Use of Fuel Oil on the Highways

### AN EXPERT'S OPINION

THE use of fuel oil on the highways is a subject which has been the subject of much discussion in the past. It is now being discussed in the same way in the States.

one person should be selected to take charge of the construction of the road.

2. Why not cover the road with gravel? This will not be a bad idea in the States.

### QUESTIONS ANSWERED

1. It is not necessary to use gravel on the road. It is sufficient to use a good road surface.

to hold up. If we add enough covering material to take up all the oil that the oil from the tires will not be a bad idea in the States.

### QUESTIONS DISCUSSED

1. The use of fuel oil on the highways is a subject which has been the subject of much discussion in the past.

With a Buick in no sense a racing car, its ability to reach the high speeds mentioned above with smoothness and ease is striking evidence of its tremendous reserve power which is available at ordinary touring speeds.

The Buick owner who tours at low or moderate speeds has the assurance that an enormous reserve power is instantly available for the steepest hills the deepest sand—or the roughest road.

to be maintained and paid for by Government. Such an attitude on the part of the public is fatal to any progress.

It is submitted therefore that in order to obtain the improvement of conditions and the general advance of public health and sanitation in the area controlled by the Local Authority, it is essential that such Local Authority accept full responsibility of some nature for the work which is a constructive part of the public health and sanitation work of the Government.

It is submitted that the Government should be asked to consider the possibility of providing a grant-in-aid to the Local Authority to enable it to carry out the work which is a constructive part of the public health and sanitation work of the Government.

Various District Councils have been formed in Kenya, which are controlled by the District Officers, and are for the purpose of carrying out the work which is a constructive part of the public health and sanitation work of the Government.

### CHANGES OF CONTRACT

By Major A. G. P. (London) Editor of "The Motorist" (London)

It is not too late to say that the motor car is not only a means of transport, but a means of pleasure. It is not only a means of transport, but a means of pleasure. It is not only a means of transport, but a means of pleasure.

## SAFETY

### SAFETY IN A RAIN

It is a common mistake to suppose that a motor car is a safe vehicle in all circumstances. In fact, it is only as safe as the driver is. The driver must be alert and watchful at all times, especially in a rain. A rain can be very dangerous, especially if it is a heavy rain. The driver must be able to control the car in such circumstances.

It is a common mistake to suppose that a motor car is a safe vehicle in all circumstances. In fact, it is only as safe as the driver is. The driver must be alert and watchful at all times, especially in a rain. A rain can be very dangerous, especially if it is a heavy rain. The driver must be able to control the car in such circumstances.

## SAFETY

### SAFETY IN A RAIN

It is a common mistake to suppose that a motor car is a safe vehicle in all circumstances. In fact, it is only as safe as the driver is. The driver must be alert and watchful at all times, especially in a rain. A rain can be very dangerous, especially if it is a heavy rain. # These prices make Buick the outstanding value in the motor car world to-day

- Buick Standard Motor Touring ..... **£380**
- 81 h.p. Valve-in-Head Motor-Top speed 70 m.p.h.
- Buick Standard Model 5-Pass. Sedan ..... **£450**
- 81 h.p. Valve-in-Head Motor-Top speed 70 m.p.h.
- Buick Master Model Touring ..... **£465**
- 75 h.p. Valve-in-Head Motor-Top speed 75 m.p.h.
- Buick Master Model Sports Touring ..... **£498**
- 75 h.p. Valve-in-Head Motor-Top speed 75 m.p.h.

While a Buick is in no sense a racing car, its ability to reach the high speeds indicated above with smoothness and ease is striking evidence of the tremendous reserve power which is available at ordinary touring speeds.

The Buick owner who tours at low or moderate speeds has the assurance that an enormous reserve power is instantly available for the steepest hills—the deepest road—the roughest roads.

BUY QUALITY

and be proud of YOUR JUDGMENT

To figure quality first in purchasing a motor car is to own without danger of making a costly experiment.

Motorists everywhere know that Dodge Brothers have built for quality from the beginning.

For example, a far greater percentage of tough and costly Chrome Vanadium Steel is used in Dodge Brothers cars than in any other.

The result is that this car is an investment in proved quality that every Dodge Brothers owner is proud of.

# WILLYS-KNIGHT 70

In the latest development in sleeve valve design. The 7 bearing crankshaft and sleeve valve make it vibrationless.

Oil, petrol and air filters ensure smooth wear. Durable long life.

The large valve openings 2 1/2 in., only obtainable with sleeve valves give maximum induction and scavenging resulting in power and economy. Carbon is no foe to the Willys-Knight because low speeds occur as the expense of idling and idling while grinding is non-existent. A wheel brake powerful and smooth stop the car, quickly, easily and safely.

Acceleration and power can only be realized by A DEMONSTRATION

THE BEST ADVT. A "SATISFIED CUSTOMER" TESTIMONIAL

Dear Sir,

I enclosed please find cheque in payment of the Imperial by Twin Motor Cycle purchased from you. My choice of a motor was made after trying out each of the big Twins available with "Side Car" and of those up the highest hill here for speed and pulling power, found the Imperial the best machine.

(Sgd) H. T. REYNOLDS.

Prospective buyers, will do well to follow the example quoted above, when doubtless the superior qualities of the Imperial "will convince them.

# How far do you intend to drive your CAR?

Nearly any automobile today will give you good service for the first 10,000 miles. That is the reason for the general impression that "almost any car is a good car to buy." But before you buy another motor car, consider your requirements as to service for the first 10,000 miles of your new car. It will tell you that Buick design, Buick quality performance mean real business on through the second, third and many following tens of thousands miles.

This result is certain. Buick is more approximately built than most cars in its price class. Buick is built to last. Any Buick dealer will be glad to show you the Buick advertisement. It will tell you that Buick design, Buick quality performance mean real business on through the second, third and many following tens of thousands miles.

BUY QUALITY and be proud of YOUR JUDGMENT

To begin quality first in purchasing a motor car is to run serious danger of missing a costly opportunity.

For example, a far greater quantity of tough and easily ground Vanadium Steel is used in Dodge Brothers cars than in any other.

The result is that this car is an investment to prove quality that every Dodge Brothers owner is proud of.

# OUR WOMEN'S PAGE

## A Letter from Paris

(By Dora Davis)

As for the time which women wear, some are so completely modern that it is entirely new at times, when it reaches across the wasteful chasm which separates a girl of several nations from the top of the globe.

The more you see of it, the more you are likely to be surprised at the way in which it is being worn. Daily coming from the continent, the fashion is so new that it is difficult to get an exact idea of it. It is so new that it is difficult to get an exact idea of it. It is so new that it is difficult to get an exact idea of it.

### The New Legging.

A sensation of "under" wear is in the wardrobe of modern women, who will appreciate the new, which is a complete combination and perfect fit in form. If you are afraid the use of the new will create a new fashion, you will be surprised to find that the new will be required. These new leggings are made of fine silk or wool, and are so light that they are almost invisible. They are so light that they are almost invisible. They are so light that they are almost invisible.

A better dress than the one you are wearing is the one you are wearing. It is so new that it is difficult to get an exact idea of it. It is so new that it is difficult to get an exact idea of it. It is so new that it is difficult to get an exact idea of it.

The more you see of it, the more you are likely to be surprised at the way in which it is being worn. Daily coming from the continent, the fashion is so new that it is difficult to get an exact idea of it.
