volting evidences of the state of

among most of the tribes even in

Highland areas. It is a record of

we still require proof, of the enor-

European community in this con-

which must be spont if science

to make any impression upon th.

conditions which exist. It is a re-

te unable, and may still be

grettable fact that the country

diseases would find similar re-

Julging in valuable propagands Phenomenal Growth of the anch as the serve of articles or Labour conditions, dieting and housing to whick we have given space for some weeks, the story

told in another column of the [THROCON BEUTER'S AGENCY.]

Melbourne, Aug. 5.

Representatives of the Minister observations made by: a traveller of Trade and Costons introduced is a very painful reminder of the the Cotton Profilets Bounty Act.
which provides for the grant of
a bounty for 5 years on seed coturgency of a need that has always ex'sted in this country and is to be a bounty for 5 years on seed cot-tion ranging from three farthings to three half pence per pound. totalling £00,000, also a bounty for 5 years for the manufacture of cotton yarms of one-third of a penny to one shilling per pound, totalling £370,600. Half the raw material which is to be used in found in all communities where there is a neglect of conditions affecting health hydenic matheds of life, personal cleanliness, good housing, proper feeding and santary habits and surroundings. The traveller who has told his sandid story to our Coast contemporary the manufacture must be of Aus. does not exaggerate the condition of affairs. We believe that any

the manufacture must be of Australian production.

Melbourne, Aug. 6.

The Herald states that the Cotton Bounty Act emphasiaes the phenomenal growth of the induston Benuty Act emphasises the pulse of the processed provided the industry in Australia and states that Darwin he received a tologram of the processed contracted of the production has compared to the processed of the processed health of the native population he more healthy and bracing we still require proof, of the enor-mous task which has been under-ton goods which she at present taken by the Government and the imports.

> The Great Cane Fire. MIRACULOUS ESCAPE OF

COOPERS' POWDER DIP

Some Convincing Facts

It is the original powder dip-all others are imitations. For 80 years Cooper's Powder has cured scab, eradicated ticks, keds, lice and other insect parasites.

It never varies in strength or composition. It is highly concentrated: therefore economical to transport.

It is nignly concentrated: inercure economical to transport.

It mixes readily with cold water; requires the minimum of trouble to
p: pare, and is perfectly simple to use.

Dised on 90 per cent. of the sheep exhibited at the Royal Show of
Ergland—the greatest livestock exhibition in the world.

Ergland—the greatest investors exhibition in the worm.

It has great protective powers, lasting in the fleece for a long time after dipping, thus preventing re-infection.

ANNUAL SALES SUFFICIENT TO DIP OVER 300,000,000 SHEEP,

HICH IS INDISPLYABLE PROOF OF ITS SUPERME MERIT.

Shs. 80/- per case of 40 packets.

elegrams

Bullox "

SENTINEL WHEELED TRACTORS, for really economical heavy haulage, are unequalled. They are canable of hauling loads of from 5 to 30 tons depending upon the nature of the roads and the fast

Their radius of action on a charge of fuel and water is about treble that of the ordinary type of steam Speed up to 15 miles per hour. Burn wood or coal. With a good quality coal, which we import, the fuel cost per mile under full load is approximately 80 cents. The radius of action on a tank of water is about 15 miles.

Various types of wheels can be fitted according to the nature of the work and roads. They can also be fitted with a winch at the rear for timber bauling, etc. We also supply suitable types of trailers for use with these machines.

For ploughing they are fitted with extra large size steel rear wheels with spuds. Send for full information and illustrated catalogue.

SENTINEL. "ROADLESS" TRACTORS are doing the cheapest ploughing that have been done in Kenya. They burn wood or coal. They have a plough capacity of from 8 to 20 furrows according to the nature of the work.

With olive or other good wood, the fuel consumption is 5 to 6 cubic feet to the acre. With coal, about ½ to ¾ CWT. Water consumption 50 to 60 gallons per acre A full head of steam under full load is easily kept up on fuels such as olive, wattle, blue gum, etc.; or the coal which we import.

McLaren mouldboard or disc ploughs, which we stock, are particularly suited for use with these tractors

For lumbering and haulage contracting where roads are poor or non-existent, these "Roadless" Tractors are ideal.

We stock FULL SUPPLIES OF SPARE PARTS and have expert engineers available

NOW SOLD IN TWO SIZES MORTIBOYS, NICHOLAS & CO.

KENYA BUTTER ON THE LONDON MARKET.

Fate of Experimental Six Ton Export.

