**SMALL DANGERS ADVISED**

[From Our Correspondent.]

Nairobi, Nov. 25.—The Nairobi Office of the East Coast Outbreak has today issued a statement on the "small" dangers of the disease. The outbreak has been reported from the East Coast and is spreading rapidly. The disease is caused by a virus which is highly contagious and is spread by contact with the infected animal. The outbreak is a serious one and it is essential that the public be kept informed of the latest developments. The Nairobi Office is working closely with the Government and the local authorities to control the outbreak and to prevent its spread to other parts of the country.

It is pointed out that the disease is a "small" danger because it is not yet widespread in the country. However, it is a serious one because it is highly contagious and can spread rapidly. The Nairobi Office is working closely with the Government and the local authorities to control the outbreak and to prevent its spread to other parts of the country.

# MOTURING TOPICS

## THE CLOSED CAR

It is interesting in popularity.

## INCREASED COMFORT

It is the tendency nowadays to discover a greater enjoyment of closed cars than open before.

Announced in the 1922 edition of the motorist's guide, the closed car is now in vogue. The latest statistics from the United States show that closed vehicles have a majority of 50 per cent.

### STANDARD OF COMFORT

What does this mean for the motorist? It means that the standard of comfort is higher than ever before. The closed car is now the standard of comfort for the motorist.

## A FEELING OF SUPREMACY

On the return there is a feeling of being here in the great outdoors at all, but there is that feeling of supremacy which is revealed after some time spent in the open air.

## TO TURN TO THE OTHER SIDE OF THE PICTURE

There is no doubt that in certain circumstances and in some people a closed car is a great advantage for the motorist.

## LAND'S END WILL BE MADE IN 1922

It is necessary to get a stage for the car, on the road, and to have a car which is capable of doing the work of a stage.

## A Triumph Performance

There are many operators in the world who are not satisfied with the work of their own cars.

## Another Land Bargain

Well situated and within a few miles of the main railway station, a FARM of 8000 acres with 1000000 lbs of stock.

# How far do you intend to drive your CAR?

Nearly any automobile to-day will give you good results for the first 10,000 miles. That's the reason for the general impression that "almost any car is a good car to-day."

This result is certain. Buick is more expensively built than motor cars in its price class apparently need to be. Any Buick dealer will be glad to show the many uncommon features of Buick design, and to point out the reason for their extra sturdiness.

## NYASALAND

A Country with Immense Possibilities.

### AN UNDISCOVERED JOURNEY FROM INDIA

Your Different Railway Systems and a Freely Traded across the Continent.

#### (Continued)

Probably one of the most distant and finest history of the British East Africa Colonies is the Province of Nyasaland, covering some 60,000 square miles in extent, which is hidden away on the East and South side of the Indian Ocean and almost entirely unexplored.

The first section of the railway from Blantyre to the Victoria Falls, which is 100 miles in length, is now under construction. The second section, from the Victoria Falls to the Zambezi, is also under construction.

The railway from Blantyre to the Victoria Falls, which is 100 miles in length, is now under construction. The second section, from the Victoria Falls to the Zambezi, is also under construction.

It is a country of great beauty and fertility, with a climate that is both healthy and pleasant. The soil is rich and the water is pure. The people are friendly and hospitable.

The railway from Blantyre to the Victoria Falls, which is 100 miles in length, is now under construction. The second section, from the Victoria Falls to the Zambezi, is also under construction.

## THE EAST AFRICAN STANDARD

### NATIVE WAGES

Wages on the lowest in Africa. The standard of living is low, and the people are poor. The government is trying to improve the situation.

The railway from Blantyre to the Victoria Falls, which is 100 miles in length, is now under construction. The second section, from the Victoria Falls to the Zambezi, is also under construction.

How far do you intend to drive your CAR?

Nearly any automobile to-day will give you good results for the first 10,000 miles. That's the reason for the general impression that "almost any car is a good car to-day."

This result is certain. Buick is more expensively built than motor cars in its price class, apparently need to be. Any Buick dealer will be glad to show the many unknown features of Buick design, and to point out the reason for their extra expense. Enormous volume makes possible a superior construction at the Buick price.

BUY QUALITY and be proud of YOUR JUDGMENT

To budget quality first in purchasing a motor car is to run serious danger of making a costly experiment. Motorists everywhere know that Dodge Brothers have built for quality from the beginning. For example, for greater percentage of torque and better Chrome Vibration Shield is used in Dodge Brothers cars than in any other. And this gives it exceptional smoothness. The result is that the car is in its element in paved quality that only Dodge Brothers can give its possessor.

THE DEFENCE FORCE AND NEW TAXATION

In the "Times" of 12th September, the article headed "The D.F. and the New Taxation" is a very interesting one. It is especially so inasmuch as it is written by a man who is well known to the public as a leading authority on the subject of taxation.

Most of those who oppose the bill, do so on the ground that it is not a revenue measure, but a measure of taxation.

It is, however, a revenue measure, and it is a measure of taxation. It is a measure of taxation, and it is a measure of taxation.

THE "TRAMP" whose letter to the East African Standard on the subject of the proposed bill, is a very interesting one.
