They feel bound to point out that deficits of approximately £110,000 and £150,000 were incurred in 1932 and 1931 respectively although surpluses of approximately £50,000 and £75,000 were budgetted for.

5. In view of the difficulty of framing accurate Estimates for Kenya at the present time, My Lords would be glad to be furnished not later than the end of November next with a revised estimate of the probable outturn for

1933

1933 based on the latest returns available, together with a preliminary forecast for 1934.

6. My Lords are glad to note that the Secretary of State hopes that the 1934 budget may show a surplus and They share his confidence that the local administration, which has already effected large reductions in expenditure, will continue its policy of economy. They cannot overlook the fact, however, that the surplus balances of Kenya have already fallen considerably below the amount required to provide working capital and that, if it should prove impossible to produce a favourable budget in 1934, the financing of the Administration may present a serious problem. They trust that the report to be rendered in November next will be such as to re-assure Them on the financial outlook generally.

I am,

Sir,

Your obedient servant,

2070732

DRAFT

THE SECRETARY,

TREASURY.

(3)

With reference to the correspondence terminating with Mr. Grieve's semi-official letter of the 17th of February (No. S.37849/01/33) I am, etc., to transmit to you to be laid before the Lords Commissioners of the Treasury a copy of the revised Estimates of Revenue and Expenditure, 1933, of Kenya Colony and Protectorate, to which (after semi-official consultation with Their Lords Commissioners' advisers) ^{given by telegram} his approval was extended on the 31st of July.

2. It will be observed that these Estimates were passed by the Legislative Council on the 10th of May. At that time no decision had been taken as to the form of new taxation

to be adopted, nor had it proved possible to ^{achieve} obtain finality in regard to many of the recommendations of the ^{Local} Expenditure Advisory Committee.

3. In the following month Sir Philip Cunliffe-Lister decided that additional revenue should be obtained, not by means of an income tax, but from a series of alternative proposals which are summarised in paragraph 10 (page 21) of the enclosed Report of the Alternative Revenue Proposals Committee. It will be seen that, in the Addendum to their Report, the Committee anticipated that the total yield from these new taxes would amount to £111,000 in a full year. The Bills to give effect to these measures passed their second reading in the Legislative Council on the 4th of August. Copies of the Ordinances will be forwarded for Their Lordships' information when received from the Colony.

DRAFT.

20
4. Certain tariff adjustments introduced with effect from the end of June are expected to increase the yield of the Kenya-Uganda customs revenue by about £35,000 in a full year. The share accruing to Kenya during 1933 may be placed at about £12,000.

5. As regards expenditure, the Secretary of State has now agreed to accept certain of the major recommendations of the Expenditure Advisory Committee, among which may be mentioned the reduction of the pension constant for new entrants from 1/480th to 1/600th and the adoption of lower initial salaries for certain branches of the public service. Other proposals ^{deposited} ^{submitted} are still under ^{consideration} review but it will be appreciated that any savings resultant ^{therefrom} ^{therefrom} will not be apparent during the current year.

6. Such evidence as is available

indicates

indicates that economic conditions in Kenya have slightly improved during 1933. The devastations of locusts, which have so hampered production during the past few years, have not recurred during the present season; on the other hand, a serious drought appears to have reduced very substantially the exportable surplus of crops, particularly coffee, and may prove to be not without effect on the yield of Native Hut and Poll Tax.

7. In the light of these various factors, Sir Philip Cunliffe-Lister is not without hope that the final outturn of the current year may prove to be more favourable than is anticipated in the revised estimates, and that, in the absence of any unforeseen set back or unpredictable commitment, the budget for 1934 may show a surplus of revenue over expenditure.

He relies with confidence on the

GOVERNMENT HOUSE
NAIROBI
KENYA

3rd June, 1955.

Sir,

I have the honour to refer to Mr. Moore's despatch No. 501 (Reserved) of the 13th May, 1955, under cover of which were forwarded two copies of the Report of the Select Committee on the Estimates for 1955.

2. The Estimates for the year have been reprinted and I now forward two copies of the Revised Estimates for 1955 and two copies of Schedule of Additional Provision No. 1 of 1955. It will, I consider, be convenient for me to draw your particular attention to one or two Heads of Estimates before dealing with the matter of the rearrangement which has resulted in excluding the Native Betterment Fund Head.

3. You will observe that items 1, 4 to 11, 13 and 14 of the first Schedule of Additional Provision for 1955 have been embodied in the Revised Estimates. It is necessary to make particular mention only of items 6 to 10 which refer to the Income Tax Administration. In Mr. Moore's despatch No. 155 of the 25th February I informed you that two Special Warrants for £850 (to meet recurrent charges) and £200 (to meet non-recurrent expenditure) had been signed. Your approval was conveyed in your despatch No. 208 of the 25th March, 1955. These sums have now been included in the Revised Estimates under Heads X.A. and X.B.

THE RIGHT HONOURABLE

MAJOR SIR PHILIP CUNLIFFE-LISTER, P.C., G.B.E., M.C., M.P.,
SECRETARY OF STATE FOR THE COLONIES,
DOWNING STREET,
LONDON, S. W. 1.

Ans. tel. 15/55

No 5 30/2/55

No 1 31/2/55

No 2 31/2/55

No 10

In addition, provision has now been made for the staff of the Income Tax Administration to be expanded with effect from the 1st June, 1955. Whether or not the full expenditure under this Head will be incurred depends on your decision as to the introduction of Income Tax.

4. With reference to Expenditure Head No. XV, Medical Department, you will observe that these Revised Estimates do not in all respects tally with the recommendations contained in the Report of the Select Committee, although no alteration has been made in the total provision under this Head. The savings effected under items 17 (Assistant Surgeons) and 61 (Laboratory Assistants) have now been allocated against items 51 (Assistant Surgeons) and 62 (Laboratory Assistants) respectively; and the saving under item 15 (Medical Officers) has been divided between that item and item 40 (Health Officers). Items 17 and 61 therefore revert to £1,000 and £2,576 respectively, as shown in the Provisional Estimates, whilst items 51 and 62 now stand at £30 and £586 respectively. The saving of £1,355 recommended on item 15 has been divided as to £850 under that item and £485 under item 40, making the provision £8,954 and £1,151 respectively.

5. The increase in the estimate of the Mining and Geological Department (Head XVI.B) from £8,448 to £9,637 which has proved to be necessary in the light of mining developments during the early months of the year is more than counterbalanced by an increase in estimated revenue under item 3, Head VI, from £5,000 to £10,000.

6. I now turn to the Native Betterment services in the Departments of Agriculture, Education, Medical and Public Works. In paragraphs 2 and 3 of Mr. Moore's despatch of the 15th May you were informed of the result

of rearranging the Estimates in the manner recommended in the Report of the Select Committee on the Estimates; a rearrangement which consisted in the deletion of the Native Betterment Fund Head and the inclusion of expenditure on direct native services separately in the body of the Estimates of the four Departments mentioned above.

7. You will observe that in the preface to the Revised Estimates a comparison is made between the estimated expenditure on native services in those Estimates and that which previously appeared in Appendix "F" to the Provisional Estimates. While no change is shown in the estimated expenditure in the Agricultural Department, nor in the estimated cost of part-time officers engaged on native services, the following increases and decreases are shown under the remaining heads :-

	<u>Increase</u>	<u>Decrease</u>
	£	£
Education	415	..
Medical	150
Public Works	6,728

8. The net increase under the Education head is accounted for by an increase of £550 under item 14; the inclusion of a new item 115a "Colonial Share of Fees of Boys at Makerere .. £75"; and the reduction of item 105 by £210. The decrease under the Medical head is due to the reduction of item 110 "Grants-in-Aid African Maternity and Child Welfare Centres" from £2,200 to £9,050, while the decrease under the Public Works head is explained in paragraph 8 of Mr. Moore's despatch of the 13th May.

No 10

9. The net result of the increases and decreases referred to in the two previous paragraphs is that the estimated expenditure on native services in the four Betterment Fund Departments is reduced from £267,577 to £261,114. The difference between this figure and half the

average of Native Hut and Poll Tax for the period 1926-1931 amounts to £18,484. If, therefore, the Betterment Fund had been created on the lines recommended by Lord Moyne there would be at the present time an unallocated balance in that Fund of £18,484. Of this sum, £3,009 would fall to be regarded as a partial contribution from the Fund to the leave and passage costs of officers engaged on Native Services, in accordance with your telegram No. 264 of the 9th December. A balance of £15,475 would remain.

No 6
15316/31

10. As regards the main principle underlying the proposal to create a Native Betterment Fund, I informed you in my despatch No. 615 (Reserved) of the 22nd December, 1932, that the appointment of a Select Committee to consider the question would prove the best means of securing unofficial support for the creation of such a Fund. I hope that this Select Committee will sit at an early date. In the meantime I considered it desirable to take the advice of my Executive Council as to whether the sum of £18,484, referred to in paragraph 9 above, should be finally devoted to reducing the estimated deficit on the year's working (as was recommended by Elected Members in paragraph 5 of the Report of the Select Committee) or whether it would be a more satisfactory course at the present stage to earmark that sum for payment into the Native Betterment Fund, if and when that Fund is statutorily created, a course which is ^{explained} ~~mentioned~~ in paragraph 171 of the Report of the Select Committee.

No 2
11306/35

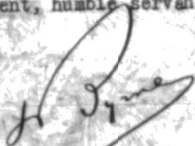

11. The advice of the majority of my Executive Council, with which I concurred, was that the sum of £18,484 should, for the time being, be devoted to reducing the estimated deficit on the year's working but that the question of the final disposal of this sum should be deferred until such time as practical means had been

devised for giving effect to the principles underlying the proposals of Lord Moyné for the creation of a Native Betterment Fund. You will observe that this is the course which has been followed in framing the Estimates which are now forwarded for your approval and that the position in regard to the Native Betterment Fund has been explained in the Preface to those Estimates.

