MINUTES

This shows the result of
enquiries which C.A. have made
at the instance of the Govt
Kenya as to the rates which
would be charged if a compulsory
insurance scheme were adopted.
I cannot however think that
such a scheme would meet the
case. Please see typed minutes
within.

Agnes with Mr. Duffin suggests
Let still have to go to ...

regards T.T. but it is in use doing
no until a scheme has been worked
out in detail and it has been
ascertained that the it is acceptable
to the staff concerned.

Immediate suggestion that we

25.8.25

If our persons, OED & few European
Officers, dependents a non-contributory
death gratuity, or shall certainly
be pressed before something of the
kind in the case of non-Europeans,
in the pensionable period, will
be considered. For the non-pensionable
period at least more than a
contributory life insurance under
Part is the best arrangement.

I think that in addition to the
pension scheme the three sorts
that should be considered are
scheme of the pensionable period (if
possible) and a scheme for non-
pensionable period.

within a reasonable time and
giving careful consideration to the
provisions of the pensionable staff

then would enough. Under the
present value of the payments
£53,000 and of the contributions
£60,000. But we would expect
to find £80,000. It is to be
noted that the pensionable staff both
contributions & benefits would have to
be reduced. This means
compensation & increases in
operational element.]
