You told me to look into the question of
paying Comdr. Whitehouse for his work in
England.

According to 27/12 there is £163
available for incidental expenses at home.
This sum has strictly speaking lapsed on
the 31st although the Treasury have
on previous occasions to the balance
of the Lake Survey money being carried forward.
At any rate, it is clear that the £163 can
not be taken into account in computing the
grant-in-aid for 1907-8.

I understand that Comdr. Whitehouse
considers that a larger sum should be
available in respect of the work done
funded from the Lake Survey, but we
should have to enquire further as to this.

Comdr. Whitehouse had at 1/10 for
the Oct. 1896, and had pay to March
1897 and was to £165 0/0 total

we could accordingly issue this certificate of
to the Treasury, & leave the question of remuneration
for work since April 1st. But we know whether
there is any more money?

He finished his work on the 20th of
Feb 1907 & I think that he should
be here ~~paid~~ pay up to that date of
the money is available. Some the
sum of £ 163 available + the
balance from ordinary funds.

WCS

It could reasonably be said that the contract was
to the Treasury, & leave the question of remuneration
for work under April 1st till we know whether
there is any more money?

WCS

It is possible to work on the 20th of
Feb' 07 & I think that he might
be here for ~~part~~ of that date if
the money is available. Some the
sum of £ 163 available + the
balance from ordinary funds.
