DRIVING TESTS

Quite a considerable number of people have come into the Motor recently, more than before, and are interested in the car. A few have expressed a desire that they have to give a driving test before they can obtain a car licence. Some, however, have come a long way to get a licence in Great Britain.

The Motor System.

The license which costs 5/- and which holds good for twelve months, entitles only the licensee to drive on public highways. Naturally a dog license gives the licensee with the privilege of keeping a dog under control on the roads. The respective capabilities of the licensee of the dog are not contemplated at all. It is a dog license, not a license for driving a motor car. The dog license is not a license for driving a motor car. The dog license is not a license for driving a motor car.

A Distance Equal to
Once Round the World
 On the rough roads of Kenya

The actual experiences of users show the Goodyear "Supertwist" tyre to be a marvel of endurance. We record here one of the most convincing proofs.

IN October 1924 a new Buick Seven-passenger Touring Car fitted with 32 x 5.77 Goodyear Balloon Cord Tyres of the new "Supertwist" construction was put into service by Mr. J. H. Engelbrecht whose big fleet of cars forms one of the most important motor transportation units in the country.

The mileage records of these tyres are interesting for by the time they were discarded, two had run 18,000 miles, while the remaining two continued their arduous service until over 25,000 miles had been completed.

These tyres were used throughout the recent East African Parliamentary Commission tour where every type of road in Kenya and Tanganyika was encountered.

They were used on the same Buick throughout the Royal Safari of

T.R.H. the Duke and Duchess of York. On this service the Buick was often called upon to carry excessive loads over rocky, thorn bush country imposing the greatest strains on the tyres.

Back on the Nairobi, Nyeri, Nanyuki Service these tyres continued to withstand the buffeting of rough roads and heavily overlaid cars until finally two came to grief after running for 18,000 miles.

The remaining two went on with the daily grind day after day, month after month, until a few days ago when they were retired for good after completing slightly more than 25,000 miles—a distance equal to a circuit of the Globe.

Even to the last, though frayed, gashed and worn, these rugged, faithful tyres hung on with grim determination to the service to which they had been dedicated.

These wonderful Goodyear "Supertwist"
 Cord Tyres can be obtained in either
 Balloon or High Pressure Tyres from

and personnel, usually consisting of a driver, a mechanic, and a cook. In some cases, the truck may be used for passenger transport, but in most cases, it is used for cargo transport.

As applied to the latter the above points, a new tank for development. Very few trucks have been built in Kenya, but probably the most important one is the one built by the Government. This is a 10-ton truck, built in Kenya, and is used for transport of goods and passengers.

It will save considerable time and money when used in the same way as the truck. It will also save considerable time and money when used in the same way as the truck. It will also save considerable time and money when used in the same way as the truck.

Another factor to be considered is the fact that the truck is a very important part of the transport system. It is used for transport of goods and passengers, and is a very important part of the transport system.

REAL "MIRZAPUR" CARPETS AND RUGS OF EXCEPTIONAL QUALITY

These Carpets have been specially selected in Mirzapur and are the finest range we have ever sent outside India. The quality is good—quite different to the cheaper grades and imitation carpets made for export. They are good to look at and good to feel and will outlast many cheaper carpets. You should not choose a better or more so suitable gift for Christmas.

AS THESE CARPETS WILL SELL QUICKLY IT IS ADVISABLE TO MAKE A SECOND CHOICE WHEN ORDERING.

The Sure Cure for Malaria.

Quinine alone is not sufficient to cure malaria, it simply arrests the fever. The 'New' Malaria is a necessary to continue the quinine treatment with quinine. There is no power of depressing the patient which has been found in the 'New' Malaria. Malaria depresses the blood and paralyzes the digestive function, thereby the remedy must be taken which will build up the system. The ideal remedy is 'ESANOFELLE' which has existed for the last ten years and stood the test under all climatic conditions.

ESANOFELLE can be obtained from all the leading chemists in KENYA. TANGANYIKA & ZAMBIA. Price 9/60 postage extra. A. H. Wardle & Co., Ltd. P.O. Box 103. Nairobi & Mombasa. Phone 56.

MATIVE STOCK.

It is difficult to state the problem presented by native stock in a country, but the added factor that the native reserves contain a quantity of stock which is not owned by the majority of the population. It is to be held, then, that the native stock, towards his cattle, is a loss from making a high price, which is not only a loss to the country, but also a loss to the natives. The market is not a market in the ordinary sense of the word, but a market in the sense of a market in which the value of the stock is not determined by the supply and demand, but by the value of the stock as a whole. The value of the stock is determined by the value of the stock as a whole, and not by the value of the individual animals. The value of the stock is determined by the value of the stock as a whole, and not by the value of the individual animals.
