MOTORING TOPICS

GEAR CHANGING

Real Test of Experience in Driving.

ALMOST AN ART

There is nothing in the whole procedure of driving a car so quite as satisfying as a well-chosen gear change. It is a pleasure to feel the clutch pedal being depressed, the gear lever being moved, and the engine being brought to a halt, and then to feel the clutch pedal being released, the gear lever being moved, and the engine being brought to a halt, and then to feel the clutch pedal being released, the gear lever being moved, and the engine being brought to a halt...

DOUBLE DECLUTCHING

DOUBLE DECLUTCHING

If this does not result in a speed increase, the driver should be advised to use the clutch as a means of stopping the car. The clutch should be depressed, the gear lever moved, and the engine brought to a halt, and then to feel the clutch pedal being released, the gear lever being moved, and the engine being brought to a halt...

HANDING DOWN

HANDING DOWN

When a driver is handed down, he should be advised to use the clutch as a means of stopping the car. The clutch should be depressed, the gear lever moved, and the engine brought to a halt, and then to feel the clutch pedal being released, the gear lever being moved, and the engine being brought to a halt...

Sealed to Protect Buick Performance

Buick Chassis is completely sealed. Iron and steel housing protect the operation of all driving parts—seal them in to safeguard Buick performance. Some cars have some of this protection, but Buick is the only car in the world—regardless of price—that has a wall of defence continuous from fan hub to rear axle against road dirt, stones, water and loss of lubricant. And now to these seals Buick has added three more—

- 1 Oil Filter. Buick Oil Filter is most easily working with the engine in running. As it is used in 10 cases through the filter and is managed. Dirt and impurities are removed from the oil before it goes to the engine.
2 Air Filter. Dirt and gas are removed from the air by Buick's Air Filter. Before the air reaches the engine it is passed through the filter and is managed.
3 Petrol Filter. No water, gas or foreign substance can get into the carburetor. Buick's petrol filter is a perfect filter. Buick owners are never troubled by carburetor problems. Buick's petrol filter is a perfect filter. Buick owners are never troubled by carburetor problems.

Here are the vital points at which Buick engineering provides this protection:

- 1 FAN HUB - Fan assembly is mounted on the front pump.
2 WATER PUMP - Water pump is mounted on the front pump.
3 WATER PUMP - Water pump is mounted on the front pump.
4 WATER PUMP - Water pump is mounted on the front pump.
5 WATER PUMP - Water pump is mounted on the front pump.
6 TRANSMISSION - Complete transmission housing sealed.
7 UNIVERSAL JOINT - Complete universal joint housing sealed.
8 BOWELLER'S SHAFT - Bowler's shaft is protected by a special device.
9 REAR AXLE - Flange type axle housing sealed to rear axle housing.

Cruden's Historical Crude's Soap No. 14

Adopted the cleanest soap from his enormous stock, refined to the best of a chemist's process. By extraordinary good fortune, the wife of the Advertiser had become possessed of one cask of CRUDEN'S SOAP. He immediately set both casks of soap in the sale. The woman, not knowing the true value of her gift, gave him a small drinking glass by her companion. He admitted the value of the purchase, but said he would not sell the soap at a price that would not do her justice.

CRUDEN'S SOAP

Made in Kenya

CLIENTS PLEASE NOTE THAT WE HAVE REMOVED FROM GOVERNMENT ROAD TO FEINS BLDG. HARDING ST. next to Messrs. Gall & Roberts. THIS IS OUR NEW ADDRESS.

The Earl and Countess of Craven have become reconciled after the abandonment of divorce proceedings...

Big Deal in Loan.

A MILLION CLAIMED BY THE TREASURY

How £1,500,000 was made on a deal that has cost £2 million in the London Court of Appeal.

The Court dismissed an appeal by Lord Macmillan...

Mr. Martin paid £7,000,000 for the loan and made a net profit of £1,500,000 on the resale.

Mr. Justice Atkin expressed surprise whereupon counsel said "The deal."

The Master of the Rolls said the contract that the plaintiff had made...

a firm in South Africa, but reported that the plaintiff had not been successful in his proceedings...

E. A. Products.

MARKET MOVEMENTS IN LONDON.

