LOCAL COMMISSION REPORT

COMMENDATIONS OF COAL ENQUIRY COMMISSION.

State-Owned Royalties. IMPRESSION NOT DUE TO MINERS' WAGE DEMANDS.

Municipal Trading. SUGGESTIONS FOR ORGANIZATION OF THE INDUSTRY.

The report of the Royal Commission of Enquiry into the British Coal Industry has now been published. It is a long and important document which will be of great value to the industry and the public alike. It deals with the coal industry in general and with the coal industry in Kenya in particular. It contains a number of valuable suggestions for the improvement of the industry and for the benefit of the public.

"A VERY DANGEROUS POACHER."

Crown Description in Daily Case.

The Magistrate (Mr. F. C. O'Connell), gave judgment on Saturday morning in the case in which a big game hunter, named Mingo, was charged at the instance of the Game Department with shooting a rhino and two giraffes, without a license. The Magistrate said that he must believe the native evidence for the Crown, the more particularly as it was given by natives of widely different tribes. He sentenced Mingo to three years' imprisonment and a fine of £100 for shooting a rhino, and that the amount shall be two years' imprisonment.

THE BELLING RIDE. The report suggested that co-operative villages should be encouraged to engage in belling.

A DANGEROUS POACHER. "This man," said Mr. Justice, "is a very dangerous poacher. He has been convicted on several occasions for shooting game and rhinos, and each time he has been sentenced to a term of imprisonment. He is a man of a very bad character and he is a danger to the public. He is a man who is a danger to the public and he is a danger to the public."

COMMERCIAL AVIATION OVER AFRICA. Effect of Alan Cobham's Pioneer.

The Pioneer, which was flown by Alan Cobham, has been a great success. It has shown that it is possible to fly over Africa and that it is possible to fly over Africa. It has shown that it is possible to fly over Africa and that it is possible to fly over Africa. It has shown that it is possible to fly over Africa and that it is possible to fly over Africa.

Whiteaway, Laidlaw & Co. Ltd., NAIROBI.

BUICK'S impressive leadership

The large and growing number of Buick cars one sees on the roads of Kenya to-day indicate clearly the remarkable success of the cars themselves and the character and efficiency of the service behind them.  

BUICK meets the new demand for performance as no other car in the world has ever done.

Its speed and comfort are unsurpassed even on the roughest of roads.

Its power on hills is a revelation.

Its economy has established an entirely new conception of engine efficiency.

The gliding smoothness and ghostly quietness of the new Buicks are profoundly impressive. Vibration and engine noise are entirely absent.

This remarkable engine performance combined with a light acting and instantaneous car control prove a sheer delight to the driver.

To the superiority of its amazing performance results, the Buick enjoys an absolute freedom from mechanical worry.

An Air Cleaner keeps all dust and road dirt out of the engine.

The Oil Filter purifies the crankcase oil as the motor runs.

The Petrol Filter prevents any foreign substance or water from entering the carburettor.

Dipping Head Lights make night driving perfectly safe.

And these Buick cars are "serviced"

Serviced by highly paid, skilled men, whose loyalty to the organization and its ideals is firmly rooted.

Serviced by men working under ideal conditions in a building designed with special regard for the climate and the particular requirements of the business.

Serviced by alert obliging men who take a pride in their craftsmanship, and with whom you will find it a distinct pleasure to deal.

When better automobiles are built Buick will build them

Is Your Car Reliable

In this country garages are few and far between and it is essential to have a car which you can absolutely depend upon.

The STUDEBAKER is designed to give long service under the most trying conditions. Remember too that the STUDEBAKER is entirely built in one factory where every part is most carefully examined before assembly. This system as against that of buying the various parts from other factories means a much more reliable car.

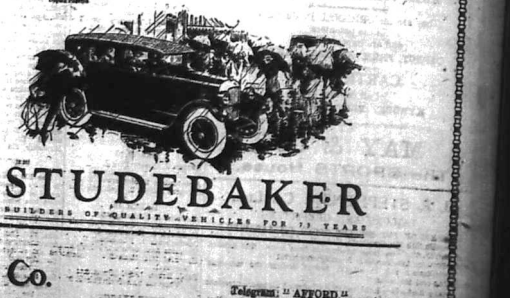

The Studebaker Duplex Meets All Weather Conditions

THE Studebaker Duplex-Fluon combines all the distinctive features given by an excellent car.

workmanship. Unlike other American automobile manufacturers, Studebaker and Ford build cars complete in their own great plants. Only in these two cases are all bodies, engines, chassis, axles, gear-box, springs, differentials, steering gear, radiator, etc., made by one company.

