We have been entrusted with the negotiations for the disposal of two very valuable properties. Both are highly developed, and carrying substantial revenues.

A view preliminary to settlement or investment in Kenya Colony was inspected on our Property Register. We offer a complete summary of prices current in the various districts of the Colony, suitable for the cultivation of Maize, Cotton, Wheat, Durum, etc.

We have a special selection of properties on offer for a quick sale below current market rate. Properties requested include small as well as large areas, developed and undeveloped. A number are on offer at very favourable prices.

TRANS-NZOLA - Intending investors in this area can obtain up-to-date information upon the best properties for sale in that area. Complete arrangements have been made for inspection of these properties.

Smart-Looking Cars with Many Added Features

NOW in the latest Ford body types there are all the things which you, yourself especially desire in your own car. Your first thought on seeing them will be of their attractiveness. The bodies are lower and have a lengthened "streamline" treatment. The closed cars are now finished in colour. You will welcome, too, the increased roominess, the greater riding comfort and the many convenient new features.

The fact that all this has been accomplished without raise in price is even more impressive. Ford value, for years holding unchanged leadership in the motor car market, reaches a new high peak through Ford production—its volume and economy of manufacturing methods. See these cars at the display room. Let us arrange a demonstration ride. You will agree that here is the car you have always intended to buy.

The Service Company Limited.

IMPORTING DEALERS AND DISTRIBUTORS NAIROBI, NAKURU, MOMBASA, AND MOSHI.

The bumper which draws the highest loading at Tattersall's is the one with the well-balanced, lightness—especially good in heavy, in the field, and in starting power. The same quality of balance gives the superiority in the hand. The hydro-pneumic which gives the output of horse-power, quick getaway, and makes the machine, well-balanced, on the roughest ground at the expense of the others. This is why Shell gives the best results in race and motor cycles of all types.

An Important Change in Policy!

STUDEBAKER herewith announces the discontinuance of the custom of presenting a new line of automobiles each year. Instead of bringing Studebaker Cars dramatically up-to-date once in twelve months...

BACK of this new policy is an amazing story—of interest to everyone who owns or expects to own an automobile. The dramatic success of the present line of Studebaker Cars is one reason for this important change.

Surely, these significant facts prove beyond any shadow of doubt that Studebaker Cars are so soundly engineered and manufactured and so eminently satisfactory in "the hands of owners," that drastic annual changes are not required.

### THE LOAN SITUATION.

**Kikuyu Farmers Want Production Record First.**

### THE LABOUR PROBLEM.

**Resolution Passed Urging Caution in Expenditure.**

The annual general meeting of the Kenya Agricultural Union was held in the Memorial Hall, Nairobi, on Monday evening, Jan. 11. Mr. H. Masaga presided and there was a large attendance of members. Mr. W. MacLellan, who addressed the meeting at length on the loan proposals and their effect on the members, was warmly applauded for his 100,000 for Government bonds. He also urged the members to be careful in their expenditure, and to avoid any unnecessary outlay.

### GOVERNMENT HOUSE SCHEMES OUTLINED.

Working here on a definite policy, it was today by the members and the Government had always been successful when it had listened to the settlers. It was afraid of the policies of Uganda and Tanganyika, and it was afraid of the settlers. It was afraid of the settlers. It was afraid of the settlers.

### Battle of Opinions in the Reichstag.

The Legal Committee of the Reichstag is discussing a dozen estate notes submitted to the Reichstag before Christmas, authorizing individual Federal States to raise the claims of the surviving widows on their estates.

### Calcutta Book Factory.

The Calcutta Book Factory is a new factory that has been established in Calcutta. It is a joint venture of the Government and private enterprise.

### THE NEED FOR CAUTION.

The Chairman said they were not to be misled by the very big advertising given by Mr. Masaga. He said that they were not to be misled by the very big advertising given by Mr. Masaga.

### A CONFERENCE CENTRE.

Not only that, he had mentioned about the coming Government conference. Kenya Colony had been invited to send a delegate and a house which would meet in Nairobi to discuss the country's affairs.

### NEW TREATMENT FOR LEPROSY.

**Vaccine Discovered by Indian Doctor.**

### Mummy Discovered in Middle of Sahara.

### ANTONINUS CURE.

What is described as the new vaccine treatment for leprosy was demonstrated at the Indian Congress by an Indian Dr. B. S. Prasad of the Indian Medical Service.

