Drugi Commission  
 You have a copy of Mr. Williams  
 report. Would you kindly say whether you  
 consider the proposed fee reasonable?

Mr. Head

I had not seen Mr. Williams's report, but I find we have been asked to print it & I have obtained a copy. Mr. Engelbach tells me you want a reply to it, so it is quite impossible to read the report. It is very probably assuming that the prices mean the items estimated in the letter. The sum he suggests is probably not unreasonable.

Mr. Head

I had not seen Mr. Williams's report, but I find we have been asked to print it & I have obtained a copy. Mr. Engelbrecht tells me you want a reply tonight so it is quite impossible to read the report.

It is my belief that the amount which Mr. Williams refers to in his letter means the items estimated on p. 42 to cost \$75,000. The sum he suggests is probably not unreasonable.

S.W.

SIR,

In reply to your 11074/1907 I have the honour to say that my fee for preparing plans, specifications and detailed estimates, for the main intercepting sewer at Maironi would be £200 including printing.

I would however strongly recommend that the plans etc. should be prepared in the first instance for the whole of the drainage works recommended and not for a part only. The various portions of the scheme could then be proceeded with whenever the funds available permitted.

The expense of preparing plans specifications and estimates for the complete scheme would be much less in proportion to the total cost of the works than in the case of the intercepting sewer.

MR BRADBURY WILLIAMS  
CIVIL ENGINEER
