At Last! A HUPMOBILE SIX THE

THE days of "If only Hupmobile would build a Six" are over. Hupmobile has heard the request and answered it.

The New Hupmobile Six is a revelation even to the makers of this superlative motor car themselves. When Hupmobile engineers designed this New Six they plan-ned to maintain their always high standards of quality—but in reality they have surpassed them.

All the comfort, steadfastness, and economy of upkeep that have made Hupmobile distinctive for seventeen

years are preserved; and now previous triumphs are dwarfed by the remarkable abilities of this new. creation-the Hupmobile Six.

The six-cylinder engine in itself inand balance of the crankshaft pre-vent vibration; a special vibration damper makes tremorles; functioning doubly certain.

Economical—powerful in pick-up and speed range—roomy and com-fortable—you will be more than pleased with the motor car you have been waiting for so long.

The Truck that Brockway Builds

The Dominant Factor

The dominant factor back of the time-honored BROCKWAY policy is a basic principle.

No product can be better than the Company which produces it. From the inception of the BROCKWAY MOTOR TRUCK, the whole purpose of the BROCKWAY Company has been to build in accordance with the best practice known to the art. To is the inevitable result. This is the law on which permanence is founded. The BROCKWAY MOTOR TRUCK CORPORATION is a glowing example of the reward which always follows a strict adherence to right principles.

BROCKWAY TRUCKS make good because they are built right and BROCKWAY Service keeps them right CAPACITY 1; TONS.

JOHANNESBURG TO THE

Chevrolet Owner's Good Effort.

Private reliability trials are not confined to the motoring entitu-siests of Kenya who essay, the Mombasa-Nairobi Road.

passable, they decided to truck the car to the first sking across the river—a distance of about five miles. This was accomplished without delay, thanks to ta-Laingsburg station officials.

COVERED IN MUD.

The party arrived in Cape Town covered in mud and unrecognis-able, but the engine was still go-ing well. After a wash-down next morning the car was found to be running as sweetly as ever.

running as sweetly as ever.

On the journey to the coast 3st gallons of petrol was, used for the 1,017 miles covered and a shall pint of oil was put into the sumpest Victoria West, although the oil gauge showed "full." The jectod consumption thus worked out at 50 mapage.

After sight-seeing in the Cape, the return journey was made, the party reaching Johannesburg after a trip of 4,006 miles.

is step of 4,0000 miles.

"The-ceis is just is underful as-ever," says Mr. Asleshook. "We had only one enforced slow had only one enforced slow had only one other enforced, but have was no other enforced, but had been only a pint and a half of oil, the evisum journey we averaged 20 miles pergallon of petrol over the sainly Five State roads."

Mr. Aulesbrook reports that be-youd the oiling of the clutch and greating of steering, nothing has been touched on the car since the commencement of the tour.

African Air-Mail.

A maw sir mail has liven stated between London and French and British West Africa as far as Serra Loon. In. certain weeks the service will extend to the Belliona Coope. The service bellion to the service will extend to be bellion to be transmission of letters to French Seesgels and a proportional saving in respect of other places on the route.

AFRICAN STANDARD basa Times & Uganda Argy

FRIDAY JULY 2 1926.

On the invitation of the Char-man of the Joint East African E.sard, Sir Trevredyn Wynne, a member of the Railway Board of India—and President for a number ears—member of the Imperial Legislative Consult of Italia before the way. A General Director of Indian Indian's at the India Office that Indian's at the India Office that Indian's at the India Office that Indian's at the Indian's at the Indian's Italian's Italian' nt Dire the contract of carrying out the work at Kilindini. Further, he is of the opinion that the available space for railway operations a quite insufficient if the develop-ment of the countries served by Kilindini continues and he has

