AN DEVELOPMENT OF EAST AFRICA.

Expectations of Colonial Secretary.

[LONDON LETTERS.] London, October 26. Mr. Amery's statement in regard to the progress of the development of East Africa has been very much commended by the press. It is generally expected that the Secretary will consider the further development of the service northwards up to the position in which it will be in the Union of South Africa.

The idea of a railway from the Victoria Nile to the Nile has been a subject of much interest. It is generally expected that the Secretary will consider the further development of the service northwards up to the position in which it will be in the Union of South Africa.

It is believed that the Secretary will consider the further development of the service northwards up to the position in which it will be in the Union of South Africa.

CITY SENSATION IN MOTOR TRADE.

Affairs of Wolseley Motors Limited.

[LONDON LETTERS.] London, October 26. A City sensation is caused by an announcement that joint control of the Wolseley Motor Company has been proposed by the directors. It is generally expected that the Secretary will consider the further development of the service northwards up to the position in which it will be in the Union of South Africa.

It is believed that the Secretary will consider the further development of the service northwards up to the position in which it will be in the Union of South Africa.

Cables and Wireless Link.

EASTERN TELEGRAPH CO. S. AGENCY.

[LONDON LETTERS.] London, October 26. The Eastern Telegraph Company has announced that it has entered into an agreement with the Colonial Secretary to construct a new cable system in East Africa. It is generally expected that the Secretary will consider the further development of the service northwards up to the position in which it will be in the Union of South Africa.

Sugar Factory Stoppage.

TEMPORARY MEASURE DUE TO A GLAD.

[LONDON LETTERS.] London, Oct. 26. With regard to the sugar factory stoppage in East Africa, it is generally expected that the Secretary will consider the further development of the service northwards up to the position in which it will be in the Union of South Africa.

It is believed that the Secretary will consider the further development of the service northwards up to the position in which it will be in the Union of South Africa.

COAL PEACE BELIEVED AT HAND.

Concessions by Miners and Government.

[LONDON LETTERS.] London, Oct. 26. The Trade Union Congress has announced that it has reached an agreement with the Government regarding the coal industry. It is generally expected that the Secretary will consider the further development of the service northwards up to the position in which it will be in the Union of South Africa.

It is believed that the Secretary will consider the further development of the service northwards up to the position in which it will be in the Union of South Africa.

Coal Lockout Position.

The Executive of the T.T.C. are meeting the miners' representatives.

[LONDON LETTERS.] London, Oct. 26. The Executive of the Trade Union Congress are meeting the representatives of the coal industry to discuss the coal lockout position. It is generally expected that the Secretary will consider the further development of the service northwards up to the position in which it will be in the Union of South Africa.

A tooth

It is in a very nice way for you to have a tooth that is as good as a tooth. It is generally expected that the Secretary will consider the further development of the service northwards up to the position in which it will be in the Union of South Africa.

LIGHT LOCOMOTIVES.

LANZ 12-15 B.H.P. CRUDE OIL LOCOMOTIVE.

For light work in the forest, between the rows in sugar and silviculture, etc., this locomotive is cheaper than the use of oxen or boys. In a day's work it uses only 2 to 3 gallons of crude oil.

SENTINEL PATENT LOCOMOTIVES. 80 to 400 H.P. 51 to 50 tons.

For heavier work these steam locomotives are unrivalled. The 80 H.P. model will pull a load of 160 tons at 5 miles per hour on the level and will take a load of 50 tons at 10 miles per hour at a 2 per cent. grade.

J. R. COX & Co. Ltd. Eldoret and Kampala & Jinja.

IMPORTANT ANNOUNCEMENT

FORD and FORDSON OWNERS

— TO —

WITH

The Inauguration of a Cash Sales Policy

YET FURTHER PRICE REDUCTIONS

Effective from 23rd Oct. 1926

It has ever been the FORD policy to manufacture at lowest cost consistent with quality and efficiency; to market FORD, FORDSON and allied products throughout the world with utmost economy, and to restrict adequate profits, so that the purchasing public shall buy at lowest prices, with confidence that they are obtaining the utmost value for their money.

It has been the custom in this Colony to extend credit terms for motor supplies, a system which is uneconomic and is not in vogue elsewhere. This policy with its attendant increased charges and overhead costs, has long been at war with FORD policy of lowest possible prices.