Messrs, W. C. Hunter and Co-Messrs. W. C. Hunter and Co. report having received the follow-ing cable from Messrs. Dalgety and Co., regarding the consign-ment of six tons of Butter ex-ported by them on behalf of the Kenya Co-operative Creamery Limited, per the S.S. "Mulbera":

" Quality is of high order of excellence value about four shillings per cwt, below finest quality market quotations; finest quality one seventy

From the above, it will be noted that the value of this butter ON of 1925. Steps of the new of the new and has realized as much as Steps and has realized as much as Steps and 1926. risen to Shs. 172/- per cwt

This is considered by Messrs. W. C. Hunter and Co. to be w. C. Hunter and Co. to be highly encouraging, in view of the fact that this was the first consignment to be exported and that the Kenya Co-operative Creamery Ltd. had only been operating for two months. It is interesting to note that the butter has been given publi-city by the Office of H.M. Over-seas East African Dependencies,

who are now showing a sample of this butter in the window of their premises in Lendon. "The price obtained works out at about Shs. 1/50 per lb, and, after deducting costs, it is computed that the butter would computed that the butter realise about 1/3d, per lb.

Explorers Use This Car Because It Is Dependable

Pioneers and explorers, whose lives depend upon the reliability of the transportation they use, employ Dodge Brothiles Motor Cars almost exclusively. Stefansson used Dodge Brothers Cars through the uncharted deserts of Central Australia. Dr. Roy Chapman Andrews, on three different occasions, penetrated the innermost wastes of Mongolia in a Dodge Brothers Car.

The car's dependability is proverbial; and its exceptional riding comfort permits long travel over bad roads without fatigue.

AUCTION MADE EASY.

The perfect tyre equipment

CORD TYRES (WIRED TYPE)

for Well-Based Rims

DUNLOP made the first-practicable pneumatic tyre in 1888. To day, Dunlop still leads in tyre design and manufacture. By evolving the well-base rim, which is the ideal rim for Balloon tyres, Dunlop has set an example which is being extensively followed.

Dunlop Cord Tyre and well-base equipment should be on your car because of its amply proved safety, simplicity, convenience and durability. If your present car or motor-cycle is not fitted with tyres of this type, we should be glad to advise you regarding conversion.

We have just received an advise that the Dunlop type of well-base rim has been adopted for all Standard Ford Car production. What further proof of its merits are required?

learns that the list of delegates for the forthcoming Agricultural. Cotton, Entomological and Myco-logical Conference is now com-plete, and is as follows:— Union of South Africa.-Messrs. Puller and Koeh

The East African Standard

SATURDAY, AUGUST, 14, 1920.

THE AGRICULTURAL CONFERENCE.

Delegates from Ten Countries and the Cotton Growing Corporation.

A LENGTHY AGENDA

Uganda.-Messrs, Simpson, Mait-Uganda—Messrs, Simpson, Mait-land, Hargreaves and Nye, Tanganyika, — Messrs, Kirby, Ritchie and McCall, Nyasaland,—Messrs, Wortley and

Zaciobar.—Mr. Kirkham and Miss Empire Cotton Growing Corpora

tion.—Messrs, Milligan, Par nell, Salter and Ducker, Belgian Congo .- Monsieur Van den Abeele.

Italian Somaliland.—Siener Ri.

Portuguese East Africa.—Messrs. Grill, Hardenberg, Periera, Ba-Grill, Hardenberg, Periera, Ba-ron Surcouf.

Kenya.—Mossrs. Holm, Bechley, Fox. Anderson, Kirkpatrick, Wilkinson, McDonald. Booth. Bailey, French Burton.

It appears as if the Agenda

would be a very lengthy one, but the full details of it cannot be set-tled until the delegates have as-sembled. South Africa South tied until the defegates have as-sembled. South Africa, South-ern Rhodesia, Nyasaland. Zanzibar, Tanganyika, Portuguese East Africa, Kenya and Uzanda hav-all put forward items for the agenda, and also have suggested Conference, so that they may ob-tain information on certain points in which they are interested; the Empire Cetton Growing Corpora-tion has also put forward many for the Agenda.

for the Agenda.

It seems probable that the Conference will work in sections, one chiefly devoted to Agriculture, one to Cotton and one to Entomology and Mycology, and that theresults of the work of these sections will then come before the Conference, together with AGRICULTURAL PROBLEMS.

The following are some of the items dealing with agriculture which have been suggested by the various Governments

(a) Soil problems in Kenya The economies of industrial alcebol manufacture from egricultural products,

as an industry, especially as regards Nyasaland. The cost of production

milk and butter fat. The chief agricultural pro-lucts for which a satisfactory market could be deve-