not apparent from the report we published yeaterday, to support the recommendations of the frost to-trol Commission, emphassing par-ticularly, as we have always done, the essential unity of the transport system of the countries and the vital importance of central could of railways and ports, both State and the countries of the countries of the countries of the countries of the countries and the vital importance of central countries of the or always and ports, both State of railways and ports, both blate-owned, both maintained by a general public who are eventually responsible for the repayment of loan funds, and both controlled financially by the Legislative Councils of the two territories. But Trevredyn Wynne went further and advocated the establishment of the Treventum immediates abbourners. THE FUTURE OF THE FORT. and advocated the establishment a a Port Trust immediately, although he bowed to local opinion to some extent. It was to be expected that the Report of the Port Control Commission would lead to cri-ticism and we had hoped that such ticism and we had hoped that ucein criticism would have been centred, principally, upon the financial side of the problem because we believe that both Kenya and Uganda com-munities are convinced that the present policy of development of the harbour potentialities of Klinia in is sound, that its condinoss has been evidenced by comparase. between present day conditions and the congestion and char-which for some years threatened to strangle the countries, and the chief source of anxiety that had so be removed was whether the port. as a separate department, was cap-able of bearing the burdens of its own extensive development without penalising the industry of the areaown extances developments various of the control of Nilindini continues and he has conne to the general conclusion that Kilindini is a lighterage port and that East Africa is foolishly wasting money in building deep water wherves when all the natural conditions and restrictions point to the soundness of existing methods if they are properly developed. The General Manager of Railways, who was also present at the same

and otherwise, from every depart-ment of the public interested in the future control and develop-ment of Kilindini and the Report

was not entirely the work of non-technical or unpractical men. We recall the employment of experts such as Sir George Buchanan when the Mbaraki outtroversy arose some the Mbaraki controversy arose some years ago and the same danger of introducing red herrings into years ago and the same danger of introducing red herrings into *, perfectly clear road is apparent row. The responsibility for deading upon the future control and and Upsaid derelyes surely upon the people in the country who are providing the nucery as when the providing the nucery and whose cristones depends upon the efficiency of the service; we are unable to discover exactly in what capations are the service of the service was a consideration of the service of the service was a consideration of the service o only the Joint East African Shord invited an expert with a limited period of knowledge of Beat Africas to express an option or in what develors that opinion, when given, develors that opinion, when given, lesses that opinion, when given, the contract of the contract of the theorem at the present time before the Colonial Office for approval; it is being examined there, we faste the contract of the colonial Office for property of the colonial Office for property of the colonial Office of the colonial of the colonial Office of the colonial of the colonial Office of the colonial colonial of the colonial of the colonial that upon the accelerate opinions of the colonial Office of the colonial that upon the accelerate opinions of the colonial Office of the colonial of the that upon the accelerate opinions of the colonial Office of the colonial of the that upon the accelerate opinions of the colonial Office of the colonial of the that upon the accelerate opinions of the that upon the accelerate opinions of the that the colonial Office of the colonial of the that upon the colonial office of the colonial office of the colonial office of the colonial office of the that upon the colonial office of the colonial office of the that the colonial office of the colonial of the colonial office of the colonial office of the colonial office of the that the colonial office of the that the colonial office of the that the colonial office of the colonial office of the colonial office of the that the colonial office of the colonial of the colonial office of the that the colonial office of the colonial of the colonial of the that the colonial office of the colonial of the colonial office of the that the colonial office of the colonial of the colonial of the that the colonial office of the colon mowledge. We had hoped that he Joint East African Board in-ended to support the principle of trusting the men on the spot and of preferring their views before of preferring their views perore those of outsiders unacquainted with local conditions and we still hope that the Board, by the action hope that the Board, by the action of its Chairman, merely intended to encourage all shades of criti-cism for its own information, leaving the actual decision to leaving the actual decision to those who are represented for the large of payments for the larges of payments of the confiss our complete massificity to new where the influence of the Beard can be allowed to enter-into consideration of either the question of the development of the part or of branch railway politics or any other party local trans-port concerns unless it is the opin-ion of the Colonial Office that there is necessarily more know-ledge and without in Y-

methods, not only growth in harbour in view of the fac

At Last! A HUPMOBILE SIX

THE days of "If only Hupmobile vears are preserved; and now previous triumphs are dwarfed by the remarkable abilities of this new creation—the Hupmobile Six."

The New Hupmobile Six is a revelation even to the makers of revenuon even to the makers of this superlative motor car them-selves. When Hupmobile engineers designed this New Six they plan-ned to maintain their always high standards of quality—but in reality they have surpassed them.

All the comfort, steadfastness, and economy of upkeep that have made Hupmobile distinctive for seventeen

previous triumphs are dwarfed by the remarkable abilities of this new creation—the Hupmobile Six.

