**BUY QUALITY
and be proud of
YOUR JUDGMENT**

To meet quality first in purchasing a motor car is to run serious danger of making a costly experiment. Motorists everywhere know that Dodge Brothers have built for quality from the beginning.

For example, for a greater percentage of tough and costly Chrome Vanadium Steel is used in Dodge Brothers cars than in any other. And this gives it exceptional endurance.

The result is that this car is in fact an investment in proved quality that every Dodge Brothers owner is proud of.

How We Got Mother's Holiday.

MOTHER'S EMPLOYMENT.

AS RELATED BY A MEMBER OF THE FAMILY.

(By Stephen Lowndes.)

Last night was mother's birthday. There has been no much talk of the party lately since Mother's Day, and people think things to their own minds that they are not.

We thought it is a fine idea to make a holiday for the family, and in everything we would like to make Mother happy.

We decided that we would make a great day, a holiday for all the family, and in everything we would like to make Mother happy.

We were now plan to make it a day just the Christmas or any big holiday, and we decided to have the house with flowers, and with presents over the celebration, and all that kind of things.

THE TWO GIRLS THOUGHT IT WAS A VERY GOOD IDEA TO MAKE A HOLIDAY FOR MOTHER'S BIRTHDAY.

What, then, do we have to do to make it a holiday for Mother's birthday? We thought it is a fine idea to make a holiday for the family, and in everything we would like to make Mother happy.

YOUR JUDGMENT

To forget quality first in purchasing a motor car is to run serious danger of making a costly experiment.

Motorists everywhere know that Dodge Brothers have built for quality from the beginning.

For example, a far greater percentage of tough and costly Chrome Vanadium Steel is used in Dodge Brothers cars than in any other. And this gives it exceptional sturdiness.

The result is that this car is an investment in proved quality that every Dodge Brothers owner is proud of.

DR. LEYS AND THE KENYA GOVERNMENT.
 Criticism of Instructions to Administrators.

"A SLAVE POLICY."
 The following letter by Dr. Leys is reproduced from the *Mombasa Guardian*:-
 Sir—The point on which I am at issue with Mr. O'Brien is as to the way in which the Government intend to administer the Kenya colony. Mr. O'Brien says that the Government intend to administer the colony as a "slave policy." What I object to is not the "slave policy" but the way in which the Government intend to administer the colony. Mr. O'Brien says that the Government intend to administer the colony as a "slave policy." What I object to is not the "slave policy" but the way in which the Government intend to administer the colony.

THE EAST AFRICAN STANDARD.

AFRICAN TRAINING.
 Mr. O'Brien makes another error of one great importance in the statement of the advantages of his proposed scheme. He says that the Government will be able to employ a large number of Africans in the Government service. This is a very laudable object, and it is one which the Government should be most anxious to achieve. But the question is, how can this be done? Mr. O'Brien says that the Government will be able to employ a large number of Africans in the Government service. This is a very laudable object, and it is one which the Government should be most anxious to achieve. But the question is, how can this be done?
