1. ACTING GOV. KENYA..... 5.3.37. 2  
Tns. copies of pamphlets showing classification of  
areas and analysis of areas of administrative districts  
as at 31.12.36.

It is to be hoped that in foresting  
129 sq. miles of the Uaddi Native  
Reserve as Native Forest Reserve,  
no steps will be taken to evict  
Native dwellers in the 129 sq  
miles in question.

? We might ask for  
further information on the point.

A. Grossmith

The question of the Native Reserve  
reserves is discussed in paragraphs 1 and 2 of  
the report of the Kenya Land Commission.

It will be noted that under section 2 of the  
Lands Trust Ordinance, it is provided that

- (a) No land in a Native Reserve shall be  
declared to be Forest Area... without  
the prior consent of the Central Board  
and
- (b) No title shall be granted in respect of  
any such Forest Area... without the  
prior consent of the Central Board.

The Central Board has advised that the matter  
is provided for in the Ordinance as they thought  
that once an area has been declared to be Forest,  
its management ought to be left to the Forest  
Department. The Ordinance has, however, not been  
amended, so that it still remains the case that no  
order can be made in respect of such an area without  
the prior consent of the Central Board. In the  
circumstances therefore, it hardly seems necessary  
to make the enquiry suggested by Mr. Grossmith.

A. Grossmith.  
7/4/37

The question of the Native Reserve Forest  
Reserves is discussed in paragraphs 1618 to 1622 of  
the Report of the Kenya Land Commission.

It will be seen that under Section 18 of the  
Lands Trust Ordinance, it is provided that

- (a) No land in a Native Reserve shall be  
declared to be Forest Area.....without  
the prior consent of the Central Board;  
and
- (b) No rule shall be made in respect of  
any such Forest Area.....without the  
prior consent of the said Board.

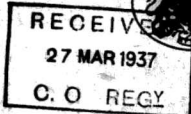

The Land Commission considered that the latter  
of these provisions was unnecessary as they thought  
that once an area had been declared to be Forest,  
its management ought to be left solely to the Forest  
Department. The Ordinance has, however, not been  
amended, so that it still remains the case that no  
order can be made in respect of such an area without  
the prior consent of the Central Board. In the  
circumstances therefore, it hardly seems necessary  
to make the enquiry suggested by Mr. Grossmith.

No. 151

GOVERNMENT HOUSE,  
NAIROBI,  
KENYA.

5 March, 1937.

Sir,

I have the honour to refer to Lord Passfield's despatch No. 595 of the 10th. June, 1931, and to my despatch No. 114 of 29th. February, 1936.

2. I forward for your information two copies of each of the following pamphlets and memoranda:-

- (i) Kenya Colony and Protectorate.  
Analysis of Areas of Administrative Districts as at 31st. December, 1936.
- (ii) Kenya Colony and Protectorate.  
Areas as at 31st. December, 1936.
- (iii) Tabulated list for easy reference.

3. There are a few items in the Analysis to which attention might be drawn.

Land leased in Native Reserves is shown as reduced by two square miles but this is accounted for by the inclusion of two square miles of alienated land into the revised boundaries of Kajiado Township. One farm in the Kipkarren area has been re-acquired by way of exchange and an area of 178 acres has thereby changed from alienated land in Native Reserves to Native Reserve proper.

On the other side, the Native Reserve Township area has been reduced by two square miles and the Native occupation area has been correspondingly increased. This is the result of a re-survey of Embu Township and the reduction of the area by two square miles.

THE RIGHT HONOURABLE,  
W.G.A. ORMSBY-GORE, P.C., M.P.,  
SECRETARY OF STATE FOR THE COLONIES,  
DOWNING STREET,  
LONDON, S.W.1.

129 square miles of the Nandi Native Reserve has become Native Forest Reserve, thus accounting for the increase from 246 square miles to 375 square miles. The total Non-native Forest Reserves has been increased from 4655 square miles to 4678 square miles by the inclusion of 23 square miles of Crown Land at Kibwezi in Forest Reserve. The gross alienations of farm land for the year amounted to 101,091 acres, and the gross reversions 14,615 acres, leaving an increase in alienations of 86,478 acres (approximately 135 square miles), or of 85,198 acres (approximately 133 square miles) after taking into account the reduction of 1280 acres due to the absorption of two square miles into Kajiado Township.

The Government Reserves have been reduced by 6770 acres (approximately 10 square miles) by the alienation of certain areas which are no longer required for the purposes for which they were originally reserved.

I have the honour to be,

Sir,

Your most obedient, humble servant,

*Adenwade*
