

Dr. B. B. B. B. B.

I hear from the Ch. that Russell has secured
the PAP part of Lab⁴ Aust. and I see
that D. Duke is in touch with him for
the part of Lab⁴ Aust. (as the Bacteriologist
in connection with the new proposal for
checking plagues and small pox)

It will be well to write
to the Institute. I think we might write
especially to the Rosen Institute for
and the man (not taking ^{for} S. J. Stockman
this time) The Rosen Institute may be
able to recommend some one; but the
salary of 150-160-~~180~~¹⁸⁰ is not popular