Into the Duplex, and every one-profit Studebaker, go only the finest materials

BUICK'S impressive leadership

The large and growing number of Buick cars one sees on the roads of Kenya to-day indicate clearly the remarkable success of the cars themselves and the character and efficiency of the service behind them.  

BUICK meets the new demand for performance as no other car in the world has ever done.

Its speed and comfort are unsurpassed even on the roughest of roads.

Its power on hills is a revelation.

Its economy has established an entirely new conception of engine efficiency.

The gliding smoothness and ghostly quietness of the new Buicks are profoundly impressive. Vibration and engine noise are entirely absent.

This remarkable engine performance combined with a light acting and instantaneous car control prove a sheer delight to the driver.

To the superiority of its amazing performance results, the Buick enjoys an absolute freedom from mechanical worry.

An Air Cleaner keeps all dust and road dirt out of the engine.

The Oil Filter purifies the crankcase oil as the motor runs.

The Petrol Filter prevents any foreign substance or water from entering the carburettor.

Dipping Head Lights make night driving perfectly safe.

And these Buick cars are "serviced"

Serviced by highly paid, skilled men, whose loyalty to the organization and its ideals is firmly rooted.

Serviced by men working under ideal conditions in a building designed with special regard for the climate and the particular requirements of the business.

Serviced by alert obliging men who take a pride in their craftsmanship, and with whom you will find it a distinct pleasure to deal.

When better automobiles are built Buick will build them

MOUNT KENYA FARMERS' ASSOCIATION.

Wheat Breeding Tests Neglected.
NEW OFFICIALS.
The Annual General Meeting of the Mount Kenya Farmers' Association was held in the White House Hotel, Nairobi, on 11th October 1923.

REVOLUTION.

The meeting that proceeded to pass the following resolutions:
That in future requests for the holding of the Mount Kenya Association be sent to the press.

WHEAT BREEDING.

Mr. K. G. Good says very largely on the last resolution, pointing out that whereas in other districts the approved wheat breeder had not only supplied what growers with much valuable information but also with a service in our case we received an advertisement or a brochure.

A Business Man's Tip.

Colonial Farmers are naturally returned to England from business tours to East Africa, in an address to Liverpool, Robinson says he would advise other business men to do so and see for themselves the wonderful developments in progress. They could then get more of that expanding trade in the country instead of allowing it to go elsewhere.

A VALUABLE BOOK

This book was intended to be a... I was very peaceful... I was very peaceful... I was very peaceful...

Is Your Car Dependable

In this country garages are few and far between and it is essential to have a car which you can absolutely depend upon.

The STUDEBAKER is designed to give long service under the most trying conditions. Remember that the STUDEBAKER is entirely built in one factory where every part is most carefully examined before assembly. This system as against that of buying the various parts from other factories means a much more reliable car.

The Studebaker Duplex Meets All Weather Conditions

THE Studebaker Duplex-Phantom combines all the desirable features of an open car with the protection given by a roofed car. With the Duplex, you can enjoy the rush of fresh air if you will, or in 30 seconds or less, convert it into a snug and comfortable closed car.

and workmanship. Unlike other American automobile manufacturers, Studebaker and Ford build cars exclusively in their own great plants. Only in these great towns, springs, differentials, steering gear, axles, gray iron castings and drop forgings made by our own men.

Into the Duplex, and every one-prafe Studebaker, go only the finest materials.

STUDEBAKER, South Bend, Ind., U.S.A.

BUICK'S impressive leadership

The large and growing number of Buick cars one sees on the roads of Kenya to-day indicate clearly the remarkable success of the cars themselves and the character and efficiency of the service behind them.  

BUICK meets the new demand for performance as no other car in the world has ever done.

Its speed and comfort are unsurpassed even on the roughest of roads.

Its power on hills is a revelation.

Its economy has established an entirely new conception of engine efficiency.

The gliding smoothness and ghostly quietness of the new Buicks are profoundly impressive. Vibration and engine noise are entirely absent.

This remarkable engine performance combined with a light acting and instantaneous car control prove a sheer delight to the driver.

To the superiority of its amazing performance results, the Buick enjoys an absolute freedom from mechanical worry.

An Air Cleaner keeps all dust and road dirt out of the engine.

The Oil Filter purifies the crankcase oil as the motor runs.

The Petrol Filter prevents any foreign substance or water from entering the carburettor.

Dipping Head Lights make night driving perfectly safe.

