Sir
 As I propose
 appointment of Provincial Commissioner, Lower
 and do not see any way to supply with P.W. Esdaile
 in any other capacity of recommendation that an agreement
 should be made with this office to place him in
 position. It is not properly possible until 1922.
 I have approached Mr. Hase on the matter and
 attach a copy of my answer. I recommended that he
 should be placed in the higher scale of pay
 which I have recommended to work in April 1920
 but I am doubtful as to whether the seven years
 compensation demanded by him is advisable.
 He is an old and trusted servant and a long
 regarded, and should I consider, be liberally dealt with
 than the house etc.

Yours faithfully
 Edward Wilkey
 Governor P.O.A.

Dear General Sir E. Northey
 Thank you so much for your suggestion
 about my pension. My suggestion has been to retire
 from P.O.A. service when I could, provided the loss of
 pension was not too great.
 I am informed that the new scale of pay will
 come into force in April 1920, this, together with the
 The increments I have to draw would mean a
 considerable addition to my pension if I were to 1922.
 When I shall be fifty.
 I would like under the circumstances to be prepared
 to give you preference to help me to get my pension in
 the higher scale of pay together with seven years compensation
 for the abolition of my post, which of our old scale is
 given me provided you recommend it.
 I do not see in any way to be gratifying to
 have given my country 22 of the last years of my life
 increased at least actually reduced wages in England and
 increased scale of pay the cost of living in England has
 been doubled of the War and under such circumstances
 I think I am not wrong in asking for your help and
 assistance. My wife and children are very anxious
 to see me home.