Meats: Tinned Beef, Lard, Salt Pork, Bacon, Ham, etc.

KENTA COFFEE

The market is firmer and we quote: Grade A size, medium to good, 19/6 to 19/8 per cwt.

PLAX

The market is weak and for East African demand, Grades 1st, 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9th, 10th, 11th, 12th, 13th, 14th, 15th, 16th, 17th, 18th, 19th, 20th, 21st, 22nd, 23rd, 24th, 25th, 26th, 27th, 28th, 29th, 30th, 31st, 32nd, 33rd, 34th, 35th, 36th, 37th, 38th, 39th, 40th, 41st, 42nd, 43rd, 44th, 45th, 46th, 47th, 48th, 49th, 50th, 51st, 52nd, 53rd, 54th, 55th, 56th, 57th, 58th, 59th, 60th, 61st, 62nd, 63rd, 64th, 65th, 66th, 67th, 68th, 69th, 70th, 71st, 72nd, 73rd, 74th, 75th, 76th, 77th, 78th, 79th, 80th, 81st, 82nd, 83rd, 84th, 85th, 86th, 87th, 88th, 89th, 90th, 91st, 92nd, 93rd, 94th, 95th, 96th, 97th, 98th, 99th, 100th.

TOW

There is still a fair demand for East African tow, but the market is weak and for East African demand, Grades 1st, 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9th, 10th, 11th, 12th, 13th, 14th, 15th, 16th, 17th, 18th, 19th, 20th, 21st, 22nd, 23rd, 24th, 25th, 26th, 27th, 28th, 29th, 30th, 31st, 32nd, 33rd, 34th, 35th, 36th, 37th, 38th, 39th, 40th, 41st, 42nd, 43rd, 44th, 45th, 46th, 47th, 48th, 49th, 50th, 51st, 52nd, 53rd, 54th, 55th, 56th, 57th, 58th, 59th, 60th, 61st, 62nd, 63rd, 64th, 65th, 66th, 67th, 68th, 69th, 70th, 71st, 72nd, 73rd, 74th, 75th, 76th, 77th, 78th, 79th, 80th, 81st, 82nd, 83rd, 84th, 85th, 86th, 87th, 88th, 89th, 90th, 91st, 92nd, 93rd, 94th, 95th, 96th, 97th, 98th, 99th, 100th.

LINSEED

For good East African, the value is about 41/6 per ton for shipment to Hull or Antwerp.

CANSTONED

Unbarged for the good about East African the value is about 41/6 per ton for shipment to Hull or Antwerp.

SHAL

The market is weak and for No. 1 quality, Jan. 1939, we quote the value under about 66/6 per cwt. U.K. CONTRACT.

MAIZE

The market is weaker and for No. 1 quality, Jan. 1939, we quote the value under about 66/6 per cwt. U.K. CONTRACT.

NAIROBI WATER SUPPLY

Consumers in the following areas are requested to conserve the water supply as much as possible...

PARLANKANDA, WESTLANDS, MUTINDA AND UPPER PARLANKANDA. This notice is specially directed against the watering of gardens. All leakages must be reported immediately.

The supply is cut off at various points in the above areas at 9 o'clock each night and Residents are particularly requested to see that all taps in their premises are securely closed at that time so that the draw-off during the night will not empty the mains.

Only two Manufacturers Offer "One-ProfIt" Unit-Built Values

ONLY two manufacturers actually build their cars complete—make all their own bodies, engines, clutches, springs, gear boxes, differentials. The other is Studebaker.

- 1. It eliminates the extra profit and overhead that many other manufacturers have to pay and include in the purchase price for you.
2. Because of the One-ProfIt savings, Studebaker is able to offer you a sturdier, more substantially built automobile.
3. It makes possible finer machinery and equipment.
4. And finally, it enables us to build a better car because the final parts are designed, engineered and manufactured complete by one organization.

Only STUDEBAKER builds the Duplex!

Studebaker Standard Six Duplex (illustrated) is a splendid example of One-ProfIt values. It has the most powerful engine of any car in the world of its weight and size. Duplex body and chassis. Studebaker feature, full size balloon tires, genuine Sparta grained leather upholstery, instruments, including an "eye" clock, mounted in oval panel under glass, light control on the steering wheel and many other desirable features.