### PAYING OUT GERMAN EX-PRICES.

It was announced that the German Government had agreed to pay out the ex-prices of the German colonies.

### Berlin, Jan. 10.

The Legal Committee of the Reichstag is discussing a dozen estate notes submitted to the Reichstag before Christmas, authorizing individual Federal States to raise the claims of the surviving widows on their estates.

### THE MONEY MARKET.

Monday, January 9. The money market was quiet. The rate for 3 months' bills was 4 1/2 per cent.

### A LITTLE STEERING BY ARMY CHIEF.

The Chief of the Army Staff is expected to give a speech on the military situation in the near future.

### Palmyra, Jan. 10.

Palmyra is a small island in the Pacific Ocean. It is a territory of the United States. It is a territory of the United States.

### Der-Sultan's Daily.

The first number of the Tanganyika Free Press, our neighborly daily newspaper, was published in Dar-es-Salaam on Monday, Jan. 11.

### QUEENED TON RIVAL TO PROBLEMS OF NATIVASHA FARMERS.

### New Association for Kinangop.

### STATE EXPENDITURE.

From a Correspondent. The 1925 estimate passed by the National Assembly on Friday 9th inst. shows that the total expenditure of the Government for the year 1925-26 is estimated at Ksh. 1,000,000.

### The Coffee Market.

Measur W. C. Hunter and Co. London have received the following cable information of the London coffee market.

### MEETING THE VOTERS.

A telegram was read from Lord Curzon to the effect that the British Government will do its utmost to ensure that the wishes of the voters are met.

### THE MONEY MARKET.

Monday, January 9. The money market was quiet. The rate for 3 months' bills was 4 1/2 per cent.

**RAILWAY FACILITIES FOR LABOR.**  
To the Editor, "E.A. Standard."  
On my subject in writing this letter and asking you to publish same in some newspaper of about 5000 copies intended to bring pressure on the Uganda Railway to open the facilities for carrying labor to the R.R. under other conditions as those now in force.

The sections will shortly be with us. Let us see our legislators on the days of the old Roman Empire.

Why, indeed, was the boy allowed to practice as an farmer? So far as my own judgment is concerned, the days of the old Roman Empire.

The sections will shortly be with us. Let us see our legislators on the days of the old Roman Empire.

Yours truly,  
MILTON J. BULLOCK  
Nairobi, December 8, 1925

An Important Change in Policy!

STUDEBAKER herewith announces the discontinuance of the use of custom of presenting a new line of automobiles each year, the time - with every improvement and refinement made available by our great engineering and manufacturing resources. This policy not only directly benefits present Studenaker owners, but it also enables purchasers of new cars to obtain models that are always modern - without the necessity of waiting for annual changes, and without the danger of their new cars becoming obsolete.

BACK of this new policy is an amazing story of interest to everyone who owns or expects to own an automobile. The dramatic success of the present line of Studebaker Cars is one reason for this important change. Month after month, we keep breaking records - sales keep piling up. This year we will sell almost four times as many automobiles as we produced in the big boom year which followed the war.

Owners report endurance records, even beyond our greatest expectations. Out in the rugged mountain regions where Studebaker sells four times the normal proportion of cars, owners talk about these models in the most extravagant terms. In 1924 the stamina under severe usage - remarkable performance under the most difficult travel conditions - these are the qualities for which Studebaker cars have long been noted. Extensive investigations, recently conducted, have revealed only two very minor suggestions for improvement of the present Studebaker line.

We have been entrusted with the negotiation for the disposal of two very valuable properties. Both are highly developed, and carry good substantial revenues.

A view preliminary to settlement of investment in Kenya Colony as an inspection of our Property Register.

We offer a complete summary of prices current in the various districts of the Colony suitable for the outgrower of Maize, Cotton, Sugar, Wheat, Dairying, etc.

We have a special selection of properties open for a quick sale below current market rate.

Inspection requests include small as well as large estates, developed and undeveloped. A number are on offer at very favourable terms of payment.

TRANS-STOIA.—Landing investors in the area can obtain up-to-date information upon the best properties and also the latest planning arrangements have been made for inspection of these properties.

