Mr. Fiddes.

Mr. J. Kirk & Sir H. Johnston are quoted as leading authorities by the League, but it must be remembered that those gentlemen belong to an earlier generation of administrators & that things have changed since their day. Sir H. Johnston, for instance, is quoted at p. 8 as recommending Nyasaland for Indian settlement but the Protⁿ is already so well populated that there is not sufficient employment for all the labour & anything further to the contrary will more heavily populate in the future.

With regard to para 7 of the preamble see p. 35 of [Cl. 4117] hereafter.

fathered from Mr. Juvigny that is attached
no importance to the restriction, as his
fellow countrymen were not adapted for
farming work in the highlands, but that
he was mainly concerned to be placed on
an equality with Europeans in the purchase
of town sites in Nairobi. As regards the
letter point, it must be remembered that
the Indian has not the same sanitary
standard as the European, that there have
been outbreaks of plague in the Indian
Bazaar at Nairobi, ~~and that the~~ ^{and} ~~that~~ ^{that} quite recently
himself was endeavoring to get permission
to erect a ~~type~~ ^{block} of buildings at Nairobi
of a type which is well known to
be defective from a sanitary point of
view.

At the same time, some of the
requests contained in the proposal
seem to be reasonable, ~~and~~ ^{and} ~~that~~ ^{that}
(B) (E) (G) (J) of section 25. ~~and~~ ^{and}
I think that Indian agriculturists would
greatly assist the develop^t of certain portions
of the District. Mr. P. provincial has
recently told us that the land on the
banks of the Jubba is a fine pasture
to be had in the valley of the Nile
that there is an immense area which
with

with migration, and be supported
rather - perhaps. The district is far away
from the white settler country & I wonder
whether it would be a feasible scheme to
~~get~~ it taken up, at any rate to a certain
extent, by Indians. The conditions would
appear to be suitable & I am told that
the native Tomelos are quite capable of
holding their own against the Indian
trader, who would be debilitated & the source
follow the Indian experiment.

Act. & say that a copy of the
memorial will be referred to the
Gov. for his report & copy to the
Gov. accordingly, getting the point
out with regard to the ^{or} district