THE RATE BURDEN

Taking 8 per cent. as the basis for rate charges, up to £100,000.

The rate burden on the property owners of Nairobi is being increased by 8 per cent. from 1958 to 1959. This increase is being met by a 10 per cent. increase in the rate of 80 per cent. of the total rate. The rate burden on the property owners of Nairobi is being increased by 8 per cent. from 1958 to 1959. This increase is being met by a 10 per cent. increase in the rate of 80 per cent. of the total rate.

WHY BRITAIN NEEDS WARSHIPS

First Lord of the Admiralty Explains.

The first Lord of the Admiralty, Mr. A. V. Alexander, has explained why Britain needs warships. He said that the world is becoming more and more dangerous, and that Britain must have a strong navy to protect her interests.

COURT-TREAT PROGRESS.

FIVE DAYS TROUBLES IN THE DESERT.

The court-treat progress in the desert has been slow. The British forces have been unable to capture the town of Makwar, and the situation remains uncertain.

THE GREAT HUNGARIAN FORGERIES.

Demand for Arrest of a Bishop.

The Great Hungarian Forgeries have caused a demand for the arrest of a bishop. The forgeries were discovered by the British authorities, and the bishop is accused of being involved in the scheme.

Berlin Explosion.

A STREET WRECKED BY OAS AND BOMB.

An explosion in Berlin has wrecked a street. The explosion was caused by a bomb, and the damage was extensive. The street is now a wasteland.

THE RHINELAND TROOPS.

GERMAN REPRESENTATIONS TO ALLIES.

The Rhineland troops have been moved to new positions. The German representatives to the allies have been informed of the new arrangements.

MOTING TOPICS

ANOTHER INVENTION

Pneumatic Suspension System

TO REPLACE SPRINGS

In an early morning session of the House of Commons it was found that the usual springs are not so satisfactory as pneumatic suspension systems.

To cope with these various conditions some automatic adjusting arrangements would require to be introduced.

A new suspension system which does not require the usual springs has been introduced by Messrs. Wilson and Bentley, pneumatic suspension for shafts and axle ends can be readily utilized.

The system is similar to the standard of the War Office, the H.V. 100, and has also been demonstrated to a firm manufacturing large numbers of light cars.

HIGH VIEW HOTEL, LIMURU, (Late Mombasa) 17 to Nairobi, 19 to Kisumu Station. Terms Moderate.

The World's Motor Cycles

UNITED KINGDOM HAS MOST IN USE

Although the United States of America leads the world in respect of the number of motor-cycles that are in use, the United Kingdom has the largest number of motor-cycles in use.

Table with 2 columns: Country and Number of Motor Cycles. Includes United Kingdom (492,759), United States (382,000), France (100,000), Belgium (90,000), Australia (82,000), etc.

When the list was compiled, a South African paper, the Natal Mercury, stated that Africa was a long way from being equipped with a motor-cycle industry.

VALVE DEFECTS

EXCESSIVE CLEARANCES AND EFFECTS

Commonly enough, if valve tappets are noisy, mechanical pressure is more concerned about the noise than about the noise.

The following fact given in a recent edition of the Motor Cycle shows in numerical order the 22 countries in which 1,000 or more motor-cycles are in use.

UNITED KINGDOM 492,759 UNITED STATES 382,000 FRANCE 100,000 BELGIUM 90,000 AUSTRALIA 82,000 JAPAN 71,841 SWITZERLAND 61,800 DENMARK 41,000 SWEDEN 38,000 CANADA 35,000 ITALY 34,000 POLAND 2,700 GERMANY 2,500 HUNGARY 2,100 CZECHOSLOVAKIA 2,000 GREECE 1,900 DENMARK 1,800 SWITZERLAND 1,800 POLAND 1,800 GERMANY 1,800 HUNGARY 1,800 CZECHOSLOVAKIA 1,800 GREECE 1,800

A Growing Vogue Two Fords instead of the big car

To-day the car is adapted to the needs of the family, not the family to the capabilities of the car. The amazing strides of the automobile industry, the development of production methods and the popularity of the improved Ford car have made possible this same point of view of the present day purchaser.