In order to conform with FORD policy and in the interests of the large and ever increasing body of FORD and FORDSON owners, it has been decided to establish prices of all products on a direct cash basis of trading and to transact business on a cash basis only, at all the branches of the underrated Companies, with special arrangements for Hire Purchase sales.

We believe that we may count on the hearty support and co-operation of all FORD and FORDSON owners interested in securing for themselves the full benefit of the FORD "UTMOST VALUE FOR MONEY" policy and of FORD efficiency.

On FORD CARS and TRUCKS Price Reductions will be from £9 to £11.

On Ford and Fordson PARTS 10 per cent. for cash.

WEETS WIN IN EASTERN STATES.

First Results of Elections in America.

[Special Service Section.]
New York, Nov. 5.—The first-known results of yesterday's elections in the very important Democratic and Republican States of New York, Pa., and Ohio, were that Mr. Robert La Follette defeated the present New York Governor, Mr. James Watson, a supporter of President Coolidge. The Democratic candidate, David Walsh defeated Senator Charles Macdonald, chairman of the Republican National Committee in Massachusetts.
The Republican returns include a reduction of 1 and 23 respectively to the Republican majority in the Senate and House of Representatives. It is anticipated that the group of insurgent Republicans will hold the balance.
The prohibition issue in New York State took the form of a vote as to whether Congress should be asked to authorize the prohibitionists what percentage should be imposed. The "wet" side carried by a margin of 1,150,000 majority.
Illinois reported a similar State and Wisconsin favored 275 per cent of base on the prohibition issue.
Minnesota and Colorado voted upon the proposal to modify the State laws.

LATEL RETURNS.
New York, November 5.—Mr. Butler on early, as possible in 1927, the country will be able to finance and redevelop the financial period with rapid growth conditions and sound planning. The loan should be an interesting and important one on which much can be done for personal endeavor. The Budget Members are urged that participation by this country in a loan which carries an Imperial Government may involve the Colony in a measure of Treasury control in the country on its own account at a heavy rate of interest, provided a costly experience and similar arrangements are made for comparison to take the burden. It would perhaps be impossible for the Colony to advance to borrow another large sum. There is of course the possibility that His Excellency might be able to secure personal guarantee on behalf of Kenya which would entail Treasury control to a minimum and remove the fear and if that worst case would not be the same objection to participation. The position has changed since the Imperial Treasury found itself unable to agree to the Colonial Office proposal that the loan should be guaranteed to East Africa for five years of interest for a period and in new circumstances. The desirability of retaining complete financial and political freedom is very important. The political situation generally will also be affected if His Excellency is able to return to England after the 1927 elections have taken place there to every agreement by the Government of the Colonies being held in vain as early as possible in the year.

No British in the Plot.
Purgess, Nov. 3.—Although Mr. Spence and Halkett, mostly the former, were connected with the conspiracy with the Spanish plot. However, the arrested ones or suspected ones on British, as was first stated, were not British.

It is not only to save valuable time but to enable the candidate to see easily to cover their large districts without the handicap of the usual rules. In all the circumstances we hope that affairs of State will permit His Excellency to make the journey—not only will the country gain very greatly from his personal influence and recent knowledge furnished by the colonial representatives in the various spots which the candidates will be returned to Council, but also in the removal of Halkett who will enable Mr. Halkett to return in his own way from the country and the authorities in Downing Street.

Hospital Broadcasting.

BREXIT NEGOTIERS OF LONDON

[By Wireless.]
Roughly November 2, all the bodies on the London, 192 in number, on new fully equipped premises in the Strand and nearly 18,000 inhabitants of patients as the result of influenza, which is still continuing in the Daily News.
Many references to the beneficial results of broadcasting on the patients were made at the Mansion House meeting today during the completion of the British-British Official Wireless Service.

JOHN DEERE 15-27 H.P. TRACTOR

IN THE SIMPLE and STURDY CONSTRUCTION of the DEERE TRACTOR lies its RELIABILITY. It has from 1910 to 1926 less than one fraction of equal H.P.

IT IS EASY to OPERATOR, one under way the operator has ONLY TO STEER THE TRACTOR and pull the plough lift rope; everything else is AUTO-MATIC.

REDUCTION of the Deere's LOW because power is reduced to a minimum; the LOW SPEED ENGINE, AIR CLEANER, OIL STRAINER, GOVERNOR and RUBBER LUBRICATION, together with the fact that all working parts are ENCLOSED FROM DUST, mean long life and FREEDOM FROM TROUBLE.

