MEMORANDUM
TO THE SECRETARY OF STATE
FROM THE DEPARTMENT OF AGRICULTURE
SUBJECT: THE EAST AFRICAN PROTECTORATE

LONDON, JAN. 1914

The object of this memorandum is to bring you
with the notice of the Secretary of State for the East African
Protectorate in connection with the proposed extension of the
protection of the British Empire.

In so doing the Secretary of State for the East African
Protectorate is aware that the primary consideration is the
interest of the British Empire. It is inevitable that reference should be made to general
imperial conditions and extremely important that they
should be borne in mind.

1. The future of the East African Protectorate is
uncertain. The prospects for the moment are good but
there will be in all probability a period of reaction
and any ill directed steps of policy may delay or
prevent development or render reactions serious. The
effect in regard of the restrictive and unfair clauses
of the 1882 Act will be remembered. It will be remembered
that the authority to the British Government in the
East African Protectorate has not been the same as in the
past.

2. It is a matter of course that the Secretary of State
for the East African Protectorate is aware of the
importance of the East African Protectorate in the
British Empire.

Each phase of the foregoing requires attention
and it is the duty of the Secretary of State to respect

by Government for its undertakings and encouragement of enterprise are more important than mere uniformity.

1.

History of the Company

6. The Company which is a small pioneer concern with a capital of Rs. 140,000 operates under an agreement dated the 8th August 1916 between the Government and Mr. A. G. W. ANDERSON. This agreement was afterwards transferred to the Company. A full copy is given in Appendix marked A.
7. The agreement requires the Company to do certain things and fixes the maximum prices to be charged, which said prices were sanctioned by agreement with the Government on October 1st 1930. It is very clearly laid out in clauses 13, 14 & 15, that the Company is only required to supply in the residential portion of Bombay and from the hours of 6 p.m. until daylight.
8. It will be seen that clause 23 of the Agreement provides that if the Company fulfils all the conditions of the agreement to the reasonable satisfaction of the Government then the agreement shall be extended for a further period of 25 years.
9. On the strength of this agreement and of the good faith of the Government the Company expended a considerable sum of money on buildings, machinery, including the erection in 1914 after the war had begun of two new Garrett engines and a complete outfit with the same for the supply of direct current, and a network of mains throughout Bombay, and faithfully performed all its obligations for the probationary period of seven years, during which period the shareholders received no dividends and the Directors received no remuneration.