I have the honour to be,

Sir,

Your most obedient, humble servant,

BRIGADIER-GENERAL.
GOVERNOR.

 4th Grade—Sh. 150 by Sh. 7/50 to Sh. 200.

PREFACE

The Estimates deal with gross expenditure, the authority of the Legislature being necessary to the expenditure of the total amount required whether or not part of it is met by re-imbursements from other sources on whose behalf the expenditure is incurred.

Certain additions to both sides of the Kenya budget are also made for accounting purposes. The cost of services rendered by one Government department to another appear in some cases in the departmental Estimates of Expenditure and a similar amount is credited to Revenue.

The prefatory schedule shows that a sum of £1,061,075 appears for the above reason on both sides of the budget.

The Revised Estimates for 1933 make the following net provision—

Total Estimated Net Revenue ..	£1,965,040
Total Estimated Net Expenditure—	
Recurrent ..	£2,111,029
Non-Recurrent ..	£80,036
	£2,191,185
Deficit ..	£176,095

NATIVE BETTERMENT FUND

In the Provisional Estimates as passed by the Legislative Council on the 19th December, 1932, there appeared under Head XXXV an estimated payment of £279,598 * into the Native Betterment Fund. The proposed method of expending this sum was as follows:—

(1) Agricultural Department (Direct Native Services) ..	£35,055
(2) Education (African) ..	73,082
(3) Medical (Direct Native Services) ..	115,194
(4) Public Works (Direct Native Services) ..	24,061
(5) Reimbursement to General Revenue on account of part-time officers, etc. ..	20,185
	£267,577
(6) Payment to Native Betterment Fund Reserve ..	£12,021
	£279,598
Grand Total ..	£279,598

2. Since no legislative enactment has been passed to give effect to Lord Moyne's proposals and, in law, no Betterment Fund is in existence, this Head XXXV has been deleted from the Estimates and the estimated expenditure on Native Services is shown separately under the appropriate departmental heads of Estimates. The estimated expenditure in 1933 on Native Services is as follows:—

(1) Agricultural Department ..	£35,055
(2) Education ..	73,497
(3) Medical ..	115,044
(4) Public Works Recurrent ..	17,333
Total ..	£240,929

* Half the average annual yield of Native Hut and Poll Tax for the period 1926-1931.

3. The estimated cost of officers in the above departments partially employed on Native Services, in so far as their time is devoted to such services, remains at ... £20,185
The total estimated expenditure on Native Services in 1933 amounts therefore to ... £261,114

4. If a Native Betterment Fund is created with retrospective effect in 1933 on the lines recommended by Lord Moyne, the amount to be paid into that Fund in respect of 1933 will be ... £279,698
There will therefore remain an unallocated balance in the Fund of ... £18,484

This figure includes an item "Public Works Extraordinary, Miscellaneous Works, £6,728" which appeared in the Provisional Estimates for 1933 (Appendix E, page 156) as a charge against the Betterment Fund.

			NET INCREASE, £49,507					

NOTE.—The increase shown is due to provision being made for the inclusion of Tanganyika Territory in a system of unified control of the Kenya, Uganda and Tanganyika Territory Postal and Telegraph Services. Against this increase, a contribution of £1,256 is being received from Tanganyika Territory. The decrease in the total expenditure for Kenya and Uganda, as compared with 1932, is therefore, £11,696.

Item No.	Sanctioned Expenditure 1932	Expenditure 1933	DETAILS	Total Estimated Cost of £	Revised Estimate £	Expenditure up to 31-12-31 £	Estimated to be spent up to 31-12-32 £	Revised Estimates, 1933 £

COLONY AND PROTECTORATE OF KENYA

Schedule of Additional Provision

No. 1 of 1933

1st January to 31st March, 1933

111

EXPLANATORY MEMORANDUM

to be read with the Schedule of Additional
Provision for the period from 1st January to
31st March, 1933

EXPLANATORY MEMORANDUM

HIS EXCELLENCY THE GOVERNOR

Maintenance of Government House Grounds, Mombasa, £20.

Item 1.

Required for renewing the background to the tennis court at Government House, Mombasa, the existing background having collapsed. Equivalent savings are being effected on the vote for 'Maintenance of Government House Grounds, Nairobi'.

AGRICULTURAL DEPARTMENT

DIVISION OF PLANT INDUSTRY.

Personal Emoluments, £50.

Items 2 and 3.

Co-operative Experiments, Seeds, Manures, etc., £26.

Funds provided for carrying out investigations in connexion with the Coffee Berry Disease have proved inadequate. The additional funds will be reimbursed by a contribution from the Coffee Board and will be credited to revenue.

AGRICULTURAL DEPARTMENT EXTRAORDINARY

Rabies Campaign, £1,150.

Item 4.

In 1932, provision of £550 was authorized, *vide* Schedule of Additional Provision No. 4 of 1932, in order to combat the rabies menace. It was necessary to continue this campaign during 1933, and a further amount of £1,150 was required for this purpose.

EDUCATION DEPARTMENT

EUROPEAN EDUCATION - BOARDING.

Medical Attendance, £130.

Item 5.

This amount is required to provide for medical attention to the pupils of the Nakuru European School. Provision was made in previous years for medical attendance at the Nairobi, Eldoret and Nakuru European Schools. For 1933, it was arranged that Government medical officers would carry out the work at the two former schools, but a similar arrangement could not be made in respect of the Nakuru School; through an oversight, however, the provision necessary for this service was omitted in preparing the 1933 draft Estimates.

INCOME TAX ADMINISTRATION

Personal Emoluments, £630.

Items 6 to 10.

Local Transport and Travelling, £80.

Contingencies, £140.

INCOME TAX ADMINISTRATION EXTRAORDINARY

Furniture and Office Equipment, £300.

Library, £50.

Required to meet preliminary charges in respect of staff and ordinary recurrent expenditure for four months ending 30th April, 1933; also to provide necessary office equipment and library for the Income Tax Administration.

MILITARY EXTRAORDINARY.

Road and Bridge Construction in Turkana, £1,025.

Item 11.

This amount represents the unexpended balance of the contribution received from the Sudan Government in 1931, and is now required to complete the construction of roads and bridges in Turkana.

SCHEDULE OF ADDITIONAL PROVISION
Required to Meet Expenditure in Excess of the Estimates for the Year 1933

RECEIVED

20 MAY 1933

GEN. OFFICE

15th May, 1933.

Sir,

With reference to your telegram No. 32 of the 28th January, 1933, I have the honour to confirm the following telegram which was despatched to you on the 11th May :-

No. 6
1834/32

"No. 92. Reference your telegram No. 32 of 28th January. As result of examination of provisional Estimates by a Select Committee in light of Expenditure Advisory Committee's Report following revised Estimates were passed by Legislative Council yesterday :-

No. 9

Total estimated gross expenditure . . . £5,223,210
Total estimated gross revenue . . . £3,048,115
Total deficit on year's working . . . £ 1,176,095

Revised estimate of assets over liabilities on 31.12.1933 £ 75,959.

"No material change in revenue estimates. Reduced deficit on year's working has been obtained as to approximately £7,000 by general economies and as to approximately £38,000 by proposal of Elected Members that unallocated balance and cost of any new services under old Betterment Fund should in view of present financial position be devoted to reduction of the Colony's deficit. This would present no accounting difficulties as I have agreed that Estimates as reprinted should show native services separately under their departmental heads of expenditure instead of under Head XXXV. In agreeing to this rearrangement I was not un mindful of the terms of your telegram under reference and your telegram No. 36 of the 9th December, but felt there was considerable force in the contention of Elected Members that until a Betterment Fund was statutorily created by local Ordinance it was premature to create a separate expenditure head of Estimates. As soon as Estimates are reprinted will send full explanatory despatch with recommendations."

No. 8
1834/32

2. As stated in the telegram referred to above, a full despatch will be forwarded as soon as the Estimates have been reprinted, but in the meantime I enclose two

THE RIGHT HONOURABLE
MAJOR SIR PHILIP CUNLIFFE-LISTER, F.C., G.B.E., M.C., M.P.,
SECRETARY OF STATE FOR THE COLONIES,
DOWNING STREET,

copies of the Report of the Select Committee on the Estimates for 1955, as passed provisionally by the Legislative Council on the 19th December, 1952. While in actual fact no very large decreases in expenditure have been effected, yet it will be observed that the total reduction in expenditure proposed by the Select Committee amounts to a sum of £45,557. This is explained by the fact that only approximately £7,000 of this amount represents a general net decrease spread over a variety of heads of departments after account has been taken of additional expenditure required on such heads of Estimates as the Mining and Income Tax Departments. The remainder of the sum of £45,557 is made up as to some £20,000 by the elimination of the item "Reimbursement to General Expenditure on Account of the Cost of Part Time Officers" appearing in Appendix "P" of the Provisional Estimates, and as to some £18,000 by the amount of the unallocated reserve that will be payable to the Native Betterment Fund, if it is eventually created on the lines advocated by Lord Moyné, plus the value of the unspecified miscellaneous works to the value of £6,728 shown under the Native Betterment Fund Head of Public Works Extraordinary on page 156 of the Provisional Estimates.

5. These latter savings are rendered possible by the recommendation to re-arrange the manner in which the direct native services are shown in the Budget this year for the reasons explained in the first five paragraphs of the Report. If those recommendations, including that contained in paragraph 5, are accepted, the result on the financial working of the year will be to decrease the estimated deficit by £58,072 to the figure of £176,095, as explained in paragraphs 169 to 175 of the Report. My final recommendations on this subject will be forwarded to you

in the despatch to which I have referred in paragraph 2.

I have the honour to be,

Sir,

Your most obedient, humble servant,

Wm. M. Moore

GOVERNOR'S DEPUTY.

