AGRICULTURAL REPORT 1911-12

14th February

Explains that he did not intend to depreciate the publication of the Veterinary Laboratory Report in its present form but to call attention to the desirability of issuing separately the technical and research details which are only of interest to other laboratories and workers. Returns Report.

Last previous Paper.

500/ 5227

Mr. Dottomley.

In view of the fact as now stated by Mr. Montgomery there appears to be no objection to the publication of the Agricultural Report in its present form. The Council might accordingly be informed that they may proceed with the work of printing as Mr. Montgomery has reported that the portion of the report on Veterinary Pathology is not in need of further revision?

~~As to~~ the suggestion that the portion of the report embodying the techniques and research details should be issued separately,

Search necessary to say anything of the sort. We have only told them to send the Vet. & Path. Mr. D. is very desirous that he do this in any case. R.

Copy sent to Mr. 14th Feb
