ENGINE LUBRICATION.

(Continued from yesterday.)

It is this through the use of the best oil that every revolution made in the engine is made with the least possible waste of energy. It is this through the use of the best oil that every revolution made in the engine is made with the least possible waste of energy. It is this through the use of the best oil that every revolution made in the engine is made with the least possible waste of energy.

One of the advantages of using lubrication is that it reduces the friction between the parts of the engine. This reduces the amount of energy that is wasted in the engine. It also reduces the amount of heat that is generated in the engine. This reduces the amount of wear and tear on the parts of the engine.

It is important to use the right kind of oil for the engine. The oil should be of the right viscosity and should be of the right quality. It should also be changed at regular intervals. This will ensure that the engine is always running smoothly and efficiently.

SPORTING ROADS MEN.

Disadvantages of Perfect Mechanism.

Although the older generation of motorists are still prone to regard the perfection of a motor as a sign of its quality, it is now generally recognized that a perfect mechanism is not necessarily the best. A motor that is too perfect may be too expensive and may be too complicated to maintain.

It is better to have a motor that is simple and reliable than one that is complex and expensive. A motor that is simple and reliable will last longer and will be easier to maintain.

The motor should be of the right size for the job. It should be of the right power and should be of the right speed. It should also be of the right type for the job.

It is important to choose a motor that is of the right brand. There are many brands of motors and it is important to choose one that is of the right quality and that is of the right price.

The motor should be of the right type for the job. It should be of the right power and should be of the right speed. It should also be of the right type for the job.

The New BUICK DE LUXE TOURING is now on exhibition at our Sixth Avenue Showrooms. Many improvements make this new model unsurpassed in beauty, comfort and convenience. The new hood is in a most modern right front door-automatic shield screen. The open top is finished with a clean-lined heavy genuine gray leather upholstery—valiant interior with Duco Tone. Two finish in striking colors—Serro type four-wheel brakes—and dipping head lights. A vibrationless, hot silent car. More than power steering for any emergency, or for any hill. Rugged in construction and built to last. The New BUICK DE LUXE TOURING is anywhere it is new to you to go.

**Giffilan & Company, Ltd.**  
DISTRIBUTORS.

The New BIG FIVE IS NOW HERE

The Most Talked-of Car in the World To-day. The new British made BUICK SPECIAL DE LUXE TOURING has been instantly recognized as one of the most outstanding accomplishments in motor car history—regardless of price.

DE LUXE TOURING £445 Complete.

Self Elevating Top. Like the top which is entirely self elevating. When the top is down it is only necessary to unfasten the hold-down straps and the top will gently forward into position in readiness for clamping to the front shield support.

Trunk. A folding type trunk rack at the rear supplied for carrying luggage while touring. The open top carries on the front fender.

Rigid Type. The Buick De Luxe touring car is equipped with rigid side spring. Side Curtains. The touring car may be driven with the top down but curtains can be drawn over the top and a most comfortable compartment in the rear cushion.

The mainmarch crowds have throughout the world who have recognized the new Buick De Luxe touring car realized at once that Buick had produced a car which in performance, excellence of design and completeness in detail stands supreme. A point for point comparison with any other make of car indicates the tremendous advantage of the Buick De Luxe even though the price of the other car be as high as £2,000. The driving seats of this new model are adjustable. No more need to feel cramped when driving. If more leg room is required the seat can be instantly moved back. For the average woman the seat can be brought forward to a position where the foot pedals can be reached and conveniently operated.

PORT CONTROL ENQUIRY.
(Continued from Page 4)
Mr. Priddy asked whether the
Port Captain considered by Depart-
ment should be responsible for the
issue of licences, etc. bringing
under Department of the In-
land Revenue but not under the In-
land Revenue. The Port Captain
said the Port Captain had con-
sidered the matter and the
requirements were comparatively
small, but that he had been re-
ferred to a very large extent and
it was necessary to employ a
firm to carry out the work.

FRIGILES
Mr. Priddy asked whether the
Port Captain was satisfied with
the firm generally, and
whether some of the firms were
not put forward for their im-
provement. The Port Captain
replied that it generally fell that
the firm was satisfactory, and that
suggestions have been put forward
as a matter of fact, but that the
improvement of other firms is
under consideration.
In reply to a question, the Port
Captain said that the firm were
not licensed, but that the firm were
licensed by the Port Department
and that it was not to be properly
controlled by the Port Department
under the Ministry of the
Interior.

## DISTRICT NOTES

**HEATING OF PARLIAMENT**  
The House of Representatives met at 10 o'clock this morning for the first time since the adjournment of the session in 1910. The session was opened by the reading of the prayer book. The House then proceeded to the consideration of the Budget for 1911. The Budget was presented by the Minister of Finance, Mr. J. H. M. J. van der Hoff, and was received with much interest. The Budget provided for a total expenditure of 1,200 million guilders, and a total revenue of 1,100 million guilders. The Budget was approved by the House with a majority of 100 votes.

 An international appeal for the restriction of military aircraft operations was issued by the League of Nations last week. The League Secretary-General, Mr. George H. D. Fisher, has issued a circular to all member states, asking them to agree to a limitation on the number of military aircraft and on the routes to be flown. The League also asks that the number of military aircraft be limited to the number of aircraft in the service of the armed forces of the country concerned. The League also asks that the routes to be flown be limited to the routes between the principal ports of the country concerned.

THE CATTLE INDUSTRY.

By the Editor. It is a fact that the cattle industry in the East African territories is at present in a state of depression. The number of cattle is falling, and the price of hides is low. This is due to a number of causes, including a shortage of feed and a lack of veterinary services.

# Coffee Land at Arusha

## Tanganyika Territory

In order to meet the demand for Coffee Land in the Arusha District, the Proprietor of the Selian Coffee Estate, Eugene Outhbert, Arusha, is prepared to sell 5 blocks of 100 acres each. FRESHLY opening his for the past 15 years. If necessary, large blocks can be arranged for. The Owner is prepared to sell to a single individual. He is prepared to sell 3 blocks to a combination of 3 individuals who could at a later date arrange for one common factory.

The Vendor is prepared to plant out the nursery and planted with half. If the total area is taken by one person then the purchaser will be required to pay as each 100 acres is completed during the 1927-1928 seasons.

The Selian Estate is well known throughout East Africa and is one of the oldest plantations in the Arusha District.

The Coffee from Selian Estate has obtained the highest prices in the London Market for Tanganyika Messrs Lewis & Peat, Ltd., 6 Manning Lane, London, who have handled the Selian crop for some years.

The terms of payment are £32 per acre FREE HOLD, payable 25 per cent on signing Agreement of Sale and Purchase, the balance on easy terms which can be obtained from the undersigned.

Full conditions of sale will be furnished on application, to Box 210, Nairobi.

SIDNEY D. OUTHBERT,  
LAND AND ESTATE AGENT, ARUSHA,  
TANGANYIKA TERRITORY.

Copies of full conditions of sale may be obtained on application to P.O. Box 210, Nairobi, or from the sole Agent, SIDNEY D. OUTHBERT, Land and Estate Agent, Arusha, T.T.

#### HIGH BUILDING PROBLEM

At the recent meeting of the District Council, the High Building problem was discussed. The Council considered an application from the proprietor of the Palace Hotel for permission to erect a tower on the site of the building. The Council was of the opinion that the height of the tower would be a detriment to the town and that the Council should not allow the level of the town to be raised. The Council proposed to refuse the application and to recommend that the Council should not allow the level of the town to be raised.
