Draft Estimates 1912-13

16 Jan
Postage Paper

Report that sum of £7500 has been erroneously included in Railway Revenue Expenditure. This sum should be deducted from both sides - makes no difference to resulting net Revenue but will leave available for the sum of £3750 for new expenditure. Recommends allocation of this amount to creation of Post Office which is urgently required.

in speaking to me this morning
said at the moment that he would not
out under the modification of the
half or half principle which we are proposing
