Mr. Beards Antiquities

This proposal seems to be a more idea evolved in Mr. Y. J. ...

nothing to show that the historians want to go on that they would do with if they did. I think it should be snuffed out at once.

Happy that Lord Uigra says that he is unable to volunteer the proposal. 11/2/07 H-2-2 2/4/11

I should say that we shall not  
support the proposed union a  
definite scheme was put forward  
but we hope to settle the matter  
for some time on other behalfs  
the suggestion is made in the  
they would prosper in their novel  
surroundings.

My Lord

I have sent enclosed pamphlet

to His Majesty the King, asking him if he could give his support

to a scheme for offering the Nestorian Christians a tract of land in British East Africa, & so freeing them once

for all from their present condition of poverty and persecution.

I send it also to your Lordship for consideration.

I am local secretary to a fund

for assisting Deborah Estlin  
Abraham's Coplanders, but the  
small amounts which Christian  
friends can send are out of all  
proportion to their needs.

May I ask you, if at all possible,  
to lay the matter before the Cabinet.

You are doubtless aware that  
the Methodist Church is the oldest  
Christian Church in the world, and  
as such, has strong claims on the  
Christians of this country.

It is a long time since I had  
the pleasure of seeing you; I think

I remember you best in white flannels  
with a green butterfly net.

I am just doing a little work  
for Winton House in the way of  
coaching.

I am

Your Lordship's faithful servant
