Application for Land.

Selected a farm in 1924 and has now been informed by Land Office that scheme has been suspended. Feels, in view the fact that he selected his farm before suspension of scheme, reconsideration of his application.

This is matter on the local Govt. but I think in sending out a copy of this letter to the O.A.G. for comment, we should say that the S.G.L. is of opinion that if the Govt. was given a choice of farms from which to make a selection, no warning was given that the scheme might shortly be suspended. The local Govt. appears to be under a moral obligation to let him have his farm.

But say the matter is being referred to the Acting Govt. with a view to a decision in the matter ordinarily next.

rather than O.S.O. has (as I have ascertained) heard anything as to the suspension of the scheme & is a senior.

In September last acting on your advice I wrote
Commissioner of Lands, Nairobi, Kenya Colony, asking
scheme for granting farms to medical men on
that they should practise medicine in that country
all in operation. In November I received an answer
that the scheme was still in operation & sending
list of seven farms to select from. I made a
in December 1924 & made my preparations
and to Kenya this year. I have now received
the letter from the Commissioner of Lands, Nairobi,
that the scheme is now ^{held.} in suspension. This
change of policy has caused me great inconvenience

as I have missed opportunities of obtaining
other appointments in the mean time

I would be very much obliged if my application
for a furlough could be reconsidered, as I had
been offered a furlough & accepted it before
scheme was suspended

I have the honor to be