Two Ford cars may be bought and operated at the cost, or less than the cost, of one big car. Selection of two of the five standard Ford types: the Touring car or the Roadster, the Tudor Sedan, the Fordor Sedan, this type, will provide appropriate personal transportation for a wide range of family activity.

If one car is driven to the office and left at the curb all day, there's another at home for family.

THE EAST AFRICAN STANDARD MOMBASA TIMES & UGANDA PAPERS THURSDAY, JAN. 21, 1926.

NAIROBI ELECTIONS.

There is to be held in Nairobi today, a municipal election which is important from several aspects. In the first place it is a municipal election which is a municipal election in the true sense of the word, in that it is the only election in the city which is not a by-election.

THE BIRTHDAY OF THE MUNICIPALITY.

The Municipal Council of Nairobi today celebrates its birthday. It is a day of great importance to the city, for it is the day when the Municipal Council was first constituted. The Council has since that time done much good work for the city, and it is to be hoped that it will continue to do so in the future.

THE MIBING.

The Mibing, which is a small town in the interior of the country, is a place of great interest. It is a place where the people are very friendly and hospitable, and it is a place where the people are very proud of their town.

or unconsciously ignore the state of affairs which support elected Members would not be placed in a position of power in dealing with the affairs of the country. In our opinion the advantages of the present system are not of sufficient importance to warrant the gradual introduction of a new system, and it is our opinion that the present system should be maintained.

The Municipal Council of Nairobi today meets for the first time since the election. The Council has since that time done much good work for the city, and it is to be hoped that it will continue to do so in the future.

CHAMBER OF COMMERCE.

The Chamber of Commerce of Nairobi today meets for the first time since the election. The Chamber has since that time done much good work for the city, and it is to be hoped that it will continue to do so in the future.

THE BIRTHDAY OF THE MUNICIPALITY.

The Municipal Council of Nairobi today celebrates its birthday. It is a day of great importance to the city, for it is the day when the Municipal Council was first constituted. The Council has since that time done much good work for the city, and it is to be hoped that it will continue to do so in the future.

THE MIBING.

The Mibing, which is a small town in the interior of the country, is a place of great interest. It is a place where the people are very friendly and hospitable, and it is a place where the people are very proud of their town.

Under the Standard Clock. The Standard Clock is a reliable timepiece that is accurate and durable. It is a must-have for every household.

CHAMBER OF COMMERCE.

The Chamber of Commerce of Nairobi today meets for the first time since the election. The Chamber has since that time done much good work for the city, and it is to be hoped that it will continue to do so in the future.

THE BIRTHDAY OF THE MUNICIPALITY.

The Municipal Council of Nairobi today celebrates its birthday. It is a day of great importance to the city, for it is the day when the Municipal Council was first constituted. The Council has since that time done much good work for the city, and it is to be hoped that it will continue to do so in the future.

THE MIBING.

The Mibing, which is a small town in the interior of the country, is a place of great interest. It is a place where the people are very friendly and hospitable, and it is a place where the people are very proud of their town.

Monthly Bulletin.

The total rainfall in Nairobi for the month of January 1926 was 1.65 inches. The highest rainfall was on January 17th, when it was 0.45 inches.

On the 17th inst. a heavy rain fell, which was the heaviest for many weeks since, and it was very welcome, as the crops were beginning to show signs of distress.

On the 18th inst. a heavy rain fell, which was the heaviest for many weeks since, and it was very welcome, as the crops were beginning to show signs of distress.

On the 19th inst. a heavy rain fell, which was the heaviest for many weeks since, and it was very welcome, as the crops were beginning to show signs of distress.

On the 20th inst. a heavy rain fell, which was the heaviest for many weeks since, and it was very welcome, as the crops were beginning to show signs of distress.

On the 21st inst. a heavy rain fell, which was the heaviest for many weeks since, and it was very welcome, as the crops were beginning to show signs of distress.

On the 22nd inst. a heavy rain fell, which was the heaviest for many weeks since, and it was very welcome, as the crops were beginning to show signs of distress.

On the 23rd inst. a heavy rain fell, which was the heaviest for many weeks since, and it was very welcome, as the crops were beginning to show signs of distress.