Before deciding on your tractor for this season allow us to send you further particulars.

4 Furrow Tractor Plough

This plough is right for the Deere Tractor also other tractors of 15 drawbar H.P., it is the best plough in Kenya for dealing with Maize stalk, being by reason of its perfect clearance. The heavy single beam is placed over the disc ensuring penetration and clearance of trash.

HWSEAR LTD. 15-A WAGON WORKS. Write for price 103.

Motorists SAFETY FIRST

- 1. BLIND COORDERS in Nairobi and Kenya generally are a menace to human life. 2. Will all owners of private land and those responsible for public land shutting on motorizing roads which such corners exist save the lives of others, and possibly their own, by making such corners as clear as possible for uninterrupted vision? 3. This can be done with little trouble and by expending very little money. 4. YOU may be the next to CARELESS owing to a blind corner so please help to save lives, and the ambulance siren trouble. L. D. GALT/OS-FEEL, Hon. Secretary, R.E.A.A. Nairobi, 5-11

ROGUE IN KENYA
Comparison with South Africa.

Following the notes published in P. 2, Standard Bally last week by a Kenya Rugby captain, we go to South Africa, the following additional notes have been made regarding a comparison between Kenya Rugby and those of the present time and that of the past.

It is interesting to note that the Kenyan team of last year's season is better than the Kenyan team of this year's season in many respects. It is a pity that the Kenyan team of last year's season was not able to play the full season.

It is interesting to note that the Kenyan team of last year's season was not able to play the full season. It is a pity that the Kenyan team of last year's season was not able to play the full season.

Long Springs-88% of Wheel Base

Long smooth elliptic springs of chrome vanadium steel—rear springs underlung—total length of one rear and one front springing 88% of the wheel base of the car—imagine the comfort of riding on such spring suspension.

Yet this is but one of the features that make for greater riding comfort in the new Chevrolet—new front radiator to rear axle to provide a new feature that is astonishing everybody who sees these cars at our Show Room.

A trailer is shown here, its mechanism being operated by the power take-off of the McCormick-Deering Tractor.

Do You Know About the McCormick-Deering Power Take-Off?

Besides the belt and drawbar McCormick-Deering Tractors have a third power source—the power take-off, for running the mechanism of binders, manure rakes, harvester-threshers, etc., direct from the tractor engine. This handy properly located, properly protected, power take-off always runs at the same speed whether the tractor is in high or low. It can be operated when the tractor is standing still, or a pulled machine can be cleared if stalled. It is gear driven. It runs at a uniform speed. The McCormick-Deering is the original triple-power tractor.

Mccormick-Deering tractors are specially designed to operate by means of their power take-off the following equipment:

- 4-20 tractor 6300
- 11-20 tractor 8500
- 24-20 tractor 11500
- 34-20 tractor 15000

Mccormick Deering Harvester,
McCormick Deering Harvester-Tractor,
McCormick Deering Manure Plough.

If you are farming in maize or wheat the McCormick-Deering tractor is indispensable to you.

The Body of This Car is All Steel—The Latest and Sturdiest Construction Known

The body of this smart, sporty Touring Car is made of steel. Not an ungram of wood supports the steel shell, but instead through-frame walls, ribs and all.

Moreover, every joint and seam is welded or bolted together at intervals producing a single, smooth steel unit.

Nothing to work loose, rattle, or crack the finish. A body that lasts for years—the most enduring type known.

Dodge Brothers invented a frame in steel and equipped it with their motor cars. One reason why today they rank third in the world in sales.

SATURDAY'S FOOTBALL.

Drawn Game in Girouard Cup Final.

Another Interesting and Fast Match.

The number of spectators at the Coleridge ground on Saturday for the football game, Service did not fall behind Coleridge and Coleridge did not fall behind Service...

With the match on the previous day the football was intensely interesting throughout and there was hardly a dull moment...

After further midday play Coleridge got on the top again and Service was a wonderfully improved side...

The result of play Coleridge had the balance in their favour by a large margin, but while the Coleridge side was in the lead...

Furthermore, the Mombasa forwards were not always in position to take advantage of the service...

At the close of the match Mombasa was awarded the Girouard Cup...

At the close of the match Mombasa was awarded the Girouard Cup...

Service and Mombasa were given a goal of gold to do, hidden behind the Service goalposts with a long dropping shot, to be followed by a corner with a similar effect, which Pyhlin again did well, although missed.

The Service had another goal in the second half, but this was again missed by O'Shail.

