Kenilworth Hotel,
London, W.C.

29th November, 1911.

The Under Secretary of State,
Colonial Office,
London.

Sir,

I have the honour to submit a report on my visit to Washington.

I left England for the United States on the 28th of October and returned to London on the 25th of November. A copy of my itinerary is attached.

No Aphidius testaceipes, parasites of Toxoptera graminum or predaceous ladybird beetles, e.g. Hippodamia convergens are to be had at present, owing to the season of the year.

Dr. L. O. Howard, Chief of the Bureau of Entomology, and Professor Webster who is in charge of the investigation of insects attacking cereal crops, have promised to go all in their power to help to introduce these enemies of Toxoptera into East Africa.

The arrangements I have made are as follows:- As soon as Aphidius testaceipes and Hippodamia convergens are to be obtained in sufficient numbers they will be collected by an assistant

5

(2)

of the Bureau of Entomology.

The insects will be packed in proper refrigerating baskets and placed in the cold storage room of a Cunard or White Star liner by the United States Despatch Agent, Mr. I. P. Roosa, 2, Rector Street, New York.

When a consignment is ready for shipment, Dr. Howard will cable the name of the boat.

I would suggest that cables and packages be addressed to the Crown Agents for the Colonies who can more easily make arrangements to have the packages removed from the cold storage of the one boat and transferred to the cold storage room of a Union Castle boat for East Africa.

Dr. Howard has kindly promised to send instructions for the proper care of the packages during transfer on being notified to whom consignments are to be addressed.

Also arrangements will have to be made so that the Cunard and White Star Companies will accept the packages from Mr. Roosa at New York and receive payment for carriage in London.

A cable to East Africa intimating by what boat a consignment is sent will enable the boat to be met at Kilindini. I will make arrangements for the care of the packages after that.

I wish to express my thanks to Dr. Howard and Professor Webster for the interest they have taken in the problem of the introduction of parasites. Not only did I have the benefit of

ITINERARY.

Left Edinburgh	28. X. 11.
Left Liverpool	28. X. 11.
Arrived New York	3. XI. 11.
Left New York	3. XI. 11.
Arrived Washington	3. XI. 11.
At Washington	3. XI. 11. - 15. XI. 11.

Mr

Genl.

Recd of the
last letter of 3.
from Mr. Anderson 24 Nov
39197

I am etc. to transmit to you
a copy of a letter from Mr.
T. J. Anderson, Govt Entomol-
ogist in the Eal, ~~with~~ on
the subject of certain
parasites of Toxopneva praevarium
which are
to be sent to this country
by Dr. L. O. Howard from
Washington for transmission
to the Eal

Copy 2 Mr. Anderson's
letter & this copy to
Gen for info etc

Copy for 731. 15 Dec 41

I have to request that you will
2. You should carry
out in detail the arrangements
for the reception, care, and

of forwarding of ~~the~~
the parasites
insects suggested
by Mr. Anderson

It will be seen that
Mr. Howard is awaiting
info as to the address
to which ^{teletypes} ~~letters~~ about
the ^{parasites} ~~insects~~ in the packages
themselves should be
~~sent~~ ^{sent}. You should
communicate with him
at once ~~on this matter~~, so
that he may know that
you are dealing with the
matter.

+ You will realise the
importance of observing scrupulously
the procedure suggested by Mr. Anderson,
in order that no measure may
be taken that the parasites may fall of
them due to other insects introduced into
the packages. I am