## No Change in Price. Ford TOURING CAR

An all steel stream line body on the improved chassis, with a new top designed to harmonize with the reduction in weight, gives the touring car a grace and swiftness heretofore unapproached.

Advances in comfort have kept pace with improvements in design. Placing the motor, tank and oil has made it possible to lower the seat, bring greater leg room, and add comfort for driver and passenger. Ventilation and drainage have been improved by the new touring mechanism, the floor laid of which is adjustable.

The side curtains, redesigned to conform to body and top when in place, the curtain open with the doors which have also been made wider, and combine wide vision with lasting durability.

### GOVERNMENT HOUSE.

During the public consideration of the last proposals, attention has been centred upon the Government House scheme more than upon any other item of the schedule. Elected Members who have addressed their constituents have devoted special attention to this subject. It has been variously described as "a spot in each's wheel," a "political liability," and "a political time-bomb." By the Government House, it is meant that the public are not satisfied and opinion is divided. We desire today to examine the proposals in detail. It is believed that examination is necessary before public opinion can be expressed soberly and judicially. We shall therefore endeavour to give the most complete and impartial account of the proposals which we can. Although it is common to say that the report is not in favour of the Government House, it is not true. The report is in favour of the Government House, but it is not in favour of the Government House as it is now proposed. It is in favour of the Government House as it is proposed to be after the proposals have been considered. It is in favour of the Government House as it is proposed to be after the proposals have been considered. It is in favour of the Government House as it is proposed to be after the proposals have been considered.

to divide the scheme into its component parts, to place them in some order of priority of importance, and to view them individually. If it is done the problem becomes much simpler of solution. In our opinion there can be no doubt that it is important the Assembly Hall for the Legislative Council must be placed in the foreground. There is a definite need for accommodation for the Legislative Council of the country, not merely a simple change in which discussion can be considered on a single purpose Assembly Hall complete with library, library, ante-rooms, galleries for Press, and public staff (clerks and messengers) where heads of departments can carry on their work while their presence is not required in the Council Chamber. To build a modern Council Chamber would be to make provision for the future where constitutional or other changes might be necessary. It is therefore a matter of block building, and not merely a matter of the private residence of the Governor of the Colony in which case which some decided not merely with regard to the present but in consideration of the future. It is therefore, whether His Excellency would be in favour of that arrangement and when this country improved its status it would perhaps be even more in accordance with the spirit of the Government House as it is now proposed. It is in favour of the Government House as it is now proposed. It is in favour of the Government House as it is now proposed.

There is one further point for consideration. Whether the final vote may be it should be considered. Whether the final vote may be it should be considered. Whether the final vote may be it should be considered.

An Important Change in Policy!

STUDEBAKER heretofore announces the discontinuance of the custom of presenting a new line of automobiles each year... Instead of bringing Studebaker Cars dramatically up-to-date once in twelve months...

BACK of this new policy is an amazing story—of interest to everyone who owns... The dramatic success of the present line of Studebaker Cars is one reason for this... This year we will sell almost four times as many automobiles as we produced in 1924...

Surely, these significant facts prove beyond any shadow of doubt that Studebaker... Surely, these significant facts prove beyond any shadow of doubt that Studebaker... Surely, these significant facts prove beyond any shadow of doubt that Studebaker...

As in the past, we still continue to pioneer vital betterments that have proved their... As in the past, we still continue to pioneer vital betterments that have proved their... As in the past, we still continue to pioneer vital betterments that have proved their...

Next Year's Derby Winner

"Coronach's" Chances of Winning the "Crownch's" Big Classic.

ISSUE AT PRESENT DECIDEDLY OPEN

Sir Abe Bailey's "Lex" to be Reckoned With for Next Year's Races.

As the winter season draws to a close, the attention of the racing public is naturally directed to the question of the next year's Derby winner. It is not too early to begin to consider the chances of the various colts who are likely to be in the field in 1926. One of the most promising of these is Sir Abe Bailey's "Lex," a colt who was foaled on the 15th of March last year. "Lex" is a son of the Derby winner "Lexington," and he has inherited from his sire a number of the qualities which have made "Lexington" so successful a sire. "Lex" is a colt of a fine build, and he has a very good disposition. He is a colt who is likely to be in the field in 1926, and he is a colt who is likely to be one of the best of the year.