Service won the toss and opened the attack by kicking the ball into play...

Union Racing.

RESULTS OF METROPOLITAN HANDICAP. (From Our Own Correspondent's Report.)

The following is the result of the Metropolitan Handicap race which was run on Friday, November 1st...

At the other end of the race, following a pretty, passing movement by the Service forwards, Mombasa was given a body shot by E. Walter...

AS FINE AS MONEY CAN BUILD

EVERYONE aspires to possess in his car the finest performance, the greatest luxury possible.

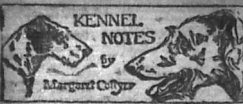

And so we say to everyone who desires to own a car as fine as money can build, you owe it to yourself—no matter what car you may be driving today—to equip it by actual experience with the wonder charm of the Chrysler Imperial "Six".

Fine motor cars will be measured henceforth by this new Chrysler criterion, which comprehends a great increase in power, in speed capacity and pliability, a new luxury of operating ease and smoothness, new heights in every phase of detail of luxurious case.

We are more than willing—we are eager to demonstrate the entirely new interpretation which the Chrysler Imperial "Six" gives to supreme motoring.

EXCEPTIONAL RAINS IN UGANDA.

Steamer Cut Off on Lake Kioga.

[DROU OCA OVER CORRESPONDENT.]

We had three fine and very hot days last week but on Friday the correspondents stated again that it had been raining ever since off on Monday (or) in consequence of these exceptional rains the level of the Lake and the Nile (or) river are to be expected to rise from the middle of the Lake Kioga in 1926, after such heavy rains as we are experiencing at the present time, the S.W.S. Steamer started two miles on what was had from Lall Fort to Soroti and passed up to Soroti, and was to be down of the Fort with plenty of water to spare.

LAKI KIOGA

All loadings to Mainland Port and beyond to Lake Kioga, etc. are suspended indefinitely again. There is a barrier of mud an miles wide which is inaccessible at the moment. The S.W.S. Steamer port through to Mainland Port about a fortnight ago and the mud closed in behind her. She cannot get back to her base at Nansugali and it is not likely that she will get out a passage for her before the middle of December. All trade for this part of the Federated State is going to be affected. The steamer has been out for nearly two weeks. The mud however, has been cut by water and it is not likely to get a heavy rain in connection with this service.

ROADS

On the other hand Mainland has had sufficient rain to get the road to all F.I.T. and was waiting on the F.W.T. certainly deserves the marks for the manner in which the work has been done. The roads are in a very good way and the work is going to be done right through to the coast.

CAPTAIN ASSOCIATION

The Annual meeting of the Association takes place on Saturday night at 10 a.m. when the new rules proposed to enhance the scope of the Association will be discussed and the forming of a committee will be arranged to carry out the work of the Association in connection with the proposed to amend the constitution.

ARTS AND CRAFTS

The artists of Uganda are going to exhibit their talents on the 15th, 16th, 17th and 18th November next in the second floor of the Whiteaway building. This is the first time anything of the kind has been attempted since the number of

Holeproof Hosiery

NEVER forget that the exquisite appearance of Holeproof Hosiery—the lovely new colours, the lustrous fabric, the style—but one part of its superiority. Note that in Holeproof, as in no other hosiery, there is quality to match beauty. Amazing ability to wear—to withstand laundering. Ask your dealer. Look for the Holeproof trademark. Wear this famous Milwaukee brand for style—and economy, too.

Exclusive in pure silk and other combed—organ women and children. HOLEPROOF HOSIERY CO., MILWAUKEE, WIS., U.S.A. The Importers for British East Africa, KENTLES-ROY LTD., NAIROBI

The Associated Chambers. The half-yearly session of the Associated Chambers of Commerce will take place at Paris during the week which ends in December. Nairobi Chamber will appoint delegates at the November general meeting.

Post Questions. Each Chamber informed the Government on Friday that it was difficult to formulate views on the question of the future control of the post in the absence of the report of the Imperial Shipping Commission. It is not the case that direct information is limited to any one level matter. A full survey of the findings of the Commission appeared in the East African Standard on September 7th in the weekly edition, and the complete report has been in the Standard office for nearly two months.

New Strength

Both blood and nerves suffer from the direct, throbbing danger of excess, and in all cases the same and address of the writer must accompany a letter, not necessarily for publication, but as a guarantee of good faith. Directly it is also essential to receive consideration.