COLONY AND PROTECTORATE OF KENYA

REPORT OF THE
SELECT COMMITTEE ON THE
ESTIMATES FOR 1933

As passed provisionally by the Legislative Council on the
19th December, 1932

REPORT OF THE SELECT COMMITTEE ON
THE ESTIMATES FOR 1933
AS PASSED PROVISIONALLY BY THE LEGISLATIVE COUNCIL
ON THE 10TH DECEMBER, 1932

Report of the Select Committee on the Estimates for 1933 as passed provisionally by the Legislative Council on the 19th December, 1932

1. The Committee met on the 25th, 26th, 27th and 28th April and the 1st, 2nd and 8th of May, 1933.

2. The Committee first considered the form of presentation of the Estimates for 1933 which had been devised to give effect to the recommendations of Lord Moyne for the creation of a Native Betterment Fund. Elected Members represented that inasmuch as no legislative enactment had been passed to give effect to Lord Moyne's proposals and in view no Betterment Fund existed, it was premature to include in Estimates (under Head XXXV) a payment into that Fund before the Legislative Council had given formal assent to its creation. They considered therefore that it would be preferable to show all estimated expenditure on direct native services in the body of the Estimates of the four Departments concerned, with an indication of the amounts estimated to be transferred to a Native Betterment Fund in the event of such a fund being created.

3. This course would involve a reduction of the estimated deficit on the working of the year by the amount which it was at present proposed to place towards the reserve in the Betterment Fund, and the inclusion of an explanatory note in the Estimates to the effect that should legislative action be taken to establish a Native Betterment Fund, the difference between half the average annual yield of native direct taxation for the years 1926-1931 (£279,534) and the actual expenditure in 1933 on direct native services in the four Native Betterment Departments (Agriculture, Education, Medical and Public Works) would be available for payment into that Fund, were Lord Moyne's allocation ultimately adhered to.

4. The Committee agreed to recommend the course proposed by Elected Members pending an investigation into "the most practical methods for applying the principles underlying the recommendation by Lord Moyne for the establishment of a Native Betterment Fund" by the Select Committee of the Legislative Council which had been appointed for the purpose.

5. In the view of the Elected Members the amount by which half the average of native hut and poll tax for the years 1926-1931 exceeds the estimated expenditure on native services in the Agricultural, Education, Medical and Public Works Departments in 1933 should be devoted to reducing the estimated deficit on the year's working and not earmarked for payment into the Native Betterment Fund if that fund is created.

6. The Committee then turned their attention to a consideration of the general economic and financial position of the Colony. It was noted with satisfaction that the working of the year 1932 had proved to be considerably more satisfactory than was anticipated at the time when the provisional Estimates for the year had been prepared. The actual result of the working of the year 1932 is reflected in the following figures—

Expenditure	£3,119,722
Revenue	3,010,213
Excess of expenditure over revenue	£109,509

7. The shortfall on the year's working therefore amounted to £109,509 as compared with the estimate of £230,000 at the time the provisional Estimates for 1933 were passed (vide page 16 of those Estimates).

8. The Committee noted that the difference of £110,491 was made up as follows:—

Savings in general expenditure	£89,602
Appreciation in the value of Post Office Securities	99,925
General Revenue Increases	27,964
	<hr/>
	£110,491

9. It was explained to the Committee that the crediting of the appreciation in the value of Post Office Securities to revenue was in accordance with the Colonial Regulations as recently amended. At the request of Elected Members the Treasurer agreed to take this matter up with the Director of Colonial Audit because, in the view of some of them, the method did not accord with sound financial practice.

10. Consideration of the production and export prospects in the main crops based on information supplied by the Acting Director of Agriculture revealed the following position:—

Coffee.—It was estimated that 9,000 tons would be exported during the year. However, 11,500 tons of the crop maturing towards the end of 1932 have already been exported and export of a further 9,000 tons at least from this and the early 1933 crop, before September, 1933, is anticipated. The effect of the March-April drought on the early 1933 crop will, it is believed, reduce its yield by the anticipated excess over the original estimate of the crop, which therefore remains. The drop in price for the main 1932 and the early 1933 crop has also been substantial, but the effect of the drought on the main 1933 crop cannot as yet be estimated; it does not, however, bear on the 1933 revenue estimates.

Maize.—The estimated exports of maize during 1933 amount to 587,000 bags as compared with 298,000 bags in 1932. The value of maize from the main 1933 crop exported late in 1932 and early in 1933 will considerably exceed the export value of the previous crop.

Wheat.—Ravages of locusts and disease have resulted in a deficiency of production. A substantial increase in the yield of the crop planted in 1933 and maturing in 1933-34 is at present expected. This increase will not, of course, have any beneficial influence on the revenue for the current year.

Sisal.—The estimated exports in 1933 amount to 16,000 tons as against 15,385 tons in 1932. Increased production in 1934 is at present anticipated.

11. The Committee inquired into the question as to how far any restriction in the financial accommodation, both short-term and seasonal, hitherto accorded the farmer and planter was affecting or was likely to affect the volume of produce available for export, with a consequential reflex action upon the Colony's income.

12. With the exception of any special requirements by the coffee industry as a result of the failure to date of the long rains so to which it is quite impossible to make any definite pronouncement or forecast at the present time the Committee felt satisfied that whilst some restriction in credit had occurred as was bound to occur in present day circumstances the position was not likely to be adversely affected under this head. The need appears to be to maintain the internal price level as in the case of maize, and for an increase in the capital made available for the Land Bank.

13. The Committee felt convinced that there is a real and urgent need in the interests of the Colony as a whole for a substantial increase in the funds made available to the Land Bank, and urge Government with all the force at their command to press for permission to place at the disposal of the Land Bank the maximum sum that the officials of this Bank advise that

they can effectively administer over the next two years. The Committee urge that the matter of keeping production at the highest level possible, thereby maintaining the Colony's income, is one that is just as vital as any question of reducing expenditure or of increasing revenue through additional taxation.

14. *Revenue.*—The Committee reached the general conclusion that the facts set out in the previous paragraph disclose no cause for material modification of the Revenue Estimates as shown in the provisional Estimates for 1933. This conclusion is in conformity with the decision reached by the Standing Finance Committee at the meeting held on the 24th March, 1933.

HEAD VI—REVENUE FROM GOVERNMENT PROPERTY AND ROYALTIES

15. From information of the development of mining activities received from the Acting Commissioner of Mines, the Committee was satisfied that increases in the mining revenue might be expected. They therefore recommend the following revised estimates of revenue under Head VI:—

Item 3. Mining Revenue:—

(a) Royalties	£3,000
(b) Fees	£8,000

HEAD XIII—COLONIAL DEVELOPMENT FUND.

16. The Committee approved the reduction of the revenue Estimate under item 1 from £405 to £250 and the inclusion of the following items under this Head of Estimates:—

Item 3. Experiments in Locust Control	£3,250
Item 4. Tsetse Fly Control	70
Item 5. Extension of Nairobi Aerodrome	2,000

(Vide also paragraphs 164-165)

REPORT OF EXPENDITURE ADVISORY COMMITTEE.

17. The Committee next turned their attention to the Report of the Expenditure Advisory Committee.

TOURS OF SERVICE.

(Chapter IV of Expenditure Advisory Committee's Report.)

Overseas Service.

18. The Chairman explained to the Committee the action that had been taken by Government as a result of the various recommendations contained in paragraphs 41 to 76 of the Report of the Expenditure Advisory Committee, some of which had been already before Government in the shape of interim memoranda before publication of the Report; and also as a result of the consideration of this question at the recent Governors' Conference.

19. *Tours of Service.*—The Committee was informed that the recommendations of the Expenditure Advisory Committee in regard to tours of service and overseas leave had been substantially accepted and had been put into effect as from the 1st January, 1933. The action taken was explained in detail in Sessional Paper No. 1 of 1932 which had been laid before the Legislative Council.

20. *Passages.*—The Committee was informed that action had been taken on the lines recommended by the Expenditure Advisory Committee to reduce passage concessions enjoyed by officers of Government. (Colonel Kirkwood, Captain Coiter and Mr. Bethister considered that officers should make a contribution to the cost of their boarding whilst on board ship.)

21. *Salary Scales, Age of Retirement, Pension Privileges.*—The Chairman explained the desirability of obtaining the maximum possible uniformity under this head in all the three East African territories, and pointed out

the practical difficulties that would arise, particularly in the case of Joint Service Departments, such as the Customs and Post Office and Telegraph Departments, if any departure from the existing common pension legislation were made. He explained that the question was fully discussed at the Governors' Conference held at Entebbe in February, when substantial agreement was reached on the following points in respect of terms of service for new entrants:—

- (a) That the salaries of Administrative Officers should in future start at £350 per annum, rising to £400 by the end of the first year and £475 by the end of the period of probation.
- (b) That if this proposal were given effect to, a corresponding revision should be made in the initial salaries of police officers, assistant treasurers, assistant auditors, customs officers and other similar classes of officers.
- (c) That the pension constant for the Colonial Service should be 1/600th instead of 1/480th as at present.
- (d) That the normal age of retirement should be 55, and that the regulations dealing with the age of retirement should be revised substantially in accordance with the recommendations contained in paragraph 66 of the Report of the Expenditure Advisory Committee.

22. The Chairman further explained that recommendations in this sense had been forwarded to the Secretary of State, whose decision in the matter was at present awaited.

23. These proposals represented a considerable advance in the direction advocated in the past by Elected Members, and since it had been possible to obtain general agreement among the neighbouring territories on these points, the Government considered the most urgent thing to do was to recommend the Secretary of State to introduce these amendments at an early date. This had been done.

