Freights for exported produce

Now est^d that London expenses will be small so that produce can stand higher rates than those indicated in ul 2 Apr but not as high as £1.4.0.

W. Beachfield

I think it would be wise to keep this modification up my sleeve until Messrs Gray Waver, & Co have replied to our letter of the 13th of April

at
Gor.

Extract from telegram (original registered
90/1055)

From the Gov. of Col Africa Port to the Secretary of State
November 20, 1914

The telegram of April No 16 it is now estimated that
London expenses would be small and goods can stand higher rates
by steamer than I indicated but it is a lot higher

Yours etc.

Genl.

with ref. to the letter from the
 21st of the 13th of April relating
 to the report made in regard
 to the same from the Salt Lake
 Commission you stated, since the
 receipt of that letter, the
 Gov. of the Salt Lake has
 again telegraphed to
 the effect that it is now
 estimated that the
 London expenses would
 be

be small that
the cargo & beam
traffic ~~can~~ ^{could} in
consequence stand
higher rates by
steam than he
previously indicated,
but that even
so 21-40 would be
too high a figure.

(Signed) G. V. FIDDES.