THE "MORRIS" CAR.

Economical in Running Expenses.

PERFECT ENGINEERING.

The Morris car is a representative of the best of the best of its class. It has an excellent running gear, and its engine is of the most reliable type. It is economical in running expenses, and it is perfect in engineering.

It is a car that is built to last, and it is a car that is built to give you the most pleasure out of your money. It is a car that is built to give you the most reliable performance, and it is a car that is built to give you the most economical running expenses.

It is a car that is built to give you the most reliable performance, and it is a car that is built to give you the most economical running expenses. It is a car that is built to give you the most reliable performance, and it is a car that is built to give you the most economical running expenses.

MOTORING TOPICS

THE MAGNETO.

Unlikely to be Supplanted by Coil and Battery.

One who says the death of the magneto has been pronounced says the magneto, although the dynamo is better, it is not likely to be supplanted by the coil and battery.

It is a car that is built to give you the most reliable performance, and it is a car that is built to give you the most economical running expenses. It is a car that is built to give you the most reliable performance, and it is a car that is built to give you the most economical running expenses.

RELIABILITY TRIALS.

OFFICIALLY BANDED IN THE TRANSVAAL.

Without prior notice the Transvaal Provincial Council under power conferred by the Motor Vehicle Act of 1919, on the 17th of September that any person taking part in any competition...

It is a car that is built to give you the most reliable performance, and it is a car that is built to give you the most economical running expenses. It is a car that is built to give you the most reliable performance, and it is a car that is built to give you the most economical running expenses.

Ngong 150 acres, on the Ngong Plains, including 100 acres of coffee and maize, with 100 acres of bush and 50 acres of pasture. Ngong 300 acres, including 100 acres of coffee and maize, with 100 acres of bush and 50 acres of pasture.

East Changanui, 1,000 acres, including 100 acres of coffee and maize, with 100 acres of bush and 50 acres of pasture. East Changanui, 1,000 acres, including 100 acres of coffee and maize, with 100 acres of bush and 50 acres of pasture.

No other car in the world offers all these important advantages.

- Four-wheel Brakes, Oil Filter, Air Filter, 12 Valve Motor, Completely Sealed Chassis, Cantilever Springing, Stripping Head Lamps, 77 Horse Power, Finger-light Steering, Eight Pressure Clutch, Valve-in-Head Engine, Remarkable Fuel Economy.

There are more Buicks registered throughout the world than any other car except Chevrolet and Ford.

Buick's predominance in registrations means extra miles turned in by old cars that would not be running at all if they were not Buick—built as only Buicks build. The oldest cars in regular operation in East Africa are Buicks.

It is Buick operating Buicks that are battered from dirt and wear to insure longer life with less upkeep.

TODAY living and working—of swifter movement—of increased accomplishment. The problem, squarely up to motorcar designers, engineers and manufacturers, has been the construction of a type of engine and motorcar to meet the vital and urgent needs of this new day.

Such a motorcar is now here. Certainly no modern development in motor car design so completely answers the needs and requirements of the new-day driving as the new Buick. Decide now to see and drive this epochal motorcar at the very earliest opportunity.

Nothing will so surely emphasize the vast difference between ordinary motorcars and the new Buick type, yourself, feel the first time you drive a Buick. The new Buick has a flashing pick-up which no other car can equal. Its driver will enjoy a new mastery of the road.

The new Buick has a flashing pick-up which no other car can equal. Its driver will enjoy a new mastery of the road. Its responsiveness to the slightest touch is amazing. The magical ease with which the new Buick is handled will impress one at once.

You may expect much from the new Buick; you will not be disappointed. For the new Buick is the result of 23 years careful and painstaking development. The new model Buick has swept past all the old ideas and limitations of the motorcar as you have known it before. For economy, speed, power on hills, rough roads, capacity for heavy loads, ease of control, the new Buick is a revolution and stands as the recognized leader in new day design.

## Cruden's Historical Crude'uns No. 14

Alford the Great, escaping from the enemies' look refuge in the hut of a humble peasant. By extraordinary good fortune, the wife of the latter had secured possession of two cakes of CRUDEN'S SOAP. Alford begged for a wash, and having completed his ablutions, carefully hid his retreat of soap in the bath. The women, not knowing the status of her guest, gave him a sound drubbing for his insolence. He admitted the justice of the punishment, for, said he, "CRUDEN'S SOAP is a high class product, and should not be wasted."

