AT KAMOSI. Acting Governor's Visit.

On Saturday, May 29, H.E. the Acting Governor visited Kamosi, and created an interesting scene in the district.

Mr. Stone, Vice Secretary of the Association, in welcoming His Excellency, said he had been glad to have the honor of meeting him, and that he had been glad to have the honor of meeting him, and that he had been glad to have the honor of meeting him.

The Governor then decided the history of the settlement which had already established its name on the banks of the Nile, and had a well established office in the country and had a well established office in the country and had a well established office in the country.

The Governor in reply said that he was glad to have the opportunity of visiting the place, and that he was glad to have the opportunity of visiting the place, and that he was glad to have the opportunity of visiting the place.

He then visited the various farms, as he had often done before, and was glad to hear that the district had made such a good show of things.

You can trust a Douglas anywhere

GRADY and Douglas WIN THROUGH

Grady finished his great journey 8,000 miles around Australia in 41 1/2 clock-to-day Douglas in perfect order no spare used.

Armuting, Perth, Western Australia. Oads dated March 14th

Bahind three feet solid and in a story of the biggest aviat in the annals of motor cycling.

The distance was 7,000 miles—Drove Douglas, Mr. A. B. Grady left Fremantle, Western Australia. His destination was Perth—Woolly, W. Douglas, Western Australia, and Adelaide, a 9,000 mile journey over the roughest of the worst country in the world.

As you will be familiar, tremendous difficulties were experienced. Once Mr. Grady was buffeted for three weeks and brought to the verge of giving up, but he was invincible in his spirit; and his extreme endurance and determination to bring his automobile to the desert wilderness of the Nullarbor.

Mr. Grady was very brave—because his Douglas never let him down. His spirit was his strength. His responsibility faithfully to every call, and never for a moment give over to the enemy. Faith and courage for the entire distance worked out at 80 and 1,100 miles per gallon—excellent figures considering the appalling conditions. "No Spares used," never overhauling and on windmill oil and dripping over the machine.

A RACY WEEK IN FRANCE

Douglas took a beautiful holiday recently—round the Channel and spent a nice time with the French Riviera. The New York Times and the Paris-Bureau.

As usual, Douglas proved that the bestationally open wilderness travel could more than hold its own against the sturdiest motor.

Douglas easily won 7,000 miles for the One-Kilometer Road Race, 100 miles for the 100-mile race, 200 miles for the 200-mile race, and 300 miles for the 300-mile race.

His Douglas easily won 7,000 miles for the One-Kilometer Road Race, 100 miles for the 100-mile race, 200 miles for the 200-mile race, and 300 miles for the 300-mile race.

His Douglas easily won 7,000 miles for the One-Kilometer Road Race, 100 miles for the 100-mile race, 200 miles for the 200-mile race, and 300 miles for the 300-mile race.

CAR CAUSEME

(Continued from page 17)

question of the hood is at all necessary to stop the car in emergency in order to prevent the car from running. The hood sometimes has various openings for the purpose of ventilating the engine, and the hood is sometimes provided with the means of stopping the car in emergency.

Easy Operation Wanted.—It is the hood or flexible roof which is the most important part of the convertible top. It should be made of a material which is easy to operate, and which is not liable to become stiff or brittle with use. It should be made of a material which is not liable to become stiff or brittle with use.

Second-Hand Cars.—The comparatively large sale of second-hand cars in Kenya during the last few years has made it necessary for people to enquire where the old cars are to be had. As a matter of fact, the second-hand car trade is not so satisfactory as it seems to be. The cars are often of a make which is not so satisfactory as it seems to be. The cars are often of a make which is not so satisfactory as it seems to be.

French View of Competition Rules.—The French Government has decided to take steps to protect the interests of its automobile industry. It has decided to take steps to protect the interests of its automobile industry.

Appointments.—The following appointments have been made for the month of June. The following appointments have been made for the month of June.

A Light Battery.—The following information is given regarding the new light battery. The following information is given regarding the new light battery.

But whether we dispense the hood is at all necessary to stop the car in emergency in order to prevent the car from running. The hood sometimes has various openings for the purpose of ventilating the engine, and the hood is sometimes provided with the means of stopping the car in emergency.

STARTING FROM COLD.

Problem Which Best Nearly All Motorists.

HOW TO TACKLE IT.

Whenever a cold spell sets in, the auto car-motorsist complains on several occasions on the morning or before starting the car. The car will not start, or it will start with a difficulty which is not only annoying but also a little embarrassing. The difficulty lies in the fact that the car will not start, or it will start with a difficulty which is not only annoying but also a little embarrassing.

ALL CIRCUIT DIFFICULTIES.—The whole of the electrical system of the car is affected by the cold. The whole of the electrical system of the car is affected by the cold.

THE USE OF THE TRACTOR

Scientific development on the Farms.

OXEN REPLACED. Up-to-date farmers are discovering that scientific agriculture is becoming increasingly necessary in all departments of the farm.

One of the great drawbacks of the use of animals, particularly in Kenya, is that they are slow and inefficient in their work.

Amongst the various types of tractors on the market at the present time, one of the most popular and certainly one of the most efficient is the Ford tractor.

1500 Watt-110 Volts No Storage Batteries

These electric house lighting plants almost think.

No matter how isolated its location the Kohler Automatic lighting plants starts itself and stops itself.

IN the evening when it commences to get dark, just switch on any light.

Immediately the Kohler Automatic starts no matter how remote and isolated the plant may be from the house. The engine even chokes itself to insure instantaneous starting when cold. As soon as the engine becomes warm the choke automatically becomes inoperative.

As more lights are turned on the demand for increased current is immediately met.

When light after light, is turned off the throttle closes so that just enough current is generated to supply the requirements—and no more. This means no waste current—no waste fuel—and that the fuel consumption is always in proportion to the actual current used.

Automatic force feed oiling lubricates the engine.

No human touch. Just Kohler Automatic control.

THE DERBY 1925.

The Winner.

Mr. H. E. Morris' "Maana," with E. Donaghy up, the winner of the Derby.

A KENYA BEAUTY SPOT.

A scene on the Tavo River.

THE "FAMOS" centre draught INCANDESCENT OIL LAMP SUNSHINE at NIGHT

10 Reasons Why You Should Use "FAMOS"

Above is an illustration of a burner, single lamp. The principle employed in the construction of these lamps is that of evaporating kerosene, to be burnt in a fine jet of air. Try to imagine the combined light of 120 wax candles and you have an idea of the power of illumination of the lamp. Each burner has an output of one-tenth, pound, of kerosene. Light, power, economy, satisfaction and the minimum of waste, and trouble.

**One Burner Model, 25/- 2 Burners, 45/-
3 Burners, 55/- 4 Burners, 65/-**

Round STEWFAN—This is a very useful article for the kitchen. It is made of brass and is very durable. It is also very cheap.

JOY IN EVERY PUFF! THE KIKUYU MESSON.

Dealt of £7,000.

For they are made from Pure Golden Virginia Tobacco unadulterated and will not affect your throat.

PASSING SHOW VIRGINIA CIGARETTES... 1-90 FOR 50

The most recent news of Kenya... The Kikuyu Messon... The apparatus was estimated... Their deep regret...

Is there anyone ill at home to-day?

ANYONE who is completely run down through overwork or neurasthenia? Anyone just up after a serious illness? Anyone whose faith wants thoroughly shaking?

More than 10,000 doctors have recommended this great tonic wine for building up the human frame after serious illness... It will prove most useful.

WINGARNS 'The Wine of Life'... Wm. & Catherine R. Co., Ltd. 1, Westbourne Place, Northwick, England.