The six-cylinder engine in itself in-sures smooth running. The weight and balance of the crankshaft pre-vent vibration; a special vibration damper makes tremorless functioning doubly certain.

Economical-powerful in pick-up and speed range—roomy and com-fortable—you will be more than pleased with the motor car you have been waiting for so long.

The Truck that Brockway Builds

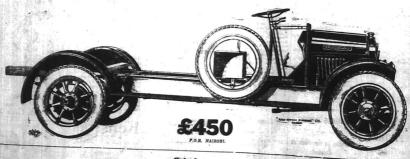

The Dominant Factor

The dominant factor back of the time-honored BROCKWAY policy is a basic principle.

Ine dominant factor back to the time-nonored BRUCKWAY poncy is a Danc principle.

No product can be better than the Company which produces it. From the inception of the BROCKWAY MOTOR TRUCK, the whole purpose of the BROCKWAY Company which produce it. From the inception of the BROCKWAY company which see to build in accordance with the best practice known to the art. To see pace with the scientific mechanical development abutemotive Industry. Build right and Serve fairly, and succeeding the production of the BROCKWAY MOTOR TRUCK CORPORATION is a glowing example of the reward which always follows a strict adherence to right principles.

The BRUCKWAY BRUCKS make good because they are built right and BROCKWAY Service keeps them right. CAPACITY 11 TONS.

MARRIAGE

 MILBURN.—At All hureb, Nairobi, on June rederick Joseph Gooden Milburn. ---

AFRICAN STANDARD SATURDAY, JULY 3, 1926,

The Machakos Show.

In previous years, although there has been an unfortunate departure from the eastern the departure from the eastern that the representative of the Government has met and been entertained by the settlers of the Machako dis-trict at the township which is the modern representative of the out-port which, thirty years ago, and more, figured prominently in the early history of the Rome more, figured prominently in the early history of the European development of K-nya before the development of K-nya before the Uganda Railway created Nairobi and the chain of settlements reaching through the Highlands to the Lake. Machakos has a proud history and we who traved through East Africa in comfort and safety are occasionally forget-ful of the spirit, the sacrifices, the natures and the faith for which natures and the faith for which story of the civilisaon of the Kenya Highlands, But times have changed and Machakos' although still an important link, is left, with its crumbling fort and feding resumer, a historical null-sions in the purposes of a people. The Native Agricultural Show to be held at Machano today is one of the roost striking exidences of that prograve and change. That it stoodal be possible, within the lefel space of two decades—and only that portion of the period since the age in of actual import-ance to present at Machano as done to excourage for their own sakes the arts and eraffus of the people to offer a diplopy of their feding remance a historical milepeople to offer a display of athle tic exercises by school pupils and to include—but as an interesting

made Machako a centre of importance and of safety thirty years age, if a wonderful richus to the perims of British colonia-tion and an encouraging evidence of the influence of the influence of the Paz Zirlassica and of the resilve of the treateship to which it has been been present to the perims of the treateship to which it has been been present to the treateship to which it has been been present to the contract of the treateship to which it has been been present to the present the color of the present the color of the present "cling tenaciously to their old habits and customs, and have an innate dislike of any changes or mant dislike of any changes or innovations. The interests of the clore are mostly concentrated upon cuttle and antive luques. The time of the control of the control inclination to malertake measure labour but will olifer themselves for the more highly paid forms of employment, especially where the employment, especially where the year than the control of the control of the control of the control of the year that the control of the control weekers in the employment of weekers in the employment of works of the control of the control of the social cvid have been the subject of one of the non-interesting and of one of the most interesting and most important experiments in legislation ever attempted by the Government of this country—the Sugar Restriction Ordinance—

revival and reproduction only-a scene of the old safari life which

Government of this contity—the Sugar Restriction Ordinance— which has performed a wonder-ful service to the present and future well-being of an amadingly increating people. A great deal increasing people. A great deal them from their conscrutive attitude to the entitle world and very much of the success historic attention to the success historic strength of th many years of their life to the service of the Akamba. The

many years of their lite to to-service of the Akamba. The show to be held to-day is a fur-ther necessary and encouraging step along the long and difficult road which must yet be travelled towards the emancipation of the Akamba.