## CRUDEN'S SOAP

Made in Kenya.

"STANDARD" FEATURE PAGE

KENNEL NOTES by Margaret Collyer

My Collyer, I beg to inform all correspondents in connection with "Kennel Notes" that, as addressed, does not send her any copy of the "Standard" for which she is the editor. The "Standard" is the official organ of the East African Kennel Club.

I have just heard from Mr. R. E. Anderson of Mount Margaret Station, Bunderghat, that he has a very fine litter of Abianut wolf dog puppies for sale. There are four dogs going at a price, and three litters at 15.

I have just heard from Mr. R. E. Anderson of Mount Margaret Station, Bunderghat, that he has a very fine litter of Abianut wolf dog puppies for sale. There are four dogs going at a price, and three litters at 15.

I have just heard from Mr. R. E. Anderson of Mount Margaret Station, Bunderghat, that he has a very fine litter of Abianut wolf dog puppies for sale. There are four dogs going at a price, and three litters at 15.

Talking of prices, I should like to see every eye has been turned toward the "Standard" as a price for the dog show. I have seen some good dogs, but I have seen better for rather less than I have seen elsewhere. We need fresh blood in the judging ring, and by now there must be many people who have the ability to judge of better classes for their money.

OUR ANNUAL MEETING The 6th annual meeting of the K.C. has been now fixed for February 1st and 2nd. It is not yet decided whether we are going to have an indoor or outdoor meeting. I think the ground is too far away from the town, and that we should get an indoor better site if we had one. I am sure that the meeting will be a success.

When you see a dog with a black and white coat, which is called a "pied" dog, it is a very good dog. I have seen many of these dogs, and they are very good. I have seen many of these dogs, and they are very good.

DOG IN INDIA I have just heard from Mr. R. E. Anderson of Mount Margaret Station, Bunderghat, that he has a very fine litter of Abianut wolf dog puppies for sale. There are four dogs going at a price, and three litters at 15.

IRISH FEVER I have just heard from Mr. R. E. Anderson of Mount Margaret Station, Bunderghat, that he has a very fine litter of Abianut wolf dog puppies for sale. There are four dogs going at a price, and three litters at 15.

Only two Manufacturers offer "One-Prof-it" Unit Built Values

ONLY two manufacturers actually build their cars complete—make all their own bodies, engines, chassis, springs, gear boxes, differential, steering gear, axle, gray iron castings and drive shafts.

One is Ford. The other is Studebaker. To make this possible, Studebaker has for many years invested more than half its earnings in new and more factory buildings and in the modern, most efficient machinery that equipment. Because of this policy, numerous automobile lines that gross \$100,000 have been built up and devoted exclusively to the production of Studebakers.

This One-Prof-it principle of manufacture makes possible four great advantages:

- 1. It eliminates the extra profits and overhead that many other manufacturers have to pay and include in the purchase price to you. This keeps Studebaker prices low.
2. Because of the One-Prof-it savings, Studebaker is able to offer you a stronger, more substantially built automobile. We pay a premium for the finest steel. We use hard wood in body construction. Throughout the entire car, in hundreds of hidden places—you find the same high quality of materials and workmanship that you see on the open.
3. It makes possible finer quality, because Studebaker, being an independent manufacturer, with no subsidiary or allied companies to favour in the sale of their materials at the lowest possible price. Studebaker purchasing agents are not stopped in their search for quality and value.
4. And finally it enables us to build a better car because the vital parts are made in our own shops, and are completely by one organization. Being built in our own shops, they are not subject to the same quality of materials and workmanship that you see on the open.

Only STUDEBAKER builds the Duplex!

Studebaker Standard six Duplex Sedan, distinguished by a splendid example of One-Prof-it values. It has the most powerful engine of any car in the world of the weight and price. Duplex, body, an exclusive Studebaker feature, full size balloon tires, genuine painted and leather upholstery, instruments, including an auto clock, grouped in an oval panel under glass, lights controlled on the steering wheel and many other desirable features.

Price £445 F.O.B. NAIROBI.
