Dear Colonel Kelly,  
I understand from  
Vickers that Samuels  
have appointed Shelford  
their consulting engineer,  
& that as a result  
of an examination by his  
firm into the published  
figures of the Board.

Railway & working out  
details in Curries  
figures, therefore we

1. That the Railway has  
sufficient rolling stock to  
carry 150,000 tons of a

2. That half the present  
rolling stock & engines are  
now standing idle.

3. That the railway  
with the increased traffic  
could carry the whole  
of coal for the year.

mile & make a slight  
profit.

Willis adds that this  
bears out what Polding  
told him.

The above is for your  
information & does not  
require an answer.

Yours sincerely  
Clement Hillier

P.S. I hope you will answer  
various queries as to meeting  
E.A. & Messrs.

negotiate, unless you  
mean to appoint  
Governor General of the  
standing that he will be  
independent of reference  
some - and for that I  
fancy the Commission  
yet prepared -  
W.H.
