Vacancies for Inspectors of Police.

Enclosed copy report from Insp. Genl of
Police submitting names of Constables Tanner, Batt, and
Mcglaughlin, no one above rank of constable has obtained

Mr. Ellis.

(Minutes.)

Battler's ability appears to be above
the average, so we might select him.
But I should think that the other two
might be held over till for the moment
and Harry & Tanner (or Tipping)
tried? see 25860 & 30178

Vacancies for 3 Inspectors of Police
offered to members of the R.I.C.

Rec'd
Post 18 July 1906

Secretary,

Attended:-

In response to the Circular issued to the Force by me 24 Constables offered themselves for service in the East Africa Protectorate Police Force on the terms set down in the letter from the Colonial Office dated 24 August last. No man above the rank of Constable has volunteered. Of the men who have offered themselves I have selected the following three as being the most suitable for the appointments in question:-

1. Constable Martin Taniane, No. 58424, of the Co. Sligo force; age 29 years 10 months; service in the R.I.C. 8 years; has no records, favourable or unfavourable; stated by his Officer to be a man of fair literary qualification, and a steady, intelligent, and energetic policeman.
2. Constable Henry Butler, No. 58448, of the Co. Galway, E.R., Force; age 27 years 9 months; service in the R.I.C. 8 years; no records, favourable or unfavourable.
3. Constable Owen McIlade, No. 59076, of the Co. Galway, E.R., Force; age 30 years 6 months; service in the R.I.C. 7 years. Has one favourable record and no unfavourable record. stated by his Officer to be a most zealous and intelligent young policeman.

The three men named are unmarried. They have been examined by the Surgeon of the Force as to their fitness for service in the tropics and pronounced fit, but the Surgeon recommended that Constable Butler should have his teeth properly attended to, and the Constable is at present having

I am directed by the Secretary of State for the Colonies to
inform you that, subject to your being found physically fit for
service, he proposes to appoint you for protracted appointment as

an Inspector of Police in the East
Africa Protectorate with salary at the rate of £150 a year
for the first year and thereafter at the rate of
£180 a year, simply annual increment of
£30 a year, and free quarter, or an
allowance of £100 a month.

2. A memorandum of the general conditions attached to
appointment in the Protectorate is enclosed herewith, but you are
advised that you will be subject to any regulations which may
also be introduced by or with the sanction of the Secretary
of State.

A copy of the regulations as to pay, &c, is also enclosed.

3. If you are prepared to accept the appointment on these
conditions, you should present yourself in one of the medical officers of
this Department, whose names are given on the annexed letter, for the
purpose of being medically examined. The letter is to be detached and
left with him; and you will be required to pay him a fee of one guinea.
He will send his report direct to this Department.

On October 19, 1946, Mr. Ladd, in his capacity as Secretary of State, advised Mr. Pittman that a letter had been received from the Civil Service Commission relative

to your recent application for a position in the State Department.

It appears that you obtained $\frac{247}{97}$ marks out of a total of 400,

and that you have as the maximum number of marks was 240.

I do not see any reason to demand
indemnition; on the former question we will have
to make for the U.S.

At the present time the best would
be to begin the
negotiations. However, it has not yet
been decided what to do at
the first meeting
of confidence. It would be better if
there has been necessary
to locate the date of the
negotiations for the W.S. before
21-26 August, but I think it
would be better to
try to fix the date of the
negotiations for the W.S. before
July 1st. This will give us time to
negotiate a sufficient
agreement which can be
ratified by the
U.S. government together with a good
resolution.

I suggest that at the beginning
of the negotiations, it should be understood that
they will end no later than
about 1st of August. If they
are not able to agree on the
terms of the peace, then
we will not be able to
make a peace, we can always go back to
a previous date after

I agree with Dr. Tritton. Let this be
considered a year or two hence when we have
more experience. We may or may not be better off
negotiating. It is so uncertain.
In addition, I think that we may not be

able to do so. In fact, the
best way to do this
is to have the
negotiations carried
out so that the most important
part is done during August
and over September. In
this will be
the putting up and conducting
of negotiations. In
September, the kind of
negotiations to be made will
be determined and the
negotiations will be conducted.

The Inspector-General of the East African Protectorate Police has drawn attention in recent reports to the insufficient training of officers of the Force, and recommends that they should attend courses of instruction during their leave of absence in England.

Facilities for such instruction are lacking. Officers of other Police Forces can be attached to the Metropolitan Police, and what can be done is to furnish them with information obtained from the Home Office to a Police Commissioner and the Commissioner of Police in order to allow them to visit a Police Court and Station. The Finger Print Office at Scotland Yard will also assist in any difficulties they may find in studying the manual "Classification and Uses of Finger Prints" issued by the Home Office in a recent case.

It does not appear probable, therefore, that the maximum standard of efficiency can be expected in the present Officers of the Force or in the men under their command.

2. This lack of efficiency which is inevitable in the present system of selection must be reduced in one of two ways:-

- (A). By the appointment of additional candidates,
- (B). By training selected candidates.

The first alternative is impracticable