PROBLEM OF NAIROBI YOUNG MEN.

To the Editor, "E.A. Standard."

By its history, October 20 (today) at 6:15, I propose to state my personal opinion, which is not a personal opinion, but is a guarantee of good faith. Directly it is also essential to receive consideration.

Per some time I have realized that the young men of Nairobi have very little to do between sundown and bedtime and a generation is springing up who have no idea how to spend their spare time in the evening. Having done the round of the picture here, is overture whatever for them to go after dark, where they can have healthy exercise and recreation.

The gymnasium will be lit by electric light and can be used, in this country, on most nights of the year, and will, I think, be all the better for being out of doors.

As time goes on, I expect to have more under-qualified instructors, and Report-Major Christian of the K.A.A. has already undertaken to instruct in gymnastics and fencing. The Rover Society are helping me to make the apparatus. I anticipate that it will cost me at least £50 to cover all expenses.

Who will give me a hand?

The gymnasium will be used twice a week, as a start, once by the Rover and once by anyone who likes to coach. The only condition is that everyone who comes agrees to abide himself under the orders of the instructor in charge, otherwise there might be accidents.

I do not understand a religion which is not concerned with the body and mind as well as the soul; if certainly, is not Christian, so here goes!

Yours, etc.

S. E. SWANN,
St. Mark's Chaplaincy,
Nairobi.

WOODWARD'S GRIPE WATER

"You can't go on like this!"

Why rub your own health as well as baby's? That is what a new signal means to you. From every cause comes this in a safe, simple remedy in Woodward's Gripe Water. This is what a trained nurse writes to me—

"I have recently been nursing a patient with an ailment in the stomach. I had administered several bottles of Woodward's Gripe Water and the result was a complete recovery. I have since used it on several other cases and have found it to be a most reliable remedy. It is highly recommended by modern nurses and doctors, and is the only medicine of the kind that is safe for infants."

WOODWARD'S GRIPE WATER
THE BEST REMEDY FOR COLIC, INDIGESTION, STOMACH AFFECTIONS, BRUISES, SCURF, AND ALL THE ILLS AND PAINS TO WHICH INFANTS ARE SUBJECT.

THE LABOUR PROBLEM.

To the Editor, "E.A. Standard."

By—50 months has been said on the Labour Question. During the past few months of rather more, than I hesitate to add any further suggestions on the subject but I am convinced that the situation which is undoubtedly very critical is not a conditionally caused as far as office matters with established plantations, are concerned, if the following steps were taken.

(1) Goods and prices cut immediately from Nairobi and other centres all employees who are not being employed together with all the women living with them.

(2) Let the Kenya and Uganda plantations employ their own special trains until offer special facilities to their plantations in any quantities however small, as well as during the long period of picking season a great deal could be done in this way.

(3) Let all coffee plantations with the least ability in connection with a central clearing factory and their coffee then either dried partially dried for treatment. The amount of labour which is to be used at all seasons during the picking season engaged in handling coffee and more especially beans picking season, which is heavy on estate would now be better off financially, but not such thousands of people in expensive machinery which is still waiting to treat the "bumper crop" and the thousands of people looking for an employer with accumulating labour.

(4) In my opinion, the labour situation in regards reading and labour in Kenya is the most important to mention. There is no doubt that the machinery for all cases needs are for years to come. I only want to suggest:

(a) Abolish the professional recruit.

(b) Encourage him and others to start a system of working, picking or any other unskilled work by contract with large raising agents in the present moment by planter in cutting his neighbours. Growing and his own by abolishing him in the labour market. Except for brief certain times of the year I am convinced that there is no need whatever for those present cut gangs of labour on a plantation. It is a well known fact that there are thousands of men making their way on plantations month by month picking beans.

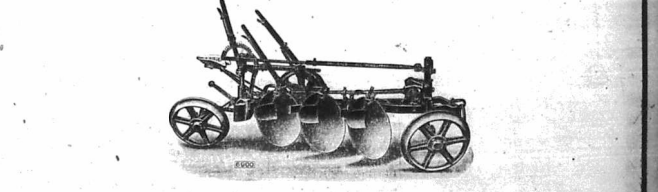

There have probably not 5000 men for recruiting for and the thousands of people in need of employment, when not really recruited.

Let contractors from their own gangs and travel from their own labour to another, undertaking the work of their own hands. I suggest retain the contractor who has his plants to make but should labour will always be forthcoming, who prefer it or who do so. It is so.