24. The further recommendation in paragraphs 43 and 44 of the Expenditure Advisory Committee's Report that the existing privilege of free quarters should be discontinued and that officers should receive consolidated salary and be required to pay rent at the rate of 6 per cent of the minimum salary of the grade on which they are serving when in occupation of Government quarters had not, the Chairman explained, yet been fully considered by Government, but he undertook that it would be so considered at an early date. He pointed out, however, the implications of the proposal, both on the rates of salary and on pensions, and the complications which would arise in the case of officers of a joint service, and stated that it appeared unlikely on present information that neighbouring territories would be prepared to accept such a proposal. Elected Members recognized that side by side with any proposal for the consolidation of salaries a general salary revision would be required and expressed the view that the Government should appoint a Committee to examine both the question of salary scales, the cadre system and salary consolidation in connexion with the proposals made in paragraphs 60 to 65 of the Report of the Expenditure Advisory Committee.

25. Elected Members urged that any new appointments which were made should be made on the condition that they should be subject to whatever new terms of service might finally be decided upon.

26. The Committee considered that the proposal to divide the stations of the Colony into three classes—healthy, semi-healthy and unhealthy—instead of the present division into healthy and unhealthy—should be adopted. They therefore recommended careful examination of the classification of stations in the Colony with a view to their division into three, instead of two, classes.

27. Paragraphs 52-53.—Local Leave.—The Committee wished to urge the necessity of all officers obtaining local leave regularly, and endorsed the recommendation of the Expenditure Advisory Committee that European officers should be entitled to eighteen days' local leave per annum. The Committee trusted that the Railway Administration and hotels would do all they could towards providing facilities at reduced costs for officers while on local leave.

28. Paragraph 53.—The Committee understood the Indian members of the Committee endorsed the recommendation of the Expenditure Advisory Committee that no modification was called for in the existing regulations concerning local leave for the Asian Service, and expressed agreement with that view.

29. Paragraphs 68-76.—Pensions (Reference to paragraph 21 (c) above).—Elected Members endorsed the minority recommendation to paragraph 73 of the Expenditure Advisory Committee's Report that the pensions constant for future entrants to the Service should be fixed at 1/720th of the pensionable emoluments for each completed month of service.

30. Paragraph 77.—Widows' and Orphans' Pensions Scheme.—The Committee subscribed to the views expressed in paragraph 77 of the Expenditure Advisory Committee's Report, and recommended that contributions towards the Widows' and Orphans' Pensions Scheme should be paid into a Fund, from which future claims could be paid instead of being paid into general revenue. Their intention was that this Fund should be in the nature of a collateral support of the Scheme and not that the Scheme should be replaced by a Widows' and Orphans' Pensions Fund.

31. Paragraphs 78-81.—Local Civil Service.—The Committee was informed that the principle of a Local Service had been accepted, but the inauguration of that Service had been delayed pending the investigations which were being conducted into a suitable form of contributory pensions scheme.

32. In this connexion, copies of an Interim Report of the Civil Service Board were circulated to members.

The Elected Members protested against the delay which had occurred in bringing the Local Service into being, and some of them took exception to the fact that although the Civil Service Board had not yet been appointed in its final form with final terms of reference, the recommendations of the Fitzgerald and Merrick Committees had been referred to an *ad hoc* Civil Service Board under the chairmanship of Mr. Fitzgerald, appointed with certain defined terms of reference. They considered it unfortunate that if it was considered by Government that the Report of the Merrick Committee required modification in any respect it was not referred back to the Merrick Committee rather than to a different body, to which none of the Unofficial Members serving on the previous two Committees were appointed.

33. The result of this procedure was:—

- (a) the recommendations of the two previous Committees have been very materially altered by the third Committee, *vide* paragraphs 10 and 17, in spite of the prolonged and detailed consideration given to this subject by the previous two Committees; and
- (b) a difficulty has been "discovered" by the third Committee which was realized and provided against by a previous Committee. It was obviously impossible to establish any satisfactory contributory pensions scheme under a period of from two to three years. To provide against this, the Merrick Committee recommended the introduction of a Benevolent Fund on the lines of the Fund established by the Kenya and Uganda Railways and Harbours Administration, which Fund could be immediately established, could later be absorbed into a "contributory pensions" scheme, and should prove of substantial benefit to the servants of Government.

34. The result of this procedure was that for no material reason the Civil Service Board was not yet appointed and the establishment of the Local Civil Service was as much in the air as it was eighteen months ago.

35. The Chairman explained that there had not been the slightest intention on the part of Government to show any discourtesy to Unofficial Members who had served on the Fitzgerald and Merrick Committees who, it was appreciated, had given freely much time and trouble to the examination of this problem. The decision to appoint an *ad hoc* Board, whose Interim Report had been presented, was arrived at in the definite hope that such action would tend to accelerate a decision on the question. He did not consider it true to say that the establishment of the Local Civil Service was as much in the air as it was eighteen months ago. On the contrary, the Government had approved in principle the scales of salary proposed for the Local European Civil Service on the assumption that its members would be required to contribute an aggregate of 10 per cent of their salaries to a contributory pensions scheme or a provident fund, as the case might be, and as soon as the recommendations of the *ad hoc* Civil Service Board under the latter head had been received the matter could be finally dealt with.

36. The Chairman undertook that the matter would be dealt with and finally reached at the earliest possible date.

37. Paragraphs 82-89.—*Acting Allowances.*—Elected Members noted with regret that the recommendations of the Expenditure Advisory Committee for complete abolition of acting allowances, except in certain specified instances, had not been accepted in toto.

38. Paragraphs 87-92.—*Special and Duty Allowances.*—The Committee understood that Government had accepted generally the principle underlying the recommendations of the Expenditure Advisory Committee, subject to the proviso that certain allowances will have to continue to be paid to the present recipients, to whom they are personal.

39. Paragraph 93.—*Language Examination Fees and Bonuses.*—The Committee understood that Government had accepted the recommendations of the Expenditure Advisory Committee, except where they involved additional expenditure, viz.: The recommendation in sub-paragraph 5 involving the payment to vernacular examiners of Sh. 30 per candidate as against the existing fee of Sh. 20.

40. Paragraphs 94-100.—*Travelling and Mileage Allowances, etc.*—The Committee endorsed the recommendations of the Expenditure Advisory Committee concerning travelling and mileage allowances and the granting of interest-free advances to officers to purchase motor vehicles when it was in the interest of Government for the officer concerned to possess a car. The Committee was informed that these recommendations had been accepted.

41. It was appreciated that the recommendation for the re-introduction of modified travelling allowances would involve increases in departmental estimates on this account. The extent of such increases, so far as it is at present known, is indicated in the schedule to this report.

42. Paragraphs 101-105.—*Medical Attendance.*—Elected Members were unanimous that free medical attendance to the wives and families of officials should be withdrawn, as recommended by the "Fitzgerald" Committee, but opinion was divided as to whether medical facilities should be afforded by Government medical officers to the wives and families of officials at reduced cost.

43. Paragraph 106.—The Unofficial Members favoured the extension of office hours recommended by the Expenditure Advisory Committee.

44. Paragraphs 107-110.—*Office Organisation; Central Offices; Committees, etc.*—The Committee was informed that time had been consumed to enable decisions to be reached by Government in regard to these matters.

PROVINCIAL REORGANIZATION.

(Chapter V of Expenditure Advisory Committee's Report.)

45. The Committee was informed that Government was in general agreement with the proposed reorganization of Provinces, subject to consideration in detail of some of the recommendations. It was not possible to reflect the financial effect of reorganization in the Estimates for 1933.

AMALGAMATION OF DEPARTMENTS.

46. Paragraph 139.—*Secretariat, Chief Native Commissioner's Office, and Office of Local Government, Lands and Settlement.*—The Committee understood that Government favoured some form of reorganization, but time had been insufficient to enable a full examination of the very complex questions involved to be made.

47. *Legal and Registrar General's Departments.*—Elected Members considered that if the Registrar General was to remain a separate entity his department should be in offices attached to the Court. If, however, it was proposed to abolish the post of Registrar General and arrange for the work to be done by the Attorney General's Department, then of course amalgamation of the two departments would involve their being housed in one—the Legal Department's office.

ABOLITION OF DEPARTMENTS.

48. Paragraphs 143-146.—The Committee endorsed the recommendations of the Expenditure Advisory Committee in regard to the statistical departments, with the exception of the Native Registration Department and the Finger Print Bureau. The Committee's detailed recommendations are set out under the appropriate departmental heads in this report.

DEPARTMENTAL EXPENDITURE.

49. The Committee next considered the various departmental heads of Estimates in the light of the Report of the Expenditure Advisory Committee. Generally speaking, Elected Members supported the various recommendations of the Expenditure Advisory Committee unless very strong and cogent reasons could be adduced for varying those recommendations. If, however, the reductions in departmental expenditure recommended by the Committee could be achieved to the greater satisfaction of the Heads of the Departments concerned by means other than those recommended by the Expenditure Advisory Committee, Elected Members were not inclined to object to the adoption of such alternative means of effecting the necessary reductions. They appreciated that it was not in every Department possible to reduce expenditure in 1933 to the figure recommended by the Expenditure Advisory Committee, but regarded it as imperative, however, that departmental estimates should be reduced in 1934 to within the departmental allocations recommended by the Expenditure Advisory Committee. The Committee was informed that in this connexion a motion would be moved in the Legislative Council.

50. European Elected Members regretted that they had no alternative but to urge upon Government the acceptance of the Minority Report of the Expenditure Advisory Committee to the effect that an increased levy upon the salaries of Government servants is essential for the year 1934. With regard to such levy, however, European Elected Members (with the exception of Mr. Wright and Captain Cotter) considered a flat rate of levy would bear unduly harshly on the lower-paid ranks of the Service. They therefore recommended a tapering levy, with a maximum of 4 per cent.

51. Having consistently opposed levies on salaries, Mr. O'Shea preferred that the readjustment of remuneration to the reduced cost of living should be by way of revised salary scales and terms of service. Mr. Bomster was of the same opinion.

