Mombasa REC

Rev. 30 OCT 05

October 4th 1905.

EAST AFRICA PROTECTORATE.

No. 530

Sir,

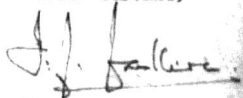

I have the honour to transmit herewith a copy of a despatch with enclosure which I have received from the manager of the Uganda Railway asking sanction to sink another well on Railway land at Kilindini. I entirely agree with Mr. Urrie's proposal and as the cost can be met from savings on Capital Estimate No. 72 for the erection of gang ways (sanctioned by Foreign Office despatch No. 601 of the 21st Dec 1904) I have the honour to recommend that this request may be granted.

I have the honour to be,

Sir,

Your most obedient,

humble servant,

Acting Commissioner.

Principal Secretary of State

for the Colonies,

Downing Street,

LONDON.

No. 1744
1849

Manager's Office.

Nairobi, September 30th 1905.

Sir,

V
2556
10373

In the concluding paragraph of my minute, dated 18th August last on the Colonial Office despatch No. 305, dated 18th July 1905, I stated that the existing well in the Loco. Yard at Kilindini is the only source from which the Railway gets fresh water at Mombasa and Kilindini and that it is barely able to cope with the demand.

It is very improbable that any scheme for bringing fresh water on to Mombasa Island by pipes from the mainland will be carried through within the next few years, and in the meantime our traffic is increasing. It is essential therefore that the supply be augmented, otherwise we shall be obliged to have recourse to the very expensive process of condensing.

I enclose an abstract of an estimate amounting to Rs. 45,000 or £8867 for the provision of an additional well, 100 feet deep, similar to the existing one; I propose sinking it on Railway land at Kilindini at some considerable distance from the present well.

The cost of sinking such a well depends of course upon the nature of the soil passed through and from the records left of the formation containing the existing well, I hope that the new one can be completed for the amount specified.

The

H. M. COMMISSIONER,
N. E. A. Protectorate,
MOMBASA.

The Funds to meet this expenditure can be provided from savings effected on Capital Estimate No. 12 for the erection of P.W. gang huts sanctioned by the Colonial Office in despatch No. 351, dated 10th December 1904. This sanction amounted to £3448 whereas, chiefly by the utilisation of old material, the work has been completed for £367 leaving an unexpended balance of £3075.

I have the honor to request therefore that the Colonial Office may be asked to sanction the enclosed estimate for £367 chargeable to Capital on savings from previous Capital sanction No. 39.

I have the honor to be,

Sir,

Your obedient servant,

(Sd.) H. A. F. Currie.

MANAGER,
Uganda Railway.

E. M. Commissioner.

Inclosure

In Mr. F. J. Jackson's despatch
No. 550 of October 4th 1905.

The funds to meet this expenditure can be provided from savings effected on Capital Estimate No. 56 for the erection of P. W. gang huts sanctioned by the Foreign Office in despatch No. 801, dated 10th December 1905. This sanction amounted to £3448 whereas, chiefly by the utilisation of old material, the work has been completed for £367 leaving an unexpended balance of £3075.

I have the honor to request therefore that the Colonial Office may be asked to sanction the enclosed estimate for £2257 chargeable to Capital on savings from previous Capital sanction No. 80.

I have the honor to be,

Sir,

Your obedient servant,

(sd) W. A. P. Currie,

MANAGER,

Uganda Railway.