And these Buick cars are "serviced"

Serviced by highly paid, skilled men, whose loyalty to the organization and its ideals is firmly rooted.

Serviced by men working under ideal conditions in a building designed with special regard for the climate and the particular requirements of the business.

Serviced by alert obliging men who take a pride in their craftsmanship, and with whom you will find it a distinct pleasure to deal.

When better automobiles are built Buick will build them

J. H. CLARK, AGENTS FOR BRITISH MANUFACTURERS.

A GOOD NAME

Wherever the two words—DODGE BROTHERS—are used, they stand as a symbol of exceptional motor-car value.

The name has come to suggest integrity—honesty in the car, and in the manufacturing and business methods of the firm.

DODGE BROTHERS are keenly alive to that fact. They realize that the permanency of their business rests upon the continuance of that good name.

As long as their name is attached to their motor-cars they will be DODGE BROTHERS and they will be DODGE BROTHERS.

As long as they build motor-cars they will be the best motor-cars in the world.

BUICK'S impressive leadership

The large and growing number of Buick cars one sees on the roads of Kenya to-day indicate clearly the remarkable success of the cars themselves and the character and efficiency of the service behind them.

BUICK meets the new demand for performance as no other car in the world has ever done.

Its speed and comfort are unsurpassed even on the roughest of roads.

Its power on hills is a revelation.

Its economy has established an entirely new conception of engine efficiency.

The gliding smoothness and ghostly quietness of the new Buicks are profoundly impressive. Vibration and engine noise are entirely absent.

This remarkable engine performance combined with a light acting and instantaneous car control prove a sheer delight to the driver.

To the superiority of its amazing performance results, the Buick enjoys an absolute freedom from mechanical worry.

An Air Cleaner keeps all dust and road dirt out of the engine.

The Oil Filter purifies the crankcase oil as the motor runs.

The Petrol Filter prevents any foreign substance or water from entering the carburettor.

Dipping Head Lights make night driving perfectly safe.

And these Buick cars are "serviced"

Serviced by highly paid, skilled men, whose loyalty to the organization and its ideals is firmly rooted.

Serviced by men working under ideal conditions in a building designed with special regard for the climate and the particular requirements of the business.

Serviced by alert obliging men who take a pride in their craftsmanship, and with whom you will find it a distinct pleasure to deal.

When better automobiles are built Buick will build them

THE CHAMBER CALLED JERUSALEM

Some Historic Incidents Recalled.

DEATH-CHAMBER OF A KING

(By The Rev. J. Perkins.)

The historic Jerusalem Chamber of Westminster Abbey is known from one end of the world to the other. Few buildings of the same size have witnessed an equal number of famous events.

A FAMOUS BANQUET

Heavy records too, a famous banquet given in the room by a cultured and renowned dean of Westminster, John Wilmers.

A PROPHECY FULFILLED

We must endeavour to picture to ourselves a cold bleak spring evening, a little group of persons here has clustered together for some time at the other end of the Abbey engaged in their delicious lunch, the thrum of the organ was heard in the distance.

derived down the length of the nave. The choir was in the midst of which a few in known to the choir.

Naturally enough in those several days the King had assumed that he would die in Jerusalem.

Heavy records too, a famous banquet given in the room by a cultured and renowned dean of Westminster, John Wilmers.

The group of distinguished visitors were received at the north door of the Abbey and then their seats were designated by a sacred record given by the dean of Westminster.

When the masses had come to an end of the service were accorded to the Jerusalem Chamber where a solemn and noble service was held.

could, light refuge here where they derived themselves to the drawing up of those two enormous thrones.

Here too, as the great assembly of the Coronation comes round are brought the sacred emblems of the Kingdom of Great Britain on the ultimate before the Westminster ceremony.

Is Your Car Reliable

In this country garages are few and far between and it is essential to have a car which you can absolutely depend upon.

The STUDEBAKER is designed to give long service under the most trying conditions. Remember too that the STUDEBAKER is entirely built in one factory where every part is most carefully examined before assembly. This system as against that of buying the various parts from other factories means a much more reliable car.

The Studebaker Duplex Meets All Weather Conditions

THE Studebaker Duplex-Phenon combines all the desirable features of an open car with the protection given by an enclosed car.

and workmanship. Unlike other American automobile manufacturers, Studebaker and Ford build cars complete in body and Ford build cars complete in body and Ford build cars complete in body and Ford build cars complete in body.

£445 F. O. R. Nairobi.

The STUDEBAKER Duplex is a 1922 Model.
