Railway without any deduction
except for the actual expenses of
the rent collecting staff & the
formation expenses of the Fuel
& Power officers while employ-
ed in the zone.

The Treasurer of the C. & N. P. points
out that, if the cost of the Purposes
means, & if the Fuel Officers also
pretend the Fuel in the zone, which
is the source of the fuel supply
of the Railway, there would be
nothing, if any, profit. On the other
hand if the Railway revenue were
paid for the fuel collected in the
zone, which at present it does not,
there would be considerable sum
to be credited to the zone fund.

On the whole I am not dis-
posed to raise the general question
with the Trust, who will no
doubt be pleased to obtain even
this small amount as a set off
against the C. & N. P. Railway
debts and other matters.

CAMP BARRA, No. 1, 00.
at Barrow, 1905. 65

EAST ANTICA PROTECTOFATE.

No. 484.
(Incl. 2.)

My Lord,

I have the honour to submit copy of a letter
the Treasurer giving cover to the account of the Revenue
and Expenditure of the Railway Zone since its creation up
the 31st March last, which, it will be observed, shows a
net profit of £5,195-15-3.

Treasurer
August 25th.

Letter in
1905.

2. I presume Your Lordship will not care to press the
Treasury to depart from the principle which has been laid
down that the profits on the working of the zone are to be
set off against the capital charge of the Railway; and if
this is so, I would suggest that the Crown Agents be
instructed to transfer the amount of £5,195-15-3 to the
Treasury, less the exchange for management which should

the account for 1903-04 should commence with the debit balance of Rs:1130.94.

During the year 1903-04 a special Railway Zone Rent Collecting Clerk was employed whose salary was charged against the Railway Zone account. Since March 1904, however, the rents &c., have been collected by the Land Office Staff together with the Protectorate rents and no charges for collection &c., therefore appear in the accounts.

I have therefore the honour to suggest that, if it is intended to continue to credit Railway Zone Revenue to the Capital Account of the Railway, the "percentage deduction for management" referred to in Foreign Office telegram No.44 of 7th March 1902 be now fixed by the Treasury.

But, in view of the comparatively small Revenue of the Railway Zone as against the Capital cost of the Railway, I have the honour to enquire whether the question may not be reconsidered and the Revenue in question credited to the East Africa Protectorate.

The existence of the Railway Zone as a separate estate necessarily complicated in and partly out of the land apportioned accordingly.

of which was enclosed in H.M.S. mission...
