A GOOD NAME

Whenever the two words—**DOBOS BROTHERS**—are met, they stand as a symbol of unswerving quality. They set up a pattern of a particular kind of motor-car. They set a pace, a particular kind of motor-car workmanship. While people have come to associate with **DOBOS BROTHERS** the name has come to suggest integrity—integrity in the way, in the manufacturing and business methods of the business.

DOBOS BROTHERS are keenly alive to that fact. They realize that the possession of their trademark represents the maintenance of a high standard of quality. They realize that such a name is a superior promise which must be painstakingly fulfilled by a just and fair standard.

An engine in their name is obtained by their motor-car **DOBOS BROTHERS** may be depended upon to outlast any other motor-car.

As long as they build motor-cars they will be the best motor-car **DOBOS BROTHERS** are best.

Keep two sticks in use - saves money

Why? The shaving stick absorbs a certain amount of water when in use. By using good two (GIBBS) Cold Cream Shaving Sticks and using them on alternate days, the 60 hours used allows maximum to evaporate, thus rendering the soap to some extent more tender and gives many more shaves to the stick. The Cold Cream Shaved two (GIBBS) is an excellent skin soother and smooths the most sensitive skin, and gives all the delight of a Cold Cream Massage.

FERTILISE WITH EPHOS

The fertilizer which you use in your garden. You must see how the experiment with "Ephos" turned out. It is the best fertilizer to use, you might fancy I was pulling your leg. This is a pretty fine job justly rewarded, you never saw such a result, even a rough though. I have given potatoes on my life and in many places, but never have I seen potatoes like this lot and further I have seen a quantity of fancy seed because I purchased the seed at the door from a Kikuyu fellow.

A Famous Champane.

ARTHUR, THE BEST
BEVINE IN THE ZOO

Arthur, the famous champane of the London Zoo has died from pneumonia after four days. Though he had not been in the larger circle of human friends than any other specimen, he was one of his species' most eagerly. He was born in the Zoo and had another champagne named down with pneumonia. As soon as they were wrapped and transported to the zoo, they were wrapped in wetted night and day. Arthur was put in Sally's drinking water, for she removed the bottle and attached some for him.

AN IDEAL PATIENT
Four old Arthur was an ideal patient (says the Daily Mail). He swallowed every drop he was told to take, and in the evening from allowed his temperature to be taken without a murmur. When his temperature rose, he was given a little of the medicine at the price of the by-product of two to be actually extracted out of his leg for the treatment. The Zoo got a taste of Arthur's quality soon after he arrived. On a cold day a keeper threw him an apple as a blanket. Arthur examined the parcel found and would even play a simple game of the "best your neighbour" type. He recognized a lion. He could not a knife and fork. Given a fork, he ate it. If you add "up at meal-time," he handled it and ate the fork to you.

KNIFE AND FORK MEALS
A cold chisel was left in his mouth. Arthur got it and used it, quite correctly, to shove out from one of the supports of the wirework.

Playing cards he held quite correctly in his hand—with an odd even between his toes—and would even play a simple game of the "best your neighbour" type. He recognized a lion. He could not a knife and fork. Given a fork, he ate it. If you add "up at meal-time," he handled it and ate the fork to you.