HEAD I—HIS EXCELLENCY THE GOVERNOR.

52. The Committee noted that the 1933 Estimates reflected all the recommendations contained in paragraph 157 of the Expenditure Advisory Committee's Report.

53. Elected Members supported the recommendation for the reduction in the Duty Allowance of the Governor contained in paragraphs 158-160 of the Report of the Expenditure Advisory Committee, with the proviso that this recommendation should be confined to future holders of the post.

HEAD II—ADMINISTRATION.

GENERAL STAFF.

54. The Committee appreciated that the reductions recommended by the Expenditure Advisory Committee could not be reflected in the Estimates for 1934.

NATIVE AFFAIRS DEPARTMENT; LOCAL GOVERNMENT, LANDS AND SETTLEMENT.

55. The Committee noted that it had not yet been possible to give adequate consideration to the proposal for reorganization of the Secretariat and the Chief Native Commissioner's Office contained in the Report of the Expenditure Advisory Committee.

LABOUR SECTION.

56. The Committee recommended modification of the Estimates for 1933 of the Labour Section to the extent shown in the Schedule to this report.

PROVINCIAL ESTIMATORS AND RADEP BUDGETARY.

57. The Committee recommended the adjustment of Provincial Estimates in the manner indicated in the Schedule to this report.

HEAD III—AGRICULTURAL DEPARTMENT.

Paragraphs 189-190 of the Expenditure Advisory Committee's Report.

58. A memorandum by Mr. Helm was circulated to the Committee.

59. The Committee was informed that the following posts referred to in the recommendations of the Expenditure Advisory Committee had been abolished:—

3, Clerks.

1, Laboratory Assistant.

NATIVE RESERVES.

60. The Committee reviewed the Estimates of expenditure on direct native services contained under Head I of Appendix I.

61. It was understood that, under Item 1, provision had been made to fill two vacant posts of agricultural officers for nine months, whilst under Item 2 and a provision was made for posts which were at present unfilled.

62. The Acting Director of Agriculture explained that two agricultural officers from overseas and two assistant agricultural officers to be engaged locally were urgently required in order to press forward the work of increasing the quality and quantity of the produce of Native Reserves. It was also proposed to engage an Indian agricultural assistant to develop the rice industry on the Tana River. The Director urged the desirability of having on the staff of the Agricultural Department officers who had been specially selected and highly trained scientifically, and stressed the fact that the policy of employing such officers had been thoroughly vindicated by the practical results which had already accrued.

63. After a general discussion on the policy of the Department in connexion with the economic development of Native Reserves, the Committee recommended that provision for the five posts, amounting to £1,644, should stand

124

under the main Agricultural Department Estimates Head, but that the posts should not be filled. It was recommended further that a note should be made in the Estimates to the effect that this sum was available for the purposes specified, and that the question of the desirability of filling the posts should be determined by the Betterment Fund Committee if and when that body met.

64. The Committee had no objection to the immediate appointment of the Indian Agricultural Assistant if Government were satisfied that this appointment would result in an immediate increase in production.

VETERINARY SERVICES.

65. The Acting Deputy Director of Animal Industry assured the Committee that if the number of Veterinary Officers were decreased it would be difficult or impossible to enforce the disease control regulations and in his opinion consequent danger to the stock industry would be grave. Some Elected Members disagreed with this view on the grounds that with the facilities provided by the Veterinary Research Department stockowners were now in a position to protect their own stock from disease.

66. After discussion of the Betterment policy in Native Reserves, the Committee recorded its view that the efforts of the Veterinary Department, which cost considerable sums of money annually, were largely frustrated owing to the fact that it had hitherto been impossible to solve the problem of overstocking the Native Reserves, and urged the Government to press an examination of the possibility of instituting a factory or factories for the utilization of surplus stock.

67. The Committee recommended that the remaining posts, viz:—

Office Superintendent,

Agricultural Economist,

Animal Husbandry Officer,

should also be abolished and the reorganization indicated in paragraph 193 effected, unless the Acting Director of Agriculture was able to frame Estimates for 1934 within the figure recommended by the Expenditure Advisory Committee (£128,587) by means more acceptable to him than those recommended by the Expenditure Advisory Committee.

68. Paragraph 191.—*Part-time Veterinary Officers.*—Elected Members recommended acceptance of the principle of the employment of part-time Veterinary Officers, and the gradual replacement of Government Veterinary Officers by such part-time officers.

69. Paragraph 192.—*Agricultural Journal.*—The Committee recommended that the proposed publication of an Agricultural Journal should be postponed till the financial position improved.

HEAD III—AGRICULTURAL DEPARTMENT EXTRAORDINARY.

70. The Committee recommended the reduction of Item 1, Local Campaign, by £3,000 to £3,000, and the inclusion of Item 3, Expenses of Rabies Campaign, £1,150.

HEAD IV—AUDIT DEPARTMENT.

71. A memorandum by the Auditor was circulated to the Committee. It was noted that certain of the recommendations of the Expenditure Advisory Committee would require reference to the Director of Colonial Audit. In the meantime, the Estimates were passed on the understanding that the total expenditure for the year would not exceed the figure of £19,347 recommended in paragraph 205 of the Report.

72. The Treasurer agreed that the present system of Audit check was mainly satisfactory.

73. Elected Members considered that reference of the recommendations of the Expenditure Advisory Committee to the Director of Colonial Audit was not likely to result in economies being effected.

HEAD V—COAST AGENCY.

74. Elected Members recommended acceptance of the recommendations contained in paragraphs 207-212 of the Report of the Expenditure Advisory Committee.

HEAD VI—CONFERENCE OF EAST AFRICAN GOVERNORS.

75. The Committee wished to make no recommendation under this head.

HEAD VII—CUSTOMS DEPARTMENT.

76. The Committee recommended the adjustments of various items of the Customs Department Provisional Estimates indicated in the Schedule to this report, which bring the Estimates of the Department within the figure recommended in paragraph 216 of the Report of the Expenditure Advisory Committee.

77. Paragraphs 217-219 of the Report of the Expenditure Advisory Committee.—The Commissioner of Customs produced figures which showed that the costs of collection in Kenya compared favourably with the costs of collection in other colonies, and he contended that the statement in paragraph 217 of the Report that costs of collection in Kenya were unduly high was not borne out by the facts.

78. Elected Members recommended that the views of the Government of Uganda should be invited as to the desirability of holding a joint inquiry, with the object of further reducing expenditure in the Customs Department, recommended in paragraph 220 of the Report of the Expenditure Advisory Committee.

HEAD VIII—EDUCATION DEPARTMENT.

79. Paragraphs 230-231. The Committee understood that the transfer of the Education stores to the Public Works Department had not yet taken place.

80. Paragraphs 232-233.—Although no teachers had as yet been actually transferred to the "Merrick" and "Biss" scales of salary, any new appointments which were made were made on the assumption that the officers appointed would be transferred to the new scales when they became finally fixed.

EUROPEAN EDUCATION.

81. Attention was drawn to the recommendation of the Select Committee of the Estimates for 1932 (p. 15) that primary European education should be made compulsory as soon as such a course became practicable. The Committee agreed that the present financial position of the Colony precluded the introduction at the present time of compulsory and free primary education, but recommended that this objective should be kept in view.

82. Item 32.—The Committee recommended that this item should be increased from £130 to £260, and Item 49 from £360 to £590, to provide greater educational facilities in Laikipia, on condition that the increase could be made within the figure recommended by the Expenditure Advisory Committee for expenditure on the Education Department. The Committee was informed that a saving of £290 could be made under Item 21 and devoted to this purpose.

83. Paragraph 243.—Goan Education.—The Committee recommended that the Grant-in-Aid, Goan Education (Item 61), should stand at £500, and that the Government should carefully examine the desirability of payment of Education Cess by the Goan community. Elected Members were definitely in favour of such a course.

ARAB AND AFRICAN EDUCATION.

84. The Committee understood that in assessing the cost in 1931 of Arab and African education in schools which were attended by both Arabs and Africans, the entire cost of some such schools was debited to Arab education costs and the entire cost of others to African education costs. By this means a reasonably accurate division had been arrived at.

85. Paragraph 246.—Elected Members recommended: (i) that continuous endeavour should be made to provide for expansion of the educational service by progressively decreasing the tuition cost per pupil as had been done in the past, and (ii) that the total cost of the department should not exceed the figure of £179,078 recommended by the Expenditure Advisory Committee.

NATIVE INDUSTRIAL TRAINING DEPOT.

86. The Committee understood that the annual cost of this service amounted to some £12,000, and noted that expenditure over and above this sum was incurred by other departments in the industrial training of natives. After a general discussion, the Committee recommended that Government should take immediate steps to set up a central employment bureau for trained native artisans, the aims, objects and address of the organization being suitably advertised in the Press. The Committee felt that this could be effected without additional cost to Government, possibly through some form of co-operation between the Native Registration Department and the Native Industrial Training Depot. Finally, if it was found that a small amount of working capital was required, that this expenditure would be fully justified.

COMMERCIAL TRAINING.

87. The Director informed the Committee that it was possible for natives to obtain an elementary commercial training from the Jeanes' School, and a more advanced commercial training in the Alliance High School. He admitted that whilst a very meagre service of advice to native traders on commercial subjects is available to residents in the Kikuyu Reserve, and to a lesser extent in the Ukamba Reserve, no such service could at present be accorded to the Kavirondo Reserves.

HEAD IX—FOREST DEPARTMENT.

88. The Conservator of Forests explained to the Committee that the present time was particularly auspicious for the development of the export trade in forest produce. In order to ensure that that trade was properly fostered it was necessary that the staff of the Department should be adequate to carry out a thorough plan for the enumeration of the Colony's forests.

