The question on this is whether, regarding the jurisdiction
 of the new Court, which has not before been discussed

is not clear what body there is here. There
 are the various National Courts and the High Court

 the present case - what allegation is there
 to the High Court?

YSA 10/10

 subject there would not then

it is under No. 1000 at the
might be taken before the
President's Commission at home.

We had better ascertain from the
the first place whether the case would
have to be brought before the Federal
Circuit Court at Georgetown - or the
District Court in order to bring that
a further record will be sent to

above.
