DEPARTMENT OF LANDS AND SURVEY,
WELLINGTON,
14th December 1903.

Mr. Thomas Harkness McKellar Galbraith, Licensed Surveyor, who is leaving the service of this Department, and the Colony, with the object of proceeding to South Africa, where greater opportunities of advancement may present themselves, passed his examination as a Licensed Surveyor of New Zealand in March 1902. Previous to this, he had four years' experience in the field, serving for three years under Mr. William Sharp (Licensed Surveyor), and one year with Mr. E. H. Wilmot, District Surveyor, of this Department.

Mr. Galbraith has been a member of the field staff of this Department since the 25th January, 1903, and has been engaged in the exploration of a rough block of bush country in the Karamea district (Nelson), where he selected routes for future roads, graded and laid off such roads, completed the necessary additional surveys and plans for the purpose of opening the area for selection on settlement conditions. These duties he carried out to the entire satisfaction of the Chief Surveyor, Nelson, under whose immediate direction he was working.

In my capacity of Chairman of the Board of Examiners, I had special opportunities of seeing Colonel Jackson,

The Surveyor General
Transvaal Colony,
Pretoria.

1, 2 & 1918.

Mr. Cairns' capabilities, and it affords me much pleasure to recommend him to your favourable consideration in the event of your requiring the services of an active, capable, energetic, and reliable young surveyor.

From information before me, I have no hesitation in stating that he can always be depended upon to act in an honourable, straightforward manner, and to carry out any duties entrusted to him to the very best of his ability.

(S A G n e d) J.W.A. MARCHANT,

Surveyor General
and
Secretary for Crown Lands, N.Z.

DEPARTMENT OF LANDS & SURVEY,
District Office, NELSON.

6th November 1903.

This is to certify that the bearer, Mr. T.H. Galbraith, has been employed by this Department during the past year in cutting up a block of land of about 30,000 acres into smaller lots of from 300 to 1000 acres for close settlement, and I have much pleasure in testifying to the skilful manner in which the work has been done.

I have therefore pleasure in recommending him to anyone who may require his services in a similar capacity.

Mr. Galbraith is about to proceed to South Africa, where I trust he may succeed in his profession, being steady and painstaking.

(S i g n e d) W. C. MURRAY,

Chief Surveyor.

IN THE MUNICIPALITY OF PRETORIA.

TOWN ENGINEER'S OFFICE

PRETORIA
1902

TO WHOM IT MAY CONCERN:

This is to certify that Mr. T. H. Galbraith has been in the employ of the Municipality as Surveyor since March last. It was understood at the time of his appointment that he would have to leave as soon as an old employe of the Council, who was temporarily otherwise engaged, was able to return, and the return of this gentleman was the sole reason for Mr. Galbraith's leaving.

During the time that I was in office he gave me every satisfaction. I found him an accurate and competent surveyor, and very industrious. I understand that he is a licensed surveyor of one of the Australian Colonies.

I have the greatest confidence in recommending him to anyone who wants a surveyor.