89. Elected Members were unable to accept the view of the Conservator without further investigation.

90. The Committee were also informed as to the possibility of giving an officer of the Department special training as a Forest Utilization Officer and that in certain eventualities the cost of training such an officer might possibly be made available from the Colonial Development Fund.

91. After discussion, the Elected Members urged that the recommendation of the Expenditure Advisory Committee (paragraph 248) for limiting the annual expenditure of the Department to £32,920 should be accepted. It was appreciated, however, that it would not be possible to reduce expenditure to the full extent recommended in the current year.

HEAD X—GAME DEPARTMENT.

92. Paragraph 249.—The Game Warden expressed his opinion that it was an integral part of the duties of his Department to assist in combating the depredations of game and vermin whenever they might occur. Shortage of staff was a real handicap in this regard.

93. Paragraph 250.—The Committee was informed that evasions of the payment of Fishing Licences occurred particularly in regard to trout streams traversing private land, and recommended steps being taken to remedy this defect.

94. Elected Members recommended that the question of charging the cost of the one Vermin Control Officer who remained in the Department to the Native Betterment Fund should be referred to the Committee which had been appointed to consider means for giving practical effect to the principles underlying the recommendations of Lord Moyne.

95. It was considered that it might be preferable not to fill one post of Assistant Game Warden which might become vacant in the near future rather than to dispense with the services of the one remaining Vermin Control Officer.

HEAD XA—INCOME TAX ADMINISTRATION.

96. The attention of Elected Members was drawn to the fact that provision was made in the Schedule attached to the Report for additional expenditure in connexion with the introduction of income tax. In view of their objection in principle to the introduction of income tax, Elected Members did not wish to discuss this Head of Estimates.

HEAD XI—INTEREST.

HEAD XII—JUDICIAL DEPARTMENT.

97. The Committee understood that the reductions indicated in the Schedule to this Report could be made in the 1933 Estimates of this Department, and recommended accordingly.

HEAD XIII—LEGAL DEPARTMENT.

98. *Vide* paragraph 47.

HEAD XIV—LOCAL GOVERNMENT CONTRIBUTIONS.

99. *Item 1—Contribution in lieu of rates—Nairobi.* Paragraph 264.—The Committee understood that it was possible to reduce this item by £1,582 in the current year and recommended accordingly.

100. *Items 2, 10 and 19—Contributions in respect of main roads.*—The Committee was informed that it was anticipated that the reductions advocated by the Expenditure Advisory Committee could be effected in the Estimates for 1933.

101. *Item 18—Basin Road Grants.*—The Committee understood that progress was being made with proposals for revising the basis of the amounts of Basin Road Grants, and that all Councils which had replied to the circular letter which had been issued had acquiesced in the reduction recommended in paragraph 277 of the Report of the Expenditure Advisory Committee for the year 1933.

102. *Items 6 and 14—Contributions in respect of Municipal Staff, Nairobi and Mombasa.*—The Committee understood that the recommendation of the Expenditure Advisory Committee would involve amendment of the Ordinance, and that it was under consideration by Government for the purpose of the 1934 Estimates.

MAIN ROADS IN DISTRICT COUNCIL AREAS.

103. *Paragraph 281—Nakuru Area.*—The Committee was informed that the time available had been insufficient to enable Government adequately to consider the recommendation set out in this paragraph of the Report of the Expenditure Advisory Committee.

104. Elected Members urged that the experiment of handing over all roads in the area of the Nakuru District Council to that body for maintenance should be tried in 1933.

105. *Paragraph 283—Kiumu-Londiani Area.*—Opinion was divided as to the desirability of holding the investigation recommended in paragraph 283 of the Report of the Expenditure Advisory Committee into the possible economies to be secured from returning the district road system in the Kiumu-Londiani area to the Public Works Department.

HEAD XV—MEDICAL DEPARTMENT.

106. The Committee was informed that Government favoured the principle underlying the recommendations in paragraph 286 of the Report of the Expenditure Advisory Committee, with the exception of the recommendation in sub-paragraph (e) for the retrenchment of one post of Sanitary Inspector. Mining development had rendered it desirable to defer the abolition of this post which might be urgently required in connexion with the developing mining areas.

107. With regard to the recommendations as to reorganization in paragraph 286 (d), the Committee understood that this proposal would require to be referred to the Secretary of State. With these two exceptions, all the recommendations of the Expenditure Advisory Committee either had been or were being put into effect.

108. The Acting Director of Medical and Sanitary Services informed the Committee that he was sending up an officer who would investigate how best to reorganize the work of his department in the Trans Nzoia in accordance with the recommendations of the Expenditure Advisory Committee and that this officer would also look into the question of Government taking over the Kitale Native Hospital.

109. *Paragraph 288.*—The Committee understood that the Secretary of State has already been addressed on the subject of a general revision of salary scales (*vide* paragraph 21). The Acting Director of Medical and Sanitary Services expressed the opinion that the initial salary of medical officers was unduly high at the present time.

110. *Paragraph 289.*—The Committee was informed that the Secretary of State has agreed to the discontinuance of payment to Government officers of post-mortem and expert witnesses fees.

DIRECT NATIVE SERVICES.

111. The Committee examined the estimated expenditure on direct native services included under Head III in Appendix F of the Estimates as raised provisionally. It was understood that the fact that provision for the salary of an officer was included as a charge against expenditure on direct native services did not mean necessarily that that officer would be debarred from performing duties other than direct native services. The Director of Medical and Sanitary Services assured the Committee that there would be a considerable saving on the estimated expenditure on direct native services but that it was impossible at the present time accurately to estimate that saving.

112. The Committee wished to record that it was apparent that the Medical Department were making every endeavour to secure all possible economies.

MEDICAL DEPARTMENT EXTRAORDINARY.

113. The Committee recommended the payment of a grant of £50 to the Nyando Nursing Association provided savings to that extent could be effected under the Medical Head of Estimates.

HEAD XVI—MILITARY.

114. The Officer Commanding Northern Brigade informed the Committee that the estimated expenditure on the Northern Brigade made no provision for recruits in addition to the authorized establishment of the Brigade. That establishment was in his opinion cut down to such a point that it was insufficient to include the necessary number of recruits in training. In the near future it would be necessary to make additional provision on this account.

115. Again, the estimated net expenditure on the Northern Brigade took account of estimated charges against Civil Departments on account of work performed by the Supply and Transport Corps amounting to £6,000. The Officer Commanding Northern Brigade expressed the opinion that provided this sum was realized, and with the exception of the provision required for recruits, the expenditure on the Northern Brigade, unless unforeseen circumstances supervened, would not exceed the figure of £135,000 per annum quoted in paragraph 297 of the Report of the Expenditure Advisory Committee. Further reduction in expenditure on the Military would in Colonel Wilkinson's view be imprudent.

116. The Officer Commanding Northern Brigade explained that the present military organization was on a peace time basis. It was designed to be capable of rapid expansion in the event of an emergency. It was necessary to have a steady flow of officers from England in order that the King's African

Rifles training might constantly reflect the latest development in military science. For that reason it would not be possible in practice to go far in the direction of recruiting the officers for the King's African Rifles locally.

117. The proposed policy in regard to the position of the Defence Force in the Scheme of Defence of the Colony was that the members of that force should be trained so as to be able to provide the officers and non-commissioned officers necessary for a rapid expansion of the King's African Rifles in the event of serious trouble. For the scheme to be made fully operative it would be necessary to provide:—

- £300 for the training of officers,
- £210 for the training of non-commissioned officers,
- £2,500 for the training of men.

118. The Committee understood that proposals were under consideration for a reduction in the cost of the staff of the Defence Force by £1,700 approximately, and that these savings were to be used to augment the grant for training which stood at £900 in 1933.

119. After further discussion Elected Members expressed the opinions (1) that the various military and semi-military forces in the Colony were insufficiently co-ordinated; (2) that the burden of Kenya's contribution to the Scheme of Imperial Defence was more than the Colony could bear, and (3) that the amount allocated to the Defence Force, which was the main safeguard of internal security, needed to be increased. Elected Members recommended that during 1933 the sum of £400 should be saved on the Estimates for the Northern Brigade, and expended on training in the Defence Force.

MOVEMENT OF MILITARY FROM MERU TO NANYUKI.

120. The Officer Commanding Northern Brigade informed the Committee that from the military point of view the advantages of having troops stationed in Meru equalled the advantages which would accrue from movement to Nanyuki. Estimates which had been drawn up, however, showed that the capital cost of moving the headquarters from Meru to Nanyuki was such that the interest on that capital would more than counterbalance the savings which would be effected as a result of the move.

121. The Chairman undertook that Government would explore the subject further before the 1934 Estimates were framed.

SUPPLY AND TRANSPORT CORPS.

122. The Officer Commanding Northern Brigade explained that it was not possible to reduce the number of lorries in the Supply and Transport Corps, nor the personnel of the corps, because it was imperative for military purposes that there should be a fully organized and efficient unit at least as large as the present corps, ready for immediate use in the event of mobilization.

KING'S AFRICAN RIFLES BAND.

123. The Committee was informed that although this was not a joint service, in fact the bandmen were trained soldiers able to take their place as such in the event of the necessity arising. In addition, they performed the duties of medical orderlies.

HEAD XVIIa—MILITARY EXTRAORDINARY.

124. It was explained to the Committee that expenditure of £1,995 was necessary on roads and on the Kanyangarang Bridge in Turkana. In 1931, a contribution of £5,500 had been received from the Sudan Government towards the cost of roads in Turkana. That sum, of which there remained an unexpended balance of £1,024 at the end of 1932, had been credited to general revenue. Therefore the present expenditure was in the nature of a re-vote of moneys which had been supplied for a specific purpose.

HEAD XVII—MINING AND GEOLOGICAL DEPARTMENT.

125. The revised Estimates submitted by the Acting Commissioner of Mines were discussed by the Committee, who recommended their adoption. The consequential modification of the Estimates of this Department are shown in the Schedule to this report.

