## NATIVE MENTALITY.

A Slight on Kenya's Problems.

## RADE REALIZED.

The following letter and conditions have been received from a correspondent:

"After reading Dr. Gordon's most interesting lecture on native mentality, Abdullah Feroze's address, the Labour Party's able policy, all the speakers in the Conference, Cabinet and the Commission of Enquiry and the various articles on native habits, customs and the like, I am convinced of the following passages from Dr. Gordon on the New Bantuism of Southern in his book, *Human Evolution in Europe*. It reads as a message of warning to all of us who are engaged in the study of the native mind and its problems in connection with our native population. Let us keep our eyes open and be ready to bring through serious experiments on the native mind. I think that it is not in our power to do so in this paper."

## ENCLOSURE.

Some of the things that I have read in your paper are very interesting. I have read the article on the native mind and its problems in connection with our native population. I think that it is not in our power to do so in this paper."