ADVENTURES AND FAD.

Through the windows of the club I could see the city street and the people who were walking about. It was a scene which was familiar to me, but it was also a scene which was new to me.

It was a scene which was familiar to me, but it was also a scene which was new to me. It was a scene which was familiar to me, but it was also a scene which was new to me.

It was a scene which was familiar to me, but it was also a scene which was new to me. It was a scene which was familiar to me, but it was also a scene which was new to me.

It was a scene which was familiar to me, but it was also a scene which was new to me. It was a scene which was familiar to me, but it was also a scene which was new to me.

It was a scene which was familiar to me, but it was also a scene which was new to me. It was a scene which was familiar to me, but it was also a scene which was new to me.

It was a scene which was familiar to me, but it was also a scene which was new to me. It was a scene which was familiar to me, but it was also a scene which was new to me.

It was a scene which was familiar to me, but it was also a scene which was new to me. It was a scene which was familiar to me, but it was also a scene which was new to me.

It was a scene which was familiar to me, but it was also a scene which was new to me. It was a scene which was familiar to me, but it was also a scene which was new to me.

It was a scene which was familiar to me, but it was also a scene which was new to me. It was a scene which was familiar to me, but it was also a scene which was new to me.

It was a scene which was familiar to me, but it was also a scene which was new to me. It was a scene which was familiar to me, but it was also a scene which was new to me.

It was a scene which was familiar to me, but it was also a scene which was new to me. It was a scene which was familiar to me, but it was also a scene which was new to me.

It was a scene which was familiar to me, but it was also a scene which was new to me. It was a scene which was familiar to me, but it was also a scene which was new to me.

THE FUTURE

Finally, I asked the manager what the future held for Naimauquand. He said that the future was bright and that there were many opportunities for the people of Naimauquand.

He said that the future was bright and that there were many opportunities for the people of Naimauquand. He said that the future was bright and that there were many opportunities for the people of Naimauquand.

He said that the future was bright and that there were many opportunities for the people of Naimauquand. He said that the future was bright and that there were many opportunities for the people of Naimauquand.

Only two Manufacturers Offer "One-Profit" Unit Built Values

ONLY two manufacturers actually build their cars complete—make all their own bodies, engines, clutches, springs, gear boxes, differentials, steering gears, axles, gray iron castings and drop forgings.

To make this possible, Studebaker has for many years invested more than half its earnings in new and finer factory buildings and the most efficient machinery and equipment. Because of this policy, returns amounting to more than £20,000,000 have been built up and devoted exclusively to the production of Studebakers.

This One-Profit principle of manufacture makes possible four great advantages:

1. It eliminates the extra profits received that many other manufacturers have to pay and include in the purchase price to you. This keeps Studebaker prices low.
2. Because of the One-Profit savings, Studebaker is able to offer you a standard, more substantially built auto mobile. We pay a premium for the finest construction. Throughout the entire car, from the hinges of hidden panels—you find the same high quality of materials and workmanship that you see out in the open.
3. It makes possible first quality because Studebaker as an independent manufacturer, with no subsidiary or allied companies to favor, is free to buy on the open market, demanding the finest materials at the lowest possible price. Studebaker purchasing agents are instructed in their search for quality and value.
4. And finally, it enables us to build a better car because the vital parts are designed, engineered and manufactured completely by one organization. Being built as a unit—Studebaker one function as a unit—Studebaker one over-matched construction.

Sealed to Protect Buick Performance

Buick chassis is completely sealed. Iron and steel housing protect the operation of all driving parts—seal them in to safeguard Buick performance. Some cars have some of this protection, but Buick is the only car in the world—regardless of price—that has a wall of defense continuous from fan hub to rear axle against dirt, dust, stones, water and loss of lubricant.

