Mail Bags from C.O. for French Packet.

Explains reason why they were  
not sent by French packets

(Illustration)

Mr Read

I had not heard of the special business before  
The distinction between ordinary official correspondence  
and 'despatch bags' is new to me and thus is  
no reason why it should be maintained as far as  
the mail matter goes for though the latter is  
not included for despatch by these foreign ships  
but is sent direct by British packets. As you know  
we use bags only when the mail matter cannot  
be got into an envelope. There is therefore no  
reason why we should not continue to use these  
French boats when they are cheaper than other  
boats. So explain to P.O.

I think that you had better go + see someone at the P.O. + discuss it personally.

I saw Mr. Howard today who is in charge of the  
Branch. He said that no difficulty would arise  
if we wrote P.O. officials that our mails  
from Uganda are to go by the next available

Steamer unless marked to go by British  
Packet. I attached a Draft.

The P.O. folks slipped our bag on this  
occasion when they would have posted our  
mail if in covers only. I explained to the

The Secretary to the General Post Office presents his  
compliments to the Under Secretary of State for the Colonies and  
with reference to the note from the Colonial Office dated the  
14th of March, respecting two despatch bags superscribed for  
conveyance by French Packet and addressed to the Officers  
administering the Governments of the East Africa and Uganda  
Protectorates, which were sent to the Post Office on the evening  
of the 8th instant, begs leave to state that sealed direct Mail  
for Mombasa are not made up by this Office for conveyance by  
French Packet, all correspondence intended for transmission by  
this route being sent in Mails which are opened in France.  
Ordinary official correspondence specially superscribed would  
be included in the French Mail in ordinary course; but it would  
be contrary to the usual practice to treat despatch bags in this  
manner. In these circumstances a special messenger was sent to  
the Colonial Office on the morning of the 9th instant to explain  
the circumstances and to ascertain whether it was still desired  
that the despatch bags should be sent in the French Mail, and he  
was

was informed that the inscription as to route should be ignored and the bags included in the direct British Mail to be despatched by way of Brindisi on the evening of that date. This instruction was duly carried out.

It is regretted that the difference of treatment afforded to ordinary correspondence and to formal despatch bags was not referred to in the Post Office note of the 26th of January last; but it was thought that the exceptional treatment of despatch bags was understood at the Colonial Office.

Mr. Read

In accordance with standing arrangements and in conformity with the Postal Guide (h 716) as well as the attached PPO note the East Africa & Uganda Mails were sent last night to the General Post Office. About 7.30 a telephone message was <sup>recd</sup> sent to the effect that mails could not be forwarded by the supplementary lunch packet without special authority and as there was nobody here to give such authority the PPO stated their intention of sending the mail to order to await an opportunity of coming on from there. This of course means days of delay and is all the more strange as it has been the practice to send forwards by the lunch boat and no exception has been taken to the before.

We had better send a note asking what it means.