126. The Acting Commissioner explained that it was proposed to place the Geologist, whose duties would be more extensive than was contemplated at the time of his engagement, at the £840 point in the scale £620 by £90 to £840 by £40 to £920.

127. *Item Local Transport and Travelling.*—£1,700 was required under this item owing to the necessity for extensive travelling by the Commissioner, by Wardens of Mines and by Inspectors of Mines. By this means the requirements in personnel were reduced to the minimum. Owing to the extremely rough nature of much of the country traversed it was proposed that Inspectors of Mines should draw mileage allowance at the rate of Cts. 55 per mile. This proposal was recommended by the Committee for consideration as a special case.

128. *Item Travelling Allowances.*—The Committee endorsed the proposal, made in the interests of economy, to pay commuted travelling allowances at the rate of £24 per annum to the Inspectors of Mines.

129. It was noted that the estimate of increased mining revenue more than compensated the estimated increase in expenditure in this department.

HEAD XVII—MISCELLANEOUS SERVICES.

130. The Committee was informed that the following reductions could be made under this Head:—

- Item 6 reduction from £1,900 to £1,500.
- Item 28 reduction from £1,800 to £1,600.

131. The Committee endorsed the recommendations regarding allowances to Unofficial Members of Committees contained in paragraph 304 of the Report of the Expenditure Advisory Committee, and recommended that they should come into effect as from the 1st May, 1933.

HEAD XVIIa—MISCELLANEOUS SERVICES—EXTRAORDINARY.

132. *Item 3—Guarantee to Lady Northey Home.*—The Committee understood that this item (£250) could be deleted.

133. *Item 4—Kenya Land Commission.*—Elected Members entered a protest against Kenya funds being required to bear the cost of the Land Commission.

HEAD XVIII—PENSIONS AND GRATUITIES.

HEAD XIX—POLICE.

134. The Committee understood that all the recommendations of the Expenditure Advisory Committee on the Police Department had been accepted and were already reflected in the Estimates.

HEAD XX—POST OFFICE AND TELEGRAPHS.

135. The Committee were satisfied that the Estimates of the Combined Department could not be further reduced at the present stage.

HEAD XXI—PRINTING AND STATIONERY.

136. The Committee recommended reduction of various items under this Head by the amounts shown in the Schedule.

RAILWAY PRINTING.

137. The Committee recommended that the question should be examined of the Railway Administration being requested to guarantee some minimum annual payment for printing work done by the Government Press.

REPORTS AND PRINTING REQUIREMENTS.

138. The Committee was informed that steps have been taken to reduce the amount of printing required to be done to the minimum.

HEAD XXII—PRISONS.

139. The Committee understood that the reductions recommended in paragraphs 330-331 of the Report of the Expenditure Advisory Committee had been accepted and the estimates of the Prisons Department for 1933 would be reduced below the figure of £48,198 recommended by the Committee.

140. The Committee, on the representation of the Acting Commissioner that it was equitable that the Staff Officer, who was in effect doing the work of an Assistant Commissioner, should receive an allowance on that account, recommended an allowance at the rate of £60 per annum on condition that the total expenditure figure recommended by the Expenditure Advisory Committee was not exceeded.

RATIONS.

141. The Committee was informed that a proposal is under consideration for reducing the scale of prison rations. If approved, a saving of £300 per annum should result.

HEAD XXIII—PUBLIC DEBT FUNDED.

HEAD XXIV—PUBLIC WORKS DEPARTMENT.

142. The Committee agreed that the combination of the posts of Director and Superintending Engineer, recommended by the Expenditure Advisory Committee was a matter which should be examined when one of the two posts fell vacant.

CENTRAL WORKSHOPS AND TYREER SEARCHING BRANCH.

143. The Committee observed that the Expenditure Advisory Committee had recommended that these branches of the Public Works Department should be closed down when work in connexion with the new Law Courts is completed.

144. It was understood that circumstances had arisen which might necessitate reconsideration of the recommendation of the Expenditure Advisory Committee, but Elected Members were insistent that these recommendations should be carried out, as they had been pressing for five years for the closing down of the Central Workshops.

HEAD XXV—PUBLIC WORKS RECURRENT.

145. *Item 1—Maintenance and Minor Improvement of Roads and Bridges.*—The Director was apprehensive of the result of subjecting expenditure on roads and bridges to a further cut. Considerable reduction had been effected in recent years and there was a real danger of loss of much money which had been spent on the road system of the Colony and of certain temporary bridges falling into so serious a state of disrepair as to be dangerous.

146. *Item 2—Maintenance and Improvement of Public Buildings.*—The Director informed the Committee that as a last resort he would prefer reducing this item by £1,500 to further reducing provision for road expenditure.

147. The Committee approved this course and recommended a reduction of item 2 from £16,000 to £14,500 on the understanding that the £1,500 might have to be reinstated later in the year should economy maintenance at the reduced figure prove impossible.

148. *Item 3—Rent of Offices and Houses and House Allowance in Lieu of Quarters.*—The Committee recommended a reduction of this item from £45,200 to £42,700. This reduction in expenditure was to some extent contingent on savings accruing from the inauguration of the Local Civil Service.

149. *Item 4—Furniture, Upkeep and Repair of, for Government Bungalows and Offices.*—The Director of Public Works represented that provision of £500 would be inadequate to allow of even essential repairs and replacements of furniture to be carried out. Elected Members, while accepting the Director of Public Works' statement, endorsed the recommendation in paragraph 355 of the Report of the Expenditure Advisory Committee for the reduction of provision under this item to £500 in order to draw attention to the desirability of an early revision by Government of the existing furniture regulations.

WATER BORING PLANT.

150. The Committee recommended re-examination of the possibility of hiring to private users the water boring units now lying idle at a smaller cost than Sh. 35 per diem, which was the present charge.

NATIVE SERVICES.

149. The Director of Public Works explained the method which had been adopted in estimating for Lord Moyne the expenditure on direct native services in 1931. Owing to the fact that certain works (e.g. water boring) which were being carried out in 1931 had been discontinued, a margin existed between the estimated expenditure on specific direct native services in 1931 and the total allocation to the Public Works Department for expenditure on direct native services. The sum involved, amounting to £6,728, was shown under item 5, Head IV of Appendix P.

152. The Committee recommended that all Public Works Recurrent expenditure should be shown under the main head of Estimates and that the sum of £6,728 should be devoted to the reduction of the estimated deficit in the year's working, subject to the inclusion of a vote to the effect that this amount would be available for payment into the Native Settlement Fund should that fund be created.

153. Elected Members considered that the principle underlying their view expressed in paragraph 5 should apply to this sum of £6,728.

STORES.

154. The Committee endorsed the recommendation of the Expenditure Advisory Committee (paragraphs 359-361) but appreciated that it was not possible to put them into effect immediately.

155. The Director of Public Works stated that he favoured these recommendations, but any increase in the work of the Stores Section of the Public Works Department would necessitate an increase in staff.

HEAD XXVI—REGISTRAR GENERAL'S DEPARTMENT.

156. The Committee agreed that the proposal to combine the Departments of the Attorney General and Registrar General was one which required careful consideration (vide paragraph 47).

HEAD XXVII—RENT AND INTEREST TO HIS HIGHNESS
THE SULTAN OF ZANZIBAR.HEAD XXVIII—SECRETARIAT AND LEGISLATIVE
COUNCIL.

157. The Chairman informed the Committee that, whereas he favoured a measure of reorganization in the Secretariat, the time available had not been sufficient to permit of the necessarily extensive consideration of the recommendations made by the Expenditure Advisory Committee for the reorganization of the Secretariat (including the Local Government, Lands and Settlement Section) and the Chief Native Commissioner's Office.

HEAD XXIX—STATISTICAL DEPARTMENTS.

158. The Committee endorsed the recommendation of the Expenditure Advisory Committee for the abolition of the Statistical Section:

NATIVE REGISTRATION SECTION.
FINGER PRINT BUREAU.

159. The Committee, after hearing the Chief Native Commissioner, and in view of the dissent of Lord Francis Scott from the recommendations of the Expenditure Advisory Committee recorded in paragraphs 417-420 of the Report, decided to recommend that Government should in the first instance explore the possibility of providing in the Estimates for 1934, some re-organization of the Native Registration and Finger Print Offices which would result in considerably less cost than the present organization and yet would preserve the *lipandi* system.

REGISTRATION OF DOMESTIC SERVANTS.

160. Elected Members recommended that this service should only be continued or extended on the condition that it is made self-supporting.

HEAD XXX—SURVEY AND REGISTRATION DEPARTMENT.

161. The Committee understood that the recommendations of the Expenditure Advisory Committee, which were communicated to Government in the form of an interim memorandum, had been accepted and reflected in the Provisional Estimates for 1933. The recommendation of the Expenditure Advisory Committee for the absorption of the Survey and Registration Department in a Department of Settlement, Land, and Mines was bound up in the recommendation for reorganization of the Secretariat. This question, as had already been explained to the Committee, had not yet been fully considered.

HEAD XXXI—TRADE AND INFORMATION OFFICE.

HEAD XXXII—TREASURY.

162. The Treasurer informed the Committee that he hoped it might be possible to secure additional economies under this Head when the reductions in expenditure which have already been made had been assimilated.

CENTRAL REVENUE BOARD.

163. The Committee supported the recommendation for the creation of a Central Revenue Registry for the purpose of tightening up the system of collection of revenue.

HEAD XXXIII—PUBLIC WORKS EXTRAORDINARY.

164. *Item 5.—Roads, Kakamega.*—The Committee recommended that Government should keep in view the probability that additional expenditure on roads in mining areas would have to be met during the course of the current year.

165. *Item 7.—Furniture for New Buildings.*—The Committee understood that a reduction of £780 in the provision under this item could be made.

HEAD XXXIV—COLONIAL DEVELOPMENT FUND.

