and subsequent Paper

2nd December, 1920.

Dear Bottomley,

Can you tell me whether there are any possibilities of appointments under the Colonial Office for medical men specialising in tropical medicine.

A good lady who is doing useful work in housing ex-service men and whom I am therefore anxious to oblige has asked me whether there is any chance of finding an appointment for a man in connection with tropical medicine at the Ministry of Health. The enclosed note gives certain particulars about him. As far as the Ministry of Health is concerned I have to say that there is no likelihood of any vacancy and rather less probability of any additions to the staff in this direction, but it occurred to me that the Colonial Office might from time to time be making appointments
