March 10

The lake was very low when I was there & one of the captains of the R. I. Steamer told me that it was still low when he left about the end of January.

MAR 12

London, March 13 1912

Dear Sir John Anderson

May I ask if the Customs Dept has received any information  
regarding the recent fluctuations in the value of the Victoria Nyngy... which are appearing  
in your possession at Port Florence. The last African Standard for value in the  
country suggests that the construction of a bridge across the hills <sup>above</sup> ~~below~~ the Nyngy  
fills my <sup>present</sup> necessity

Yours truly,

Charles Waprey  
(James A. Little)

Sir,

I am to teach the receipt  
of your letter of the 13th of March  
& to state that no recent  
information has been received  
on this subject as to the  
fluctuations in the level  
of the Lake Victoria, but that  
the OAG of the East African  
has been requested to furnish a  
report on  
the subject.

Mr. Whitney of the Bureau

Sir,

I have to transmit  
to you the accompanying  
copies of cases <sup>respecting</sup> ~~as to~~ <sup>subject</sup>  
the fluctuations in the  
level of the Lake Victoria  
I request that you  
will be good enough to  
furnish me with a  
report on the subject.

Yours