And now to these seals Buick has added three more—

- 1 Oil Filter 2 Air Filter 3 Petrol Filter

Standard Six Touring \$218

Here are the vital points at which Buick engineering provides this protection:

- 1 OIL FILTER—Prevents dirt and water from entering the oil sump. 2 AIR FILTER—Prevents dirt and water from entering the carburetor. 3 PETROL FILTER—Prevents dirt and water from entering the fuel system. 4 WATER PUMP—Prevents water from entering the engine. 5 VALVE TRAIN—Prevents dirt and water from entering the combustion chamber. 6 TRANSMISSION—Prevents dirt and water from entering the gearbox. 7 UNIVERSAL JOINT—Prevents dirt and water from entering the drive shaft. 8 PROPELLER SHAFT—Prevents dirt and water from entering the rear axle. 9 REAR AXLE—Prevents dirt and water from entering the rear wheel hub.

THE EAST AFRICAN STANDARD

Mombasa Times & Uganda Argos

FRIDAY, JAN. 21, 1926

MUNICIPAL FINANCE.

At the request of Government, the Nairobi Town Council has retained the assistance of Messrs. C. H. Ward & Co., Chartered Accountants, to examine the accounts of the Council for the year 1925. The Council has also retained the assistance of Messrs. C. H. Ward & Co., Chartered Accountants, to examine the accounts of the Council for the year 1925. The Council has also retained the assistance of Messrs. C. H. Ward & Co., Chartered Accountants, to examine the accounts of the Council for the year 1925.

that the ratepayers in Nairobi are contributing to the Government revenue very far in excess of the general revenue of the Colony and it suggests that the Government should not only obtain from Nairobi township services for which they very largely contribute but that the cost of these facilities is necessarily borne by the ordinary ratepayers of the municipality. It is believed that the people of Nairobi are in the same position as the ratepayers of the municipalities of the East African States. It is suggested that the Government should consider the possibility of extending the franchise to the ratepayers of the municipalities of the East African States. It is suggested that the Government should consider the possibility of extending the franchise to the ratepayers of the municipalities of the East African States.

Several proposals have been put forward. One of the proposals is that the Government should consider the possibility of extending the franchise to the ratepayers of the municipalities of the East African States. It is suggested that the Government should consider the possibility of extending the franchise to the ratepayers of the municipalities of the East African States.

the letter, who was willing to consider any suggestion on the subject. The fact that the National Chamber of Commerce is forward to the National Chamber of Commerce by specific evidence to put before the public.

Mr. Hamilton suggested that the National Chamber might at the same time press for a consolidation of the shipping services to secure a regular weekly mail service.

This was agreed to. The visiting to the Committee was for the arrangement of the meeting of the National Chamber on February 4, 5 and 6.

NEW MUNICIPAL TAXATION.

(Continued from page 7.)

obtain the same revenue as in present. The Committee are found with the view that more money is required to provide adequately for services to be required by the individual of Nairo...

CONCLUSIONS

On the whole, regarding the Committee would agree that the estimated amount of the present tax (14 per cent) is not excessive.

If the principle is adopted of making direct services pay for themselves, the profits accruing from these services will have to be distributed from the existing rate...

The committee proposes that additional demands are likely to be made on the town in future in connection with such services and making full on additional rates...

implications of the policy of Mr. Baker and Mr. Jamieson, and in addition to continuing the existing policy... The Corporation would be asked to be asked to be asked to be asked...

"We most especially regret that Government should look on our proposals from a limited and partial point of view"

"It can hardly be expected that the Government should be asked to give the Municipality a fair and equitable rate..."

The Committee have been informed that the Corporation has written to the Municipal Council regarding the proposed new taxation...

WHEAT GROWERS

USE EBYOS AND BE FREE OF RUST.

The following is an extract of the Manufacturer's Report:

"Ebyos gives vitality to plant life, enabling it to resist more successfully diseases of all kinds. It is now present in the Argentine with a Wheat crop the area treated with Ebyos was entirely free of 'rust' whereas the neighbouring areas were affected to the extent of 25 per cent."

Supplies are still available from the East Africa Agency. J. G. ARKONSON, P. O. Box 468, NAIROBI.

Only two Manufacturers Offer "One-Profit" Unit Built Values

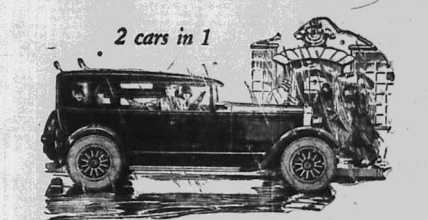

ONLY two manufacturers actually build their cars complete—make all their own bodies, engines, chassis, springs, gear boxes, differentials, steering gears, axles, gray iron castings and drop forgings. One is Ford. The other is Studebaker.

