Mr. DENNIS NOBLE, of the Westminister Abbey Choir, writes—

PHOSFOR work makes tremendous demands upon the vocal and nervous system, so that it is imperative for me to protect myself from constant colds and periods of debility. When I had complained of feeling absolutely "done-up," a fellow chorister recommended Phosforin, which I tried and at once found I derived benefit from it. I was so pleased with the energizing results that I now have no fear of having to cancel any engagements through ill-health. Phosforin feeds and tones up the entire nervous system and is unequalled for warding off attacks of prevailing malarial.

VERMICOL.

SUCCESSFULLY EXTERMINATES MEALYBUG

Report by an Expert on E. A. Agriculture.

"The experiments recently conducted with Vermicol, though not extensive, have proved satisfactory. These were chiefly on the lines of soil fumigation."

The best results were obtained before or sometime after the rains, when the soil was wet and had a temperature of from 65 to 85 degrees Fahr.

The surface soil was levelled round the base of the tree and $\frac{1}{2}$ of an oz. of Vermicol (nully grown coffee tree) was sprinkled round in a continuous band about two inches wide with the inner margin about 4 inches from the bark of the tree; the Vermicol was then covered with soil to the depth of 4 inches and packed well down.

This killed the mealybug on the stem below ground and in some cases kept off the ants completely.

GENERAL MOTORS TESTING GROUND

News was received recently that the Curtiss Test Cycle at Chalmers Corporation had arrived with test personnel and cars as well. The expedition left Chicago on Christmas Day and the whole journey has been a constant fight against the worst weather conditions. A great part of the journey has been accomplished by riding cross country and using portable tracks. The stretch between Great and Detroit is considered to be one of the worst.

Probably the whole of the journey from Chicago has been made in broken ground owing to the terrible state of the roads. The test cycle is now in Detroit.

Cups to City Men

The Motor Cycle Club of Chicago presented cups to the City Men who had taken part in the test cycle. The cups were presented to the City Men who had taken part in the test cycle.
