Point out that there is still a vacancy to be filled - CA are taking no further action of the matter

Mr. Butler

I did not know anything about this old vacancy - see file 1394 EA hereafter

The CA. should of course fill - or try to fill Mr. Gummell's place -

ask: say that so far as Mr. Gummell's vacancy is concerned they should try to fill it -

[Enclosed in letter to CA & dist. a few and so was - with

copy - that no 'quitting' occurs]

Mr. Butler

Things have got somewhat into a mess  
 and I doubt whether the proposed letter  
 will save the situation. When I Parkinson  
 spoke to the C.A. on the 9th (as he himself would  
 be clearly did not know of the Eighth meeting  
 but thought there were only seven) his conduct  
 relative to the C.A. must have been  
 of the nature of cross questions. Another question  
 was asked. They had all said that what they  
 feared was that they were in the wrong about  
 the last instalment. By which Mr. Parkinson  
 thought they meant the seventh instalment  
 whereas they really meant the Eighth. Mr. Phillips  
 & Mr. D.C. had <sup>said</sup> the speaker completely & utterly  
 misled the audience & that the speaker had given  
 the wrong date & 24018 was not a number  
 by which reference to the Journal's account

Mr. Parkinson  
 Do you agree in any case we  
 will not make sure by counting the  
 instalments selected?