166. *Item 1.—Veterinary Scholarship Scheme.*—The Committee approved the proposal to reduce expenditure under this item to £750, of which sum £250 would be recovered from the Colonial Development Fund and £500 would be a charge against the Colony's revenue.

167. The Committee agreed to the inclusion under this Head of Estimates of two items—

Item 3.—Experiments in Locust Control, £3,250;

Item 4.—Tsetse Fly Control, £670,

on the understanding that these sums would be obtained by way of free grants from the Colonial Development Fund.

168. *Item 5.—Extension of Nairobi Aerodrome.*—The Committee agreed to the inclusion of £3,000 under this item. This sum was to be obtained from the Colonial Development Fund under the following conditions:—

Free grant, £1,000;

Loan at 4 per cent for 50 years, £1,000, to be repaid by ten equated annuities from 1934 onwards of £133-5-98 per annum.

HEAD XXXV—NATIVE BETTERMENT FUND.

169. The recommendations of the Committee in connexion with this Head of Estimates are recorded in paragraphs 2-4 of this report.

170. The adjustments of the Provisional Estimates for 1933 as passed by the Legislative Council on the 19th December, 1933, which result from economies effected by Heads of Departments, and from the recommendations of this Committee (all of which are detailed in the Schedule to this Report) may be summarized as follows:—

Decrease in Revenue Estimates	£7,465
Decrease in Expenditure Estimates	£45,537
Net reduction of Estimated Deficit	£38,072
Estimated Deficit 1933 as at 19-12-32	£214,167
Estimated reduction in Deficit 1933	£38,072
Estimated Deficit 1933 as at 8-5-33	£176,095

171. It must be borne in mind, however, that this reduction in the estimated deficit results, to the extent of £18,484 from the deletion of Head XXXV of the Provisional Estimates (Native Betterment Fund). If the Native Betterment Fund is eventually established on the lines recommended by Lord Moyne this estimated net sum would fall to be credited to the fund in respect of the year 1933.

172. The surplus balance position may be summarized as follows:

(a) Excess of assets over liabilities on 31-12-32 as estimated on 19-12-32 (vide page 10 of the Provisional Estimates)	£141,543
(b) Actual excess of assets over liabilities on 31-12-32	£253,034
(c) Revised estimated deficit on working of the year 1933	£176,095
(d) Estimated excess of assets over liabilities on 31-12-33	£270,482

173. It will be seen, therefore, that whereas on the 19th December, 1932, the estimated excess of liabilities over assets at the end of 1933 amounted to

£72,624

the estimated excess of assets over liabilities at the end of 1933 amounts at present to

£270,482

The improvement to the extent of £148,868 in the estimated surplus balance position at the end of the current year is due to the following causes:—

(a) Improvement in the outcome of the year 1932 (vide paragraph 6)	£110,401
(b) Decrease in the estimated deficit on the working of the year 1933 (vide paragraph 170)	£38,072

£148,568

174. Elected Members wish to place on record their appreciation of the courtesy and consideration afforded them by the Colonial Secretary throughout the Select Committee's deliberations.

175. The Committee wish to record their thanks to the Secretary for the able way in which the report has been prepared.

Telegram from Governor Kenya to the Secretary of State for the Colonies

Dated 11th May Received 12.38 p.m. 11th May 1933

RECEIVED
12 MAY 1933
COL. OF. IOE

No. 92.

466
18.3.46/32

Your telegram of 28th January No. 32. As result of examination of provisional estimates by a select Committee in the light of Expenditure Advisory Committee's report following revised estimates were passed by Legislative Council yesterday total estimate of gross expenditure £3,222,210 total estimate gross revenue £3,046,115 total deficit on the year's working £176,095 revised estimates of assets over liabilities on 31st ~~December~~ December 1933 £75,939. No material change in revenue estimates. Reduced deficit on the year's working has been obtained as to approximately £7,000 by general economies and as to approximately £36,000 by proposals of elected members that un-allocated balance and cost of any new services under old betterment fund should in view of present financial position be devoted to reduction of Colony's deficit. This would present no accounting difficulty as I have agreed that estimates as reprinted should show native services separately under their departmental heads of expenditure instead of under heading 35. In agreeing to this re-arrangement I was not unminful of terms under reference and your telegram No. 264 of 9th December but felt that there was considerable force in contention of elected members that until a betterment fund was statutorily created by local Ordinance it was premature to create separate expenditure heads of estimates. As soon as estimates are reprinted will send full explanatory despatch with recommendations.

GOVERNMENT HOUSE
NAIROBI
KENYA

8th April, 1933.

Sir,

I have the honour to refer to your telegram No. 32 of the 28th January and my despatch (Reserved) No. 615 of the 22nd December, 1932, under cover of which I forwarded for your consideration the Estimates of Revenue and Expenditure for the year 1933.

2. In fulfilment of the undertaking referred to in paragraph 3 of my despatch under reference, the Colonial Secretary has given notice that he will move the following motion in the Legislative Council:

"That the Estimates of Revenue and Expenditure for the year 1933, as passed by this Council, be referred to a Select Committee for examination in the light of the Expenditure Advisory Committee's Report and to make a report".

This motion will be taken when Council reassembles on Monday next and I shall address you further in due course in regard to the Estimates for 1933 when the motion has been disposed of and those Estimates have been further examined.

3. In the meantime, I consider it desirable to inform you that the result of the working of the year 1932 which has recently become known is considerably more favourable than was anticipated at the time the Estimates for 1933 were passed by the Legislative Council. As you will observe on page 10 of the printed Estimates, the estimated excess of Expenditure over Revenue during 1932 amounted at that time to £280,000. The actual

THE RIGHT HONOURABLE MAJOR
SIR PHILIP CONLIFFE-LISTER, P.C., G.B.E., M.C., M.P.,
SECRETARY OF STATE FOR THE COLONIES,
DOWNING STREET, LONDON, S.W.1.

Amended 86
No 6
18346/52
No 2
18346/52
Copy to R.A. Spruce (17)
Inspector, Nairobi - Hobbies

working of the year was as follows: -

Expenditure,	£ 3,119,722
Revenue,	3,010,213
	<hr/>
Excess of Expenditure over Revenue,	£ 109,509.
	<hr/>

The reduction of the estimated deficit on the year's working by the sum of £110,491 is due to the following causes: -

Small revenue increases over a large number of items,	£ 27,964
Appreciation of Post Office Securities,	29,925
General savings in expenditure throughout the departmental Heads,	52,602
	<hr/>
Total,	£110,491.
	<hr/>

4. Inconsider that the fact that additional general savings on expenditure have accrued to the extent of £52,602 in excess of what was anticipated when the Estimates for 1933 were compiled in December reflects great credit on all Heads of Departments and other officers responsible for the control of expenditure.

I have the honour to be,
Sir,

Your most obedient, humble servant,

BRIGADIER-GENERAL,
GOVERNOR.

Dear Freeston,

My

Thank you for your letter of the 31st January
1933 (16246/32) enclosing the Kenya Estimates for 1933.

In their present form these Estimates are
alarming. The year 1932 is now expected to show a deficit
of £220,000 instead of a surplus of nearly £60,000 as
budgetted for in the original Estimates. The 1933
Estimates, as drafted, show a deficit of £214,000. At
this rate there would be at the end of 1933 an excess of
liabilities over assets of £72,000, whereas a substantial
excess of assets is necessary to provide working capital.
At the moment working capital is, I believe, found by
borrowing from unused loan funds or by raising an over-
draft at the bank. There are limits to this method of
finance.

Clearly, however, we must await the report of
the Local Economy Committee and the introduction of Income
Tax, in the hope that these things will put a different

Attwood (2)

Sir,

I have the honour to transmit herewith two authenticated copies of "An Ordinance to Apply a Sum of Money for the Service of the Year Ending the Thirty-First Day of December, 1932", No. XLVII of 1932, together with two copies of the Legal Report by the Attorney General.

2. This Ordinance passed its third reading in the Legislative Council on the 19th December, 1932, and I assented to it in the name of His Majesty on the 31st December, 1932.

3. Twelve printed copies of the Ordinance are also enclosed.

I have the honour to be,

Sir,

Your most obedient, humble servant,

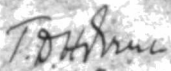

BRIGADIER-GENERAL,
GOVERNOR.

THE RIGHT HONOURABLE
MAJOR SIR PHILIP GUNLIFFE-LISTER, F.C., G.B.E., M.C., M.P.,

**AN ORDINANCE TO APPLY A SUM OF MONEY
FOR THE SERVICE OF THE YEAR ENDING
THE 31st DAY OF DECEMBER, 1933**

No. XLVII of 1932

An Ordinance to Apply a Sum of Money for the Service of the Year ending the 31st day of December, 1932.

ENACTED by the Governor of the Colony of Kenya, with the advice and consent of the Legislative Council thereof, as follows:—

1. This Ordinance may be cited as "the 1932 Appropriation Ordinance, 1932." Short title.

2. The Public Revenue for the year 1932, and other funds of the Colony and Protectorate of Kenya are hereby charged towards the service of the year ending the 31st day of December, one thousand nine hundred and thirty-three, with the sum of three million, two hundred and sixty-seven thousand, seven hundred and forty-seven pounds. Public revenue charged.

3. The money granted by this Ordinance shall be applied for the purposes and services expressed in the Schedule, annexed hereto. Application of money granted.

4. The Treasurer of the Colony and Protectorate of Kenya is hereby authorized and required from time to time upon the warrant of order of the Governor to pay out of the Revenue and other funds of the Colony and Protectorate of Kenya, for the several services specified in the Schedule, the said sum of three million, two hundred and sixty-seven thousand, seven hundred and forty-seven pounds, which will come in course of payment during the year ending on the 31st day of December, one thousand nine hundred and thirty-three. Treasurer's authority for payment.
