Over 24,000 Physicians Advise you—Take Sanoogen

When we state that 24,000 physicians advise you to take Sanoogen, we only refer to those who took the trouble to write us—after having watched case after case—about the success they had with Sanoogen. They all definitely endorse the power of Sanoogen to rebuild worn-out nerve cells and give a new vigour and resistance to body and mind.

The trustworthy Medical paper, "The Lancet," writes: "There is abundant evidence of the value of Sanoogen as a restorative and food and more particularly in cases of general debility."

A Physician states in "The Indian Medical Gazette": "For residents in tropical climates suffering from general debility, the best and most readily assimilable food is Sanoogen. I have used it on a large scale, and have never found it to be equalled with the results obtained."

Start taking Sanoogen on your own motion in restoring health and vigor to your own health.

The
BUICK
Standard Six
£435

Those who saw the Buick exhibit at the Show know how these cars excelled in silent, vibrationless running.

For two full days Buick engines were operating steadily—without a sound—without a pause. So ghostly silent were they that spectators were repeatedly seen putting their ear close to the engine in a fruitless endeavour to catch even the faintest sound.

This was the "proof" of Buick scientific design—and faultless balance. These remarkable motors will drive the car over the roughest roads and trails without faltering. They will glide along at 1 mile an hour in high gear or with tremendous acceleration reach the terrific speed of 70 miles an hour. There is power for every hill—and also perfect safety, for all Buicks are equipped with mechanical tear wheel brakes—the most reliable type of braking system known.

Agriculture and Education!

J. D. Leach, of Ford, Canada, says:

"Among the recipients of honorary degrees at the recent Convocation of the University of Toronto, Canada, which included a lady medical missionary, a railroad president, a school principal, a soldier, a bishop, a professor and a medical man, was a worker in agriculture, Charles Edward Saunders."

In presenting the degree of Doctor of Science, Honoris Causa, to Mr. Saunders, Principal Hutton, said:

"I present this degree to the man who is world famous not only for the development of Marquis Wheat but for his remarkable research work at the experimental farm, Ottawa. He has never been interested in research aided by endowments. His labours have already borne fruit, sharing with the field of medicine the honours which make Canadian research work a household word. He made two blades of grass grow where one grew before."

"Rivalling even the progress made in Scientific Research of Agricultural Plant Life is the progress made in the use of Mechanical Methods as a means of meeting the labour shortage and the bringing of large areas into profitable cultivation."

"Chief among these is the Gas Tractor, and chief among Gas Tractors is the FORDSON."

"The introduction of Ford Service applied to Fordson Tractors was the greatest boon ever given to owners of Tractors of every variety. Immediately, TRACTOR PRICES started to come down, PARTS PRICES started to come down; SERVICE EFFICIENCY started to go up. In the light of what has transpired since, we can now see the wisdom of this Policy."

There was manufactured, in:—

1917	FORDSONS	254
	Other makes combined	62,488
1923	FORDSONS	101,256
	Other makes combined	26,523

For every 3 minutes of the 24 hour day a Fordson Tractor runs off the Factory Assembly Lines under its own power.

In another part of this paper you will read of the results of a meeting, held on July 25th, in connection with the reduction of Tractor and Transportation fuel prices. Give this subject your support.

"During a campaign last year in Western Canada in connection with a Co-operative Marketing Scheme a prominent Statesman was asked what he thought of it,"

He said:—

"The Scheme in itself is a detail; it will be worked out successfully because there is a great weight of public opinion behind it, but the principle that is of infinitely greater importance, is the fact, that Agriculturalists now are taking a keener interest in their own business. It is a happy omen for the future."

OUR LONDON LETTER.

Unusual Summer Heat.

LONDON, June 16. Although the hot weather, we have on other days since we were in London, it is not so hot as it is now. In fact, it is not so hot as it is now. In fact, it is not so hot as it is now.

It is indeed a surprise that hundreds of men wear hats and because of the heat. This fashion led by the King, who is a father-child of grey, who sits in a double outfit, who sits in a double outfit, who sits in a double outfit.

These figures are also probably correct. The fact was that she had been engaged to sing. The fact was that she had been engaged to sing.

Clearly, however, we have not our engineering skill, and the people are being injured in a number of cases.

Another record engineering has been made. The fact was that she had been engaged to sing. The fact was that she had been engaged to sing.

COST OF FUEL OIL.

BURNING OILS WANTED.

Increasing the Range Made of Lignite and Turf.

A meeting was held at the House of Commons on Tuesday evening last, at which the question of the cost of fuel oil for the Army and Navy was discussed. The discussion and the meeting had been called for by Mr. Balfour, and the result was that the Government would not be bound to supply oil at a fixed price, but that the Government would be bound to supply oil at a price not exceeding the price of the best oil available in the market.