To make this possible, Studebaker has for many years invested more than half its earnings in new and finer factory buildings and in the most modern, most efficient machinery and equipment.

Because of this policy, resources amounting to more than \$200,000,000 have been built up and devoted exclusively to the production of Studebakers.

This One-Profit principle of manufacture makes possible four great advantages:

1. It eliminates the extra profit usually obtained that many other manufacturers have to pay each month in the purchase price to you. That is how Studebaker prices low.
2. Because of the One-Profit savings, Studebaker is able to offer you sturdier, more substantially built automobiles. We pay a premium for the finest steels. We use hand wood in body construction. Throughout the entire car in hundreds of hidden places—you find the same high quality of materials and workmanship that you see on the open

Only STUDEBAKER builds the Duplex!

Studebaker Standard Six Duplex-Phaeton (illustrated) is a splendid example of One-Profit values. It has the most powerful engine of any car in the world of its weight and size. Duplex body, an exclusive Studebaker feature; full size ball bearing tires, genuine Spanish grained leather upholstery; instruments, including an 8-day clock, grouped in an oval panel under glass; light control on the steering wheel and many other desirable features.

Price \$245

CORRESPONDENCE

The Editor does not accept responsibility for the views expressed by correspondents in these columns, and of no account is taken of the address of the writer unless accompanied by a letter, and necessary for publication, but a guarantee of good faith, brevity is also essential to secure consideration.

WHEAT AND BREAD PRICES.

To the Editor, "E.A. Standard."—It is a long time since wheat growing, I have had with interest the various articles and letters appearing in your columns on this subject.

The whole question opened with it I remember rightly, the high price of bread and flour for the most part, and it was suggested that the farmer should accept a fixed, and low price for his wheat (the 2/2 per bush for).

Though the price of wheat is a matter of considerable importance to me as a grower, still I will not argue as to the farmer or otherwise of the suggested fixed price, but I would like to do so in a few columns and thereby if possible do on those requirements for the present agitation regarding the high cost of living, especially as it affects the price of bread and flour.

Now for the comparison. The price of bread in England last September or October was about ninepence halfpenny per lb. loaf, or just about 20 cents per lb. in our money; flour was about the 4/2 per sack and wheat averaged about 3/4 per sack.

Now today, in Nairobi, bread is 4/8 cents per lb. Let us start with that rate in England, the price of wheat and flour should be something like 3/4, 1/0 per sack for flour, and something about 3/4, 5/8 per sack for wheat.

I may be wrong, but I do think the miller would like 3/4, 1/0 per sack for their flour. I have no sort of doubt that the farmer would like 3/4, 5/8 per sack for his wheat, but the only way just now getting this abnormally high price for his commodity is the baker, and yet the farmer is being asked to cut his price for wheat and so thereby keep the bakers in their very happy condition.

Yours etc. P. O. GILG. G. D. WATCHAM. January 15, 1926.

INTERESTED.

To the Editor, "E.A. Standard."—The last with which Mr. Connelley has gone for me, mentions the fact that I had right hand on the local, when I said, "The embargo on local wheat, which has caused the high price of our bread is absurd."

It is not a case of embargoing wheat. The growers were paid for their wheat, and the public had the impression that we were the growers. I merely wanted to say that the wrong impression.

The Director of Agriculture in Council, stated that a bag of wheat contained 70 per cent of his flour. Lord Lansdowne thought the over-estimated it, and that it was about 60 per cent, or as low as 50. Mr. Connelley's statement along and says he gets 25 per cent.

It is very wonderful that all but one of the big wheat prohibitions in Europe have left the country, and that the only one that remains is a banished old sister in the shape of the "Wheat Duties" for the wheat industry but being one of the only wheat duties which might have done something and no good!

I am certain that the consumers know something, and it is up to them to see that a combination of the growers and the bakers is not permitted to cut and command.

Yours etc. G. D. WATCHAM. P. O. GILG. January 15, 1926.
