While a Buick is in no sense a racing car, its ability to reach the high speeds indicated above with smoothness and ease is striking evidence of the tremendous reserve power which is available at ordinary touring speeds.

The Buick cover who turns at low or moderate speeds has the assurance that an enormous reserve power is instantly available for the steepest hills—the deepest sand—or the roughest roads.

### Caravan Adventure with a Saika

**ENTANGLED IN CHAIN OF MISFORTUNE.**

The Rev. E. W. Cass, a clergyman in Southern Rhodesia writes to his brother in England regarding the loss of a caravan which he had recently sent to the Bushveld.

It was not a long trek, accompanied by some native boys, and when the road was possible, made a pathway which was not marked on the map. He was riding along when he had the brake on, and a snake coiled round the hub of the wheel, with the result of his trying very stupidly to get away.

Those who have long followed the Caravan of Nations will be greatly interested in the question of the caravan which was not had long to wait for good news, their inquiries were not answered. It is a long time since we reported that the caravan of the former Governor-General was not had long to wait for good news, their inquiries were not answered. When the caravan was started, the hotel owners said the road was not good, and the caravan was not started. The caravan was not started, and the hotel owners said the road was not good. The caravan was not started, and the hotel owners said the road was not good.

**The Next World Champion.**

A PROSPECT  
By Vincent Edwards  
It is only natural, one that I do not have time to write for this column for the next year, that I should like to see the world champion for the first time. It is only natural that I should like to see the world champion for the first time. It is only natural that I should like to see the world champion for the first time.

WHO WILL BE THE NEXT WORLD CHAMPION? This is the question that I think the greatest number of people will ask me when I see the world champion for the first time. It is only natural that I should like to see the world champion for the first time.

Who is that one? I do not think that I can answer that question. It is only natural that I should like to see the world champion for the first time. It is only natural that I should like to see the world champion for the first time.

THE EAST AFRICAN STANDARD  
NATIONAL STILLS CONTINUED  
It will be interesting to see what will happen. From time to time the nations of the world are in a state of confusion. It is only natural that I should like to see the world champion for the first time.

MEMORANDUMS HAVE:  
For instance, when the British Empire is in a state of confusion, it is only natural that I should like to see the world champion for the first time. It is only natural that I should like to see the world champion for the first time.

Important Details and Statement of Policy  
in the House of Lords.

**THE WITNESS.**

Right, November 17.—The House of Lords today began its consideration of the report of the Committee on the Disarmament Conference. The report, which was presented by Lord Curzon, is the result of the Committee's work since its appointment in 1925. It is a long and detailed document, and it is expected that it will be the subject of a long and interesting debate in the House of Lords.

**THE SOLUTION.**

It had been assumed that the problem of disarmament could be solved by a conference of the nations. But the conference, which was held in Geneva in 1925, failed to reach any agreement. The Committee on the Disarmament Conference, which was appointed in 1925, has now presented its report. It is a long and detailed document, and it is expected that it will be the subject of a long and interesting debate in the House of Lords.

### GLORY AND PATRIOTISM

### A Good Name

Why the new series in which Dodge Brothers are produced need be depicted at tremendous expense, it is well known that the name and fame of Dodge Brothers are far more valuable.

For 15 years Dodge Brothers have kept the faith, and implicit public confidence has been their reward. As a result, there are now over 1,000,000 Dodge Brothers cars in service.

Year after year the car has continued to mature into a better and better product.

Money has been added to dependability, comfort and science to beauty. The quality of every detail has been improved or improved.

The result is a name altogether worthy of the remarkable public trust it inspires, and too precious ever to jeopardize.
