THE FORD IDEAL.
To build a motor car for the great multitude, to be large enough for the family, but small enough for the individual to run and care for, will be constructive of the best materials, the best men to be met, after the simplest design that modern engineering can devise. But to be so low in price that any man making a salary will be unable to buy one.

Ford

FORD SERVICE.
The producer depends for his prosperity upon serving the people. He may get by for a while serving himself, but if he does, it will be purely accidental, and when the people wake up to the fact that they are not being served, the end of that producer is in sight.

Brain Draining: Though little has been said about the "brain drain" which is the result of the emigration of the best of the country's youth to the West Indies, it is obvious that the productivity of individual labour in various branches of our country and in some of our principal industries is being steadily and increasingly reduced. It is not possible to estimate whether these characteristics are a result of a "brain drain" or whether they are the result of other factors. A study of the emigration of the country's youth to the West Indies would be of great interest and value in this connection.

Assurance

You take no chances with a valued possession. Neither do we. The vacuum tin in which Brookes Bond tea is packed is our assurance that it reaches you in original condition. Our reputation depends upon the maintenance of a quality that is the result of expert blending. We cannot afford to risk deterioration by contact with the atmosphere. The first cup of Brookes Bond tea will be a revelation to you. You will understand the reason for the vacuum tin.
